Out of the Shadows, Into the Streets! Sasha Costanza-Chock, 2014-10-31 An exploration of social movement media practices in an increasingly complex media ecology through richly detailed cases of immigrant rights activism For decades social movements have vied for attention from the mainstream mass media newspapers radio and television Today many argue that social media power social movements from the Egyptian revolution to Occupy Wall Street Yet as Sasha Costanza Chock reports community organizers know that social media enhance rather than replace face to face organizing The revolution will be tweeted but tweets alone do not the revolution make In *Out of the Shadows Into the Streets* Costanza Chock traces a much broader social movement media ecology Through a richly detailed account of daily media practices in the immigrant rights movement the book argues that there is a new paradigm of social movement media making transmedia organizing Despite the current spotlight on digital media Costanza Chock finds social movement media practices tend to be cross platform participatory and linked to action Immigrant rights organizers leverage social media creatively even as they create media ranging from posters and street theater to Spanish language radio print and television Drawing on extensive interviews workshops and media organizing projects Costanza Chock presents case studies of transmedia organizing in the immigrant rights movement over the last decade Chapters focus on the historic mass protests against the anti immigrant Sensenbrenner Bill coverage of police brutality against peaceful activists efforts to widen access to digital media tools and skills for low wage immigrant workers paths to participation in DREAM activism and the implications of professionalism for transmedia organizing These cases show us how savvy transmedia organizers work to strengthen movement identity win political and economic victories and transform public consciousness forever [Fraggle Rock Volume 1](#) Jim Hensen, Various, 2010-09-07 It s time to dance your cares away as Archaia and The Jim Henson Company invite you to return once again to Fraggle Rock Join Gobo Mokey Wembley Boober and Red for a brand new series of hilarious and heartfelt adventures written and drawn by some of the most imaginative creators in comics Whether you re a fan of the original series or new to the world of the Fraggles this is one title you don t want to miss Just watch out for Gorgs **Songs in the Key of Z** Irwin Chusid, 2000 Irwin Chusid profiles a number of outsider musicians those who started as outside and eventually came in when the listening public caught up with their radical ideas Included are The Shaggs Tiny Tim Syd Barrett Joe Meek Captain Beefheart The Cherry Sisters Daniel Johnston Harry Partch Wesley Willis and others [Family theme parks, happiness and children's consumption](#) David Cardell, 2015-09-24 This book provides an ethnographic contribution to research on children s consumption family life and happiness Various and shifting notions of happiness are explored as well as conditions for and challenges to happiness through an analysis of video recorded interviews and mobile ethnography conducted in two of the most popular theme parks in Sweden Initially the study outlines how previous research has conceptualized happiness in association with time and place in a rather static way Based on a treatise of notions of happiness

in philosophy and the social sciences there is a turn in this thesis towards practice It generates fundamental knowledge about the complexity of happiness By employing this approach it is possible to highlight how happiness is enacted as part of and in relation to ideals of family life time childhood money consumption experiences and material things As we explore the practices of children and their families we discover that shifting meanings of happiness are located in contemporary culture where emotions and consumption are of central importance The approach is interdisciplinary and draws on theoretical and methodological contributions in sociology anthropology and Science and Technology Studies STS Notions of meshwork and enactment become important for the exploration of happiness as a complex and changing matter which productively involves social relations and material things Throughout the thesis there is a dialogue with previous research on happiness consumption and childhood which highlights the importance of exploring messy practices in movement It is argued that explorations of practice contribute to a critical understanding of how happiness and contemporary ideals of childhood can be approached through consumption and as part of citizenship in a consumer society where happiness is of central importance

Video Yvonne Spielmann,2010-08-13 An argument that video is not merely an intermediate stage between

analog and digital but a medium in its own right traces the theoretical genealogy of video and examines the different concepts of video seen in works by Vito Acconci Ulrike Rosenbach Steina and Woody Vasulka and others Video is an electronic medium dependent on the transfer of electronic signals Video signals are in constant movement circulating between camera and monitor This process of simultaneous production and reproduction makes video the most reflexive of media distinct from both photography and film in which the image or a sequence of images is central Because it is processual and not bound to recording and the appearance of a frame video shares properties with the computer In this book Yvonne Spielmann argues that video is not merely an intermediate stage between analog and digital but a medium in its own right Video has metamorphosed from technology to medium with a set of aesthetic languages that are specific to it and current critical debates on new media still need to recognize this Spielmann considers video as transformation imagery acknowledging the centrality in video of the transitions between images and the fact that these transitions are explicitly reflected in new processes After situating video in a genealogical model that demonstrates both its continuities and discontinuities with other media Spielmann considers three strands of video praxis documentary experimental art and experimental image making which is concerned primarily with signal processing She then discusses selected works by such artists as Vito Acconci Ulrike Rosenbach Joan Jonas Nam June Paik Peter Campus Dara Birnbaum Nan Hoover Lynn Hershman Gary Hill Steina and Woody Vasulka Bill Seaman and others These works serve to demonstrate the spectrum of possibilities in video as medium and point to connections with other forms of media Finally Spielmann discusses the potential of interactivity complexity and hybridization in the future of video as a medium Communication, Control, and Computer Access for Disabled and Elderly Individuals Dale Bengston, 1987 Grant G008300045 Resourcebook 3 doc resume
