Russian Strategic Thought toward Asia Gilbert Rozman, Kazuhiko Togo, 2006-11-27 The book explains the Putin era's ambivalent approach to Asia and finds lessons from earlier approaches worthy of further attention The overview compares how strategic thinking evolved while reflecting on factors that shaped it Russian Politics in Exile F. Patrikeeff, 2002-08-06 This work explores Russian life in Northern Manchuria during the period of political economic and social upheaval leading to its eventual de facto control by Japan and disruption of the balance of power in the Northeast Asian Region Presenting a fresh interpretation of the combined impact of the 1929 Sino Soviet Conflict and the onset of the Great Depression the book examines the interplay of Soviet and emigr Russian interests in Manchuria and their role in generating the instability that led to Japanese intervention and Russian decline **Japan and Russia in Northeast Asia** Vladimir I. Ivanov, Karla S. Smith, 1999-03-30 This collection of essays by leading scholars and diplomats involved with the area examines the key political and economic issues facing Japan Russia and their neighbors since the end of the Cold War The main goal is to analyze recent developments in Moscow Tokyo bilateral relations and their growing interest in closer economic engagement stability and regional cooperation The volume provides readers with an in depth analysis of the very problems and opportunities that compelled the national leaders of Japan and Russia to drastically change the format and contents of the dialogue to address the most critical issues not only of the moment but also for the future The volume is a crucial resource for scholars policy makers and students involved with Asia Pacific economic cooperation and Japanese and Russian foreign policy *Russia and Its Northeast Asian Neighbors* Kimitaka Matsuzato, 2017 As a result of the Aigun 1858 and Beijing Treaties 1860 Russia had become a participant in international relations of Northeast Asia but historiography has underestimated the presence of Russia and the USSR in this region This collection elucidates how Russia's expansion affected early Meiji Japan's policy towards Korea and the late Qing Empire's Manchurian reform Russia participated in the mega imperial system of transportation and customs control in Northern China and created a transnational community around the Chinese Eastern Railway and Harbin City The collection vividly describes daily life of the emigre Russians community in Harbin after 1917 The collection investigates mutual images between the Russians and Japanese through the prism of the descriptions of the Japanese Imperial House in Russian newspapers and memoirs written by Russian POWs in and after the Russo Japanese War and war journalism during this war The first Soviet ambassador in Japan V Kopp proposed to restore the division of spheres of interest between Russia and Japan during the tsarist era and thus conflicted People's Commissar of Foreign Affairs G Chicherin the Soviet ambassador in Beijing L Karakhan and Stalin since the latter group was more loyal to the cause of China's national liberation As a whole the collection argues that it is difficult to understand the modern history of Northeast Asia without taking the Russian factor seriously **Sovereignty Experiments** Alyssa M. Park, 2019-03-15 *Sovereignty Experiments* tells the story of how authorities in Korea Russia China and Japan through

diplomatic negotiations border regulations legal categorization of subjects and aliens and cultural policies competed to control Korean migrants as they suddenly moved abroad by the thousands in the late nineteenth century Alyssa M Park argues that Korean migrants were essential to the process of establishing sovereignty across four states because they tested the limits of state power over territory and people in a borderland where authority had been long asserted but not necessarily enforced Traveling from place to place Koreans compelled statesmen to take notice of their movement and to experiment with various policies to govern it Ultimately states efforts culminated in drastic measures including the complete removal of Koreans on the Soviet side As Park demonstrates what resulted was the stark border regime that still stands between North Korea Russia and China today Skillfully employing a rich base of archival sources from across the region Sovereignty Experiments sets forth a new approach to the transnational history of Northeast Asia By focusing on mobility and governance Park illuminates why this critical intersection of Asia was contested divided and later reimaged as parts of distinct nations and empires The result is a fresh interpretation of migration identity and state making at the crossroads of East Asia and Russia

Research On China's Strategy And Policy In Northeast Asia Qingcai Liu, 2024-11-27 Research on China's Strategy and Policy in Northeast Asia offers a comprehensive in depth and

systematic analysis of China's strategy and policy in Northeast Asia. It examines the region's political, economic, security-related, and cultural dynamics with a focus on key issues and territorial sovereignty disputes. The research integrates theoretical, applied, strategic, and policy-based research methods to provide a multifaceted perspective. The analysis is framed through the lens of major country diplomacy with Chinese characteristics and China's foreign policy towards Northeast Asia. This book explores China's strategic vision for Northeast Asia, emphasizing the evolving international system in the region and China's strategic responses. It argues for the establishment of a new order of international relations in Northeast Asia characterized by equality, mutual trust, good neighborliness, and cooperation. Additionally, the book addresses three fundamental issues: security threats and the development of security mechanisms, energy security challenges and energy system development, and the enhancement of trade, investment, facilitation, and regional economic cooperation. This book is an engaging read for scholars specializing in political, economic, security, and cultural research on Northeast Asia, as well as policymakers and strategists focused on China's foreign policy and diplomatic efforts in the region.

Peace in Northeast Asia Thomas J. Schoenbaum, 2008. This book takes an in-depth look at Japan's long-festering territorial and maritime disputes with its three neighbors: China, South Korea, and the Russian Federation. Japan has established friendly relations with all three former adversaries since the end of World War II, but these sovereignty issues remain. All three disagreements have recently flared into potentially violent incidents that could erupt again at any time. This book explores each situation and proposes concrete compromise solutions to each of the outstanding disputes.

Energy Security Cooperation in Northeast Asia Bo Kong, Jae H. Ku, 2015-04-24. Drawing on cutting-edge research from leading scholars, this book investigates state preferences for regime creation and assesses state capacity for executing these preferences in Northeast Asia's energy domain, defined as the geographical area comprising the following countries: Russia, Mongolia, China, Japan, South Korea, and North Korea. It examines questions pertaining to how states perceive the need and necessity for establishing a regime when it comes to the issue of energy and how much commitment they make to the effort in Northeast Asia. The book analyses the factors that shape each country's fundamental energy interests in the region, how these interests impact their attitudes toward engaging the region on energy security, and the way they carry out their regional engagement. Based on countries' interests in promoting institutionalized regional energy cooperation and their capacity for forging that cooperation, the collection assesses each state's role in contributing to an energy regime in Northeast Asia. It then concludes with a critique on the decade-plus quest for energy security cooperation in Northeast Asia and suggests ways forward for facilitating regional energy security cooperation. This book will be of great interest to scholars and students of environmental policy, energy policy, security studies, Asian studies, and international relations.

Policing Northeast Asia Se Hyun Ahn, 2020-06-02. This book explores the progress in and the obstacles surrounding developing comprehensive security cooperation between Russia and South Korea since diplomatic relations were established in 1991 within the framework of

economic security The book focuses on oil and natural gas projects linking the Trans Siberian and Trans Korean Railroads industrial development in the Nakhodka Free Economic Zone fishery cooperation and the arms trade and examines whether these five aspects of cooperation serve to contribute to building Russian South Korean bilateral and regional economic security The author argues that these five aspects of cooperation all have the potential to enhance comprehensive bilateral security and further regional economic security in Northeast Asia However Russian South Korean economic cooperation has been hampered by a number of obstacles including domestic factors as well as external factors and prevented Russia and South Korea from fulfilling their potential for creating a cooperative comprehensive security relationship The author concludes with an assessment on the utility of the concept of multi dimensional security cooperation as a framework for studying and improving the prospects for Russian South Korean bilateral relations

Northeast Asia Vinod K. Aggarwal,Min Gyo Koo,Seungjoo Lee,Chung-in Moon,2008-09-26 Can regional mechanisms better institutionalize the increasing complexity of economic and security ties among the countries in Northeast Asia As the international state system undergoes dramatic changes in both security and economic relations in the wake of the end of the Cold War the Asian financial crisis and the attack of 9 11 this question is now at the forefront of the minds of both academics and policymakers Still little research has been done to integrate the analysis of security and economic analysis of changes in the region within a broader context that will give us theoretically informed policy insights Against this backdrop this book investigates the origins and evolution of Northeast Asia s new institutional architecture in trade finance and security from both a theoretical and empirical perspective
