Halliday**, 1970 *Stalinism and the Dialectics of Saturn* Douglas Greene, 2023-03-20 This study examines the debates history and theory surrounding Stalinism and the Soviet Union The author argues that the growing popularity of socialism in the United States calls for a renewed look at the legacy of Stalinism *The Sino-Soviet Dispute* Alfred D. Low, 1976 Provides an analysis of the conflict between the Soviet Union and the People's Republic of China focusing on the polemics Attempts to trace and analyze Soviet and Chinese policies toward each other on the basis of available documents and general evidence *The Chinese Communist Party In Power, 1949-1976* Jacques Guillerma, 2019-07-16 This book traces the history of the Chinese Communist Party's behavior toward itself and the way it has created and developed the regime on the state of affairs at home and abroad and on a compelling ideology dominated by the giant like personality of Mao Tse tung **Russia, China and the West 1953-1966** Isaac Deutscher, 1970 **Russian Policy Towards China and Japan** Natasha Kuhrt, 2007-12-24 Drawing on the most up to date sources this book provides an in depth examination of Russia's relations with China and Japan the two Asia Pacific superpowers in waiting For Russia there has always been more than one Asia after the collapse of the Soviet Union there were those in the Russian elite who saw Asia as implying the economic dynamism of the Asia Pacific with Japan as the main player However there were others who saw the chance for Russia to reassert its claim to be a great power based on Russia's geopolitical and geoeconomic position as a Eurasian power For these China was the power to engage with together China and Russia could control both Heartland and Rim both Eurasia and Asia Pacific whereas accepting Japan's conception of Asia implied regional fragmentation and shared sovereignty This book argues that this strand of thinking mainly confined to nationalists in the El tsin years has now under Putin become the dominant discourse among Russian policymakers Despite opportunities for convergence presented by energy resources even for trilateral cooperation traditional anxiety regarding loss of control over key resource areas in the Russian Far East is now used to inform regional policy leading to a new resource nationalism In light of Russia's new assertiveness in global affairs and its increasing use of the so called energy weapon in foreign policy this book will appeal not only to specialists on Russian politics and foreign policy but also to international relations scholars [The China Factor](#) Gerald Segal, 2018-09-18 The purpose of this book first published in 1982 is to analyse certain crucial aspects of the great power triangle in order to establish a more complete picture of the role of China in the superpower balance These essays examine the key political economic and military issues involved in the complex relations between the three great powers **Comrades!** Robert Service, 2007 Service offers a history of communism drawing the uncomfortable conclusion that the poverty and injustice that

enabled its rise are still dangerously alive Unsettling and compelling this is a comprehensive study of one of the most important movements of the modern world *Routledge Library Editions: China Under Mao* Various,2021-06-23 This 13 volume collection of previously out of print titles reissues some key works in the study of Mao Zedong's huge influence on China its politics economics and development into the power that it is today Foreign policy the Cultural Revolution the fate of opponents Chinese Marxist thought all are covered here and more in this essential reference resource **The Richard Burton Diaries** Richard Burton,2012-10-15 The irresistible candid diaries of Richard Burton published in their entirety Just great fun and written out of an engaging often comical bewilderment How did a poor Welshman become not only a star but a player on the world stage that was Elizabeth Taylor's fame Hilton Als New Yorker com Of real interest is that Burton was almost as good a writer as an actor read as many as three books a day haunted bookstores in every city he set foot in bought countless books on every conceivable subject and evaluated them rather shrewdly Apt writing abounds John Simon New York Times Book Review Irresistibly magnetic on stage mesmerizing in movies seven times an Academy Award nominee Richard Burton rose from humble beginnings in Wales to become Hollywood's most highly paid actor and one of England's most admired Shakespearean performers His epic romance with Elizabeth Taylor his legendary drinking and story telling his dazzling purchases enormous diamonds a jet homes on several continents and his enormous talent kept him constantly in the public eye Yet the man behind the celebrity facade carried a surprising burden of insecurity and struggled with the peculiar challenges of a life lived largely in the spotlight This volume publishes Burton's extensive personal diaries in their entirety for the first time His writings encompass many years from 1939 when he was still a teenager to 1983 the year before his death and they reveal him in his most private moments pondering his triumphs and demons his loves and his heartbreaks The diary entries appear in their original sequence with annotations to clarify people places books and events Burton mentions From these hand written pages emerges a multi dimensional man no mere flashy celebrity While Burton touched shoulders with shining lights among them Olivia de Havilland John Gielgud Claire Bloom Laurence Olivier John Huston Dylan Thomas and Edward Albee he also played the real life roles of supportive family man father husband and highly intelligent observer His diaries offer a rare and fresh perspective on his own life and career and on the glamorous decades of the mid twentieth century **Deng Xiaoping** Michael Dillon,2014-10-27 One of the most important figures in global politics during the second half of the 20th century Deng Xiaoping is generally considered the central figure behind China's economic liberalization programme that produced historically unprecedented growth rates and development beginning in the late 1970s Lifting nearly a billion people out of poverty Deng Xiaoping's Four Modernisations called for reform in agriculture industry military and science and technology Today these reforms are considered to be the crucial turning point in modern Chinese history enabling China to effectively harness its previously latent power in its quest to become a global economic superpower Just ten years after this tremendous achievement Deng's brutal suppression of the democracy movement at Tiananmen Square

severely undermined his international and domestic reputation To explain the seeming contradictions between Deng Xiaoping s desire for economic liberalization and political conservatism Michael Dillon s biography utilizes recently released Chinese sources to detail Deng Xiaoping s emergence from a minority second class community in the Sichuan province via education in France to his meteoric rise to the top of the CCP s political hierarchy illustrating the ways in which his life of struggle and survival shaped his political career Dillon s biography addresses Xiaoping as both an intensely committed communist capable of playing a principal role in the Great Leap Forward from 1958 to 1961 while incurring the wrath of Mao only ten years later as he was exiled and purged during the Cultural Revolution Emphasizing Deng Xiaoping s effectiveness as a party operator and political bruiser rather than an intellectual capable of formulating the reforms for which he eventually took credit this book sheds light on Deng s ability to capitalize upon the planning expertise of other party members This biography of the central figure in China s economic liberalization is essential for any reader interested in or affected by China s rise to global prominence The Berlin Crisis of 1961 Robert M. Slusser,2019-12-01 Originally published in 1973 This book uses the Berlin Crisis of 1961 as a starting point to investigate Soviet American relations in the Khrushchev period The book first chronicles the timeline of the succession of events during the Berlin Crisis and their interrelation It then turns to the close interaction between Soviet and foreign policy before situating the event into the broader timeline of Soviet history Triangles, Symbols, and Constraints Charles M. Dobbs,2010 In his five plus years as president of the United States Lyndon Johnson witnessed dramatic power struggles within and between the Soviet Union the People s Republic of China and the United States of America New Soviet leaders were determined to build Soviet power and extend Soviet influence Mao s revolutionary ideology so dominated China that there were few levers to move Sino American relations ahead Johnson wanted to ease Cold War tensions by reaching a range of agreements with the Soviet Union on nuclear weapons and establishing relations with the People s Republic of China in order to end its isolation in the world community However multiple events frustrated Johnson s good intentions The Soviet leadership that overthrew Nikita Khrushchev was committed to expanding its military might before negotiating with Washington it also began focusing more and more on the worsening Sino Soviet split Mao Zedong entered into the Great Proletarian Cultural Revolution and China seemed to devour itself Meanwhile the Vietnam War made negotiations among all three great powers more difficult limiting room to maneuver But Johnson persevered and by 1968 the apparent American retreat symbolized by the North Korean seizure of the USS Pueblo and the Communist Tet Offensive in Vietnam along with the Soviet invasion of Czechoslovakia seemed to change the construct between the great powers Beijing emerging from the worst of the Cultural Revolution increasingly feared Soviet intentions and Moscow wanted to prevent a Sino American rapprochement Although Johnson did not achieve his lofty goals he created the pre conditions that Richard Nixon later harvested for the d tente with Moscow and rapprochement with Beijing Johnson s best intentions fell prey to triangles symbols and constraints *China, the*

Superpowers, and the Third World Shen-Yu Dai,1974 *USSR, Analytical Survey of Literature* United States. Department of the Army,1976 **Operation Vulture** John Prados,2014-01-30 This is the little known story of how the American President and his cabinet carried the United States to the brink of war in Indochina and potentially China in 1954 Americans and the U S were intimately involved in the key battle that ended the French occupation of Vietnam Operation Vulture tells the story of secret U S efforts to sustain the French in Indochina of the men who labored alongside the French military of the frantic behind closed door meetings and confrontations in Washington as diplomats sought the American s intervention and of President Dwight D Eisenhower s reluctant step back from sending in the Marines and using atomic bombs Presenting the story from the U S French and Vietnamese points of view this eBook edition of Operation Vulture is completely revised and rewritten with new text on almost every international facet of the Dien Bien Phu battle It provides the most detailed treatment of the secret plan to drop tactical nuclear weapons there It includes fresh material on American naval and air operations on the CIA and French intelligence on U S and French efforts to relieve the besieged fortress on the historical disputes over the diplomacy of Dien Bien Phu and Geneva and on the cover up of Eisenhower era records of these events Also included are new maps specifically prepared for this edition PRAISE A detailed and readable study Foreign Affairs Dr Prados s perceptive account gains impressive credence from his extensive use of recently declassified material Army Magazine John Prados is a clever and prodigious digger of historical fact Evan Thomas New York Times Bestselling Author **Newsletter - South African Institute of International Affairs** South African Institute of International Affairs,1971 *Useful Adversaries* Thomas J. Christensen,2020-05-05 This book provides a new analysis of why relations between the United States and the Chinese Communists were so hostile in the first decade of the Cold War Employing extensive documentation it offers a fresh approach to long debated questions such as why Truman refused to recognize the Chinese Communists why the United States aided Chiang Kai shek s KMT on Taiwan why the Korean War escalated into a Sino American conflict and why Mao shelled islands in the Taiwan Straits in 1958 thus sparking a major crisis with the United States Christensen first develops a novel two level approach that explains why leaders manipulate low level conflicts to mobilize popular support for expensive long term security strategies By linking grand strategy domestic politics and the manipulation of ideology and conflict Christensen provides a nuanced and sophisticated link between domestic politics and foreign policy He then applies the approach to Truman s policy toward the Chinese Communists in 1947 50 and to Mao s initiation of the 1958 Taiwan Straits Crisis In these cases the extension of short term conflict was useful in gaining popular support for the overall grand strategy that each leader was promoting domestically Truman s limited containment strategy toward the USSR and Mao s self strengthening programs during the Great Leap Forward Christensen also explores how such low level conflicts can escalate as they did in Korea despite leaders desire to avoid actual warfare **Counterfactual Thought Experiments in World Politics** Philip E. Tetlock,Aaron Belkin,2020-06-30 Political scientists often ask themselves what might have been if

history had unfolded differently if Stalin had been ousted as General Party Secretary or if the United States had not dropped the bomb on Japan. Although scholars sometimes scoff at applying hypothetical reasoning to world politics, the contributors to this volume, including James Fearon, Richard Lebow, Margaret Levi, Bruce Russett, and Barry Weingast, find such counterfactual conjectures not only useful but necessary for drawing causal inferences from historical data. Given the importance of counterfactuals, it is perhaps surprising that we lack standards for evaluating them. To fill this gap, Philip Tetlock and Aaron Belkin propose a set of criteria for distinguishing plausible from implausible counterfactual conjectures across a wide range of applications. The contributors to this volume make use of these and other criteria to evaluate counterfactuals that emerge in diverse methodological contexts, including comparative case studies, game theory, and statistical analysis. Taken together, these essays go a long way toward establishing a more nuanced and rigorous framework for assessing counterfactual arguments about world politics in particular and about the social sciences more broadly.
