Russia And China Their Diplomatic Relations To 1728:

Russia and China Mark Mancall,1971 **Russia and China** Leo Ou-fan Lee,Mark Mancall,1971 **Asia in the Making of Europe** Donald Frederick Lach,Edwin J. Van Kley,1965 First systematic inclusive study of the impact of the high civilizations of Asia on the development of modern Western civilization **Russia and China** Aleksei Dmitrievich Voskresenskiĭ,2003 This study incorporates elements from the disciplines of international relations and history to address key international and domestic elements that have shaped the interactions between Russia and China over time It demonstrates how changes in the inter state relationship were and are initiated Controversial issues are examined through previously unobtainable materials from sources including the Archives of Foreign Policy of the Russian Empire the Archives of Foreign Policy of the Russian Federation and the Russian Centre for the Preservation and Research of the Documents of Modern History **The Global Circulation of Chinese Materia Medica, 1700-1949** Di Lu,2023-03-11 This book explores the dissemination of knowledge around Chinese medicinal substances from the eighteenth to twentieth centuries in a global context The author presents a microhistory of the caterpillar fungus a natural medicinal substance initially used by Tibetans no later than the fifteenth century and later assimilated into Chinese materia medica from the eighteenth century onwards Tracing the transmission of the caterpillar fungus from China to France Britain Russia and Japan the book investigates the tensions that existed between prevailing Chinese knowledge and new European ideas about the caterpillar fungus Emerging in eighteenth and nineteenth century Europe these ideas eventually reached communities of scientists physicians and other intellectuals in Japan and China Seeking to examine why the caterpillar fungus engaged the attention of so many scientific communities across the globe the author offers a transnational perspective on the making of modern European natural history and Chinese materia medica **China and Japan in the Russian Imagination, 1685-1922** Susanna Soojung Lim,2013-03-05 Throughout the centuries as Russia strove to build itself into an imperial power equal to those in the West China and Japan came to occupy a special place in Russians view of the orient Never colonised by Russia or the West China and Japan were linked not only to the greatest of Russian imperial fantasies but also conversely to a deep sense of insecurity regarding Russia's place in the world a sense of insecurity which deepened as China and Japan began to modernise in the later nineteenth century Drawing on a wide range of works by Russian writers and thinkers Lim sets out how Russian perceptions of China and Japan were formed from Muscovy's first contacts with China in the late seventeenth century through to the aftermath of Russia's defeat by Japan in the early twentieth century Beyond the Amur Victor Zatsepine,2017-03-09 Beyond the Amur describes the distinctive frontier society that emerged in the Amur a river region that shifted between Qing China and Imperial Russia as the two empires competed for resources Official histories depict the Amur as a distant battleground caught between rival empires Zatsepine by contrast views it as a unified natural economy populated by Chinese Russian Indigenous Japanese Korean Manchu and Mongol people who crossed the border in search of

work or trade and who came together to survive a harsh physical environment This colourful account of a region and its people highlights the often overlooked influence of frontier developments on state politics and imperial policies and histories

Imperial Visions Mark Bassin, 1999-06-24 In the middle of the nineteenth century the Russian empire made a dramatic advance on the Pacific by annexing the vast regions of the Amur and Ussuri rivers Although this remote realm was a virtual terra incognita for the Russian educated public the acquisition of an Asian Mississippi attracted great attention nonetheless even stirring the dreams of Russia's most outstanding visionaries Within a decade of its acquisition however the dreams were gone and the Amur region largely abandoned and forgotten In an innovative examination of Russia's perceptions of the new territories in the Far East Mark Bassin sets the Amur enigma squarely in the context of the Zeitgeist in Russia at the time Imperial Visions demonstrates the fundamental importance of geographical imagination in the mentality of imperial Russia This 1999 work offers a truly novel perspective on the complex and ambivalent ideological relationship between Russian nationalism geographical identity and imperial expansion

China Marches West Peter C Perdue, 2009-06-30 From about 1600 to 1800 the Qing empire of China expanded to unprecedented size Through astute diplomacy economic investment and a series of ambitious military campaigns into the heart of Central Eurasia the Manchu rulers defeated the Zunghar Mongols and brought all of modern Xinjiang and Mongolia under their control while gaining dominant influence in Tibet The China we know is a product of these vast conquests Peter C Perdue chronicles this little known story of China's expansion into the northwestern frontier Unlike previous Chinese dynasties the Qing achieved lasting domination over the eastern half of the Eurasian continent Rulers used forcible repression when faced with resistance but also aimed to win over subject peoples by peaceful means They invested heavily in the economic and administrative development of the frontier promoted trade networks and adapted ceremonies to the distinct regional cultures Perdue thus illuminates how China came to rule Central Eurasia and how it justifies that control what holds the Chinese nation together and how its relations with the Islamic world and Mongolia developed He offers valuable comparisons to other colonial empires and discusses the legacy left by China's frontier expansion The Beijing government today faces unrest on its frontiers from peoples who reject its autocratic rule At the same time China has launched an ambitious development program in its interior that in many ways echoes the old Qing policies China Marches West is a tour de force that will fundamentally alter the way we understand Central Eurasia

The Chinese State at the Borders Diana Lary, 2011-11-01 The People's Republic of China claims to have 22 000 kilometres of land borders and 18 000 kilometres of coast line How did this vast country come into being The state credo describes an ancient process of cultural expansion border peoples gratefully accept high culture in China and become inalienable parts of the country And yet the centre had to fight against manifestations of discontent in the border regions not only to maintain control over the regions themselves but also to prevent a loss of power at the edges from triggering a general process of regional devolution in the Han Chinese provinces The essays in this volume look at these issues over a long span of time questioning

whether the process of expansion was a benevolent civilizing mission **Russia and China** Michal Lubina, 2017-10-23 This book depicts the sophisticated relationship between Russia and China as a pragmatic one a political marriage of convenience Yet at the same time the relationship is stable and will remain so After all bilateral relations are usually based on pragmatic interests and the pursuit of these interests is the very essence of foreign policy And as often happens in life the most long lasting marriages are those based on convenience The highly complex complicated ambiguous and yet indeed successful relationship between Russia and China throughout the past 25 years is difficult to grasp theoretically Russian and Chinese elites are hard core realists in their foreign policies and the neorealist school in international relations seems to be the most adequate one to research Sino Russian relations Realistically throughout this period China achieved a multidimensional advantage over Russia Yet simultaneously Russia China relations do not follow the patterns of power politics Beijing knows its limits and does not go into extremes Rather China successfully seeks to build a longterm stable relationship based on Chinese terms where both sides gain albeit China gains a little more Russia in this agenda does not necessary lose just gains a little less out of this asymmetric deal Thus a new model of bilateral relations emerges which may be called by paraphrasing the slogan of Chinese diplomacy as asymmetric win win formula This model is a kind of back to the past a contemporary equivalent of the first model of Russia China relations the *modus vivendi* from the 17th century achieved after the Nerchinsk treaty

account of the Chinese is unsurpassed This is must reading for all Asiaphiles DD Asia Mail **From Yuan to Modern China and Mongolia** Morris Rossabi, 2015-01-27 This wide ranging work consisting of selected essays of Morris Rossabi reflects the diverse interests of a leading scholar of China and Inner Asia It encompasses the eras from the thirteenth century to the present territories stretching from China to Mongolia to Central Asia and to the Middle East and religions from Islam to Nestorian Christianity to Judaism and Confucianism in East Central and West Asia Rossabi first challenged the conventional wisdom concerning traditional Chinese foreign relations by showing the pragmatism of Chinese officials who were not bound by Confucian strictures and stereotypes about foreigners and were actually knowledgeable about neighboring regions His studies of the territories surrounding China led to the discovery of a major omission in historical writing the lack of a biography of Khubilai Khan one of the most renowned rulers in Eurasian history His biography of Khubilai resulted in further studies of the Mongolian legacy on global history and of the significant role of women in the Mongolian empire His repeated travels in Mongolia in turn stimulated an interest in modern Mongolia especially the turbulence following the turbulence after the collapse of socialism in 1990 a subject he writes about in this book The need for greater public knowledge and awareness of China Mongolia Central Asia the Silk Roads and Islam in Asia prompted Rossabi to write general occasionally pedagogical articles about these topics for a wider audience **The Modernization of Inner Asia** Cyril E. Black, Louis Dupree, Elizabeth Endicott-West, Daniel C. Matuszewski, Eden Naby, Arthur N. Waldron, 2016-09-16 Inner Asia in premodern times the little known land of nomads and semi nomads has moved to the world s front page in the 20th century as the complex struggles for the future of Afghanistan Soviet Central Asia Tibet and other territories make clear But because Inner Asia as a whole is divided among several states politically and among area specialists academically broad perspectives on recent events are difficult to find This work treats the region as a single unit providing both an account of the region s past and an analysis of its present and its prospects in a thematic rather than a strictly country by country manner

On Their Own Terms Benjamin A. Elman, 2009-07-01 In On Their Own Terms Benjamin A Elman offers a much needed synthesis of early Chinese science during the Jesuit period 1600 1800 and the modern sciences as they evolved in China under Protestant influence 1840s 1900 By 1600 Europe was ahead of Asia in producing basic machines such as clocks levers and pulleys that would be necessary for the mechanization of agriculture and industry In the seventeenth and eighteenth centuries Elman shows Europeans still sought from the Chinese their secrets of producing silk fine textiles and porcelain as well as large scale tea cultivation Chinese literati borrowed in turn new algebraic notations of Hindu Arabic origin Tychonic cosmology Euclidian geometry and various computational advances Since the middle of the nineteenth century imperial reformers early Republicans Guomindang party cadres and Chinese Communists have all prioritized science and technology In this book Elman gives a nuanced account of the ways in which native Chinese science evolved over four centuries under the influence of both Jesuit and Protestant missionaries In the end he argues the Chinese produced modern science on their

own terms *Modern China* Bruce A. Elleman, S. C. M. Paine, 2019-02-18 Now in a fully updated edition this accessible text provides a balanced history of modern China in a global context The authors focus especially on China's culture warfare and immediate neighbors and provide a unique comparative approach to bridge the cultural divide separating Chinese history from Western readers trying to understand it *The Russian Discovery of Japan, 1670-1800* David N. Wells, 2019-08-30 During the period of the Tokugawa shogunate's seclusion policy from about 1630 onwards there was very little European interaction with the Japanese except through the restricted Dutch presence at Nagasaki During this period however Russians exploring Siberia and the Russian Far East came into contact with Japan and further exploration and information collecting was encouraged by the Russian government culminating in the first official Russian Embassy to Japan in 1792 This book examines the Russian discourse on Japan in the period tracing the gradual accumulation of knowledge and the development of Russian views sometimes distorted about Japan The book includes key historical documents some translated into English for the first time The book is a prequel to the author's previous book *Russian Views of Japan 1792-1913: An Anthology of Early Travel Writing* **From Soviet to Russian International Law** George Ginsburgs, 1998-01-01 Russia's international law persona is still in its infancy and it will take a while for the cycle to run its full course However significant changes have already occurred in some areas thus offering an opportunity to analyze the trends here and track the process of emergence of successor doctrines and practices destined to replace the Soviet heritage The quartet of topics selected for treatment in this volume the relationship between international and domestic law citizenship and state succession the Sino-Russian boundary problem and cooperation with China in policing crime illustrates major shifts in Russia's international law policy in a bid to shed the corset of Communist ideology and the old regime's modus operandi and join the international community's mainstream culture The test cases also attest to the difficulties encountered in the process of transition and show that progress on this front has by no means been uniform The sample includes both instances where the break with the past looks quite pronounced and where greater distancing from precedent might logically have been expected but for reasons that are then explored a sense of substantive continuity instead prevails albeit made more palatable by an application of linguistic cosmetics *From Soviet to Russian International Law* Studies in Continuity and Change marks the occasion of the author's 65th birthday and the 40th anniversary of his publishing debut **Early Modern China and Northeast Asia** Evelyn S. Rawski, 2015-06-05 In this revisionist history of early modern China Evelyn Rawski challenges the notion of Chinese history as a linear narrative of dynasties dominated by the Central Plains and Hans Chinese culture from a unique peripheral perspective Rawski argues that China has been shaped by its relations with Japan Korea the Jurchen Manchu and Mongol States and must therefore be viewed both within the context of a regional framework and as part of a global maritime network of trade Drawing on a rich variety of Japanese Korean Manchu and Chinese archival sources Rawski analyses the conflicts and regime changes that accompanied the region's integration into the world economy during the sixteenth and

seventeenth centuries Early Modern China and Northeast Asia places Sino Korean and Sino Japanese relations within the context of northeast Asian geopolitics surveying complex relations which continue to this day Quest for Status Deborah Welch Larson,Alexei Shevchenko,2019-01-01 A look at how the desire to improve international status affects Russia s and China s foreign policies Deborah Welch Larson and Alexei Shevchenko argue that the desire for world status plays a key role in shaping the foreign policies of China and Russia Applying social identity theory the idea that individuals derive part of their identity from larger communities to nations they contend that China and Russia have used various modes of emulation competition and creativity to gain recognition from other countries and thus validate their respective identities To make this argument they analyze numerous cases including Catherine the Great s attempts to westernize Russia China s identity crises in the nineteenth century and both countries responses to the end of the Cold War The authors employ a multifaceted method of measuring status factoring in influence and inclusion in multinational organizations military clout and cultural sway among other considerations Combined with historical precedent this socio psychological approach helps explain current trends in Russian and Chinese foreign policy
