Magic Lands John M. Findlay, 1992-01-01 The American West conjures up images of pastoral tranquility and wide open spaces but by 1970 the Far West was the most urbanized section of the country Exploring four intriguing cityscapes Disneyland Stanford Industrial Park Sun City and the 1962 Seattle World's Fair John Findlay shows how each created a sense of cohesion and sustained people's belief in their superior urban environment This first book length study of the urban West after 1940 argues that Westerners deliberately tried to build cities that differed radically from their eastern counterparts In 1954 Walt Disney began building the world's first theme park using Hollywood's movie making techniques The creators of Stanford Industrial Park were more hesitant in their approach to a conceptually organized environment but by the mid 1960s the Park was the nation's prototypical research park and the intellectual downtown for the high technology region that became Silicon Valley In 1960 on the outskirts of Phoenix Del E Webb built Sun City the largest most influential retirement community in the United States Another innovative cityscape arose from the 1962 Seattle World's Fair and provided a futuristic somewhat fanciful vision of modern life These four became magic lands that provided an antidote to the apparent chaos of their respective urban milieus Exemplars of a new lifestyle they are landmarks on the changing cultural landscape of postwar America The American West conjures up images of pastoral tranquility and wide open spaces but by 1970 the Far West was the most urbanized section of the country Exploring four intriguing cityscapes Disneyland Stanford Industrial Park Sun City and the 1962 Seattle World's Fair John Findlay shows how each created a sense of cohesion and sustained people's belief in their superior urban environment This first book length study of the urban West after 1940 argues that Westerners deliberately tried to build cities that differed radically from their eastern counterparts In 1954 Walt Disney began building the world's first theme park using Hollywood's movie making techniques The creators of Stanford Industrial Park were more hesitant in their approach to a conceptually organized environment but by the mid 1960s the Park was the nation's prototypical research park and the intellectual downtown for the high technology region that became Silicon Valley In 1960 on the outskirts of Phoenix Del E Webb built Sun City the largest most influential retirement community in the United States Another innovative cityscape arose from the 1962 Seattle World's Fair and provided a futuristic somewhat fanciful vision of modern life These four became magic lands that provided an antidote to the apparent chaos of their respective urban milieus Exemplars of a new lifestyle they are landmarks on the changing cultural landscape of postwar America **Film**

Landscapes Graeme Harper, Jonathan Rayner, 2014-08-26 This book brings together critical and theoretical essays examining the connections between films and landscapes It showcases the work of established and emerging academics whose research probes the complex relationships between moving images and the filmed environment and accounts for the impactful effects of viewing lived spaces and human places on screen The essays in this collection actively engage with examples of contemporary popular and art cinema genre films and auteur canon historical films propaganda documentary

and animation in their explorations of the meanings with which filmed landscapes are endowed and invested The breadth of the study is matched by the depth of the interest with writers here approaching the subject of film landscapes as critics as film practitioners and as teachers of film studies and film making Film Landscapes gives voice to a great many ideas and includes coverage of a great many films but it also points forward to ways in which we might revisit discussions of the environments of film and consider ways in which history and creativity critical understanding and the interaction of human beings and place could be reconsidered and revised to produce new insights Landscapes in Oil Ken Salaz,2019-03-19 Landscapes in Oil is the first ever comprehensive guide to classical landscape painting reinterpreted for the twenty first century Drawing from the tradition established by American painters of the Hudson River School artists like Thomas Cole Frederic Church and George Inness author and painter Ken Salaz reveals great masters philosophy and methods updating their approaches for the contemporary landscape painter Beginning painters are given the basic tools and step by step demonstrations intermediate painters are challenged with unpublished techniques that allow them to break through to the next level and advanced painters learn to apply their skills under unified theories Landscapes in Oil devotes a chapter to each of the fundamental elements of landscape painting drawing value color composition and light quality and offers critical advice on selecting tools and materials choosing colors and structuring your palette for best results Emphasizing the necessity of plein air drawing and painting Salaz demonstrates how to translate small quick studies made outdoors into full scale studio paintings He provides detailed step by step breakdowns of the creation of four of his own paintings focusing not only on application but also on the ideas that underpin every decision a landscape painter must make The scores of landscape masterworks past and present that illustrate this book have been carefully chosen for their aesthetic power and because each embodies a specific aspect of the landscape painter s craft For Salaz landscape painting is a noble pursuit and the goal of the landscape artist is not to paint pretty pictures but to create compelling images that express human beings profound connection to nature in all its diversity and grandeur At a time when classical landscape is enjoying a renaissance in art schools ateliers and galleries across North America this book is an essential resource for beginning and experienced painters alike **Magic Garden** Virginia Arraga de Malherbe,2016-07-12 Exquisitely packaged in a big square format with exposed boards eye catching fluorescent covers top side and bottom stain and three different colors of metallic ink paper this all new adult coloring book contains 60 designs ready to be colored with pencil pen or paint The designs are printed on heavy stock paper covered with one of three different colors of metallic ink The pages are easily removable so any artist will be able to display his or her work These high quality high style books are a must have for anyone who loves beautiful design and uniquely crafted objects Virginia Arraga de Malherbe is an artist and graphic designer She lives in Paris **Cinemachines** Garrett Stewart,2020-04-17 The hero stands on stage in high definition 3 D while doubled on a crude pixel screen in Billy Lynn s Long Halftime Walk Alien ships leave Earth by dissolving at the conclusion of Arrival An illusory death spiral in

Vertigo transitions abruptly to a studio set jolting the spectator These are a few of the startling visual moments that Garrett Stewart examines in *Cinemachines* a compelling powerful and witty book about the cultural and mechanical apparatuses that underlie modern cinema Engaging in fresh ways with revelatory special effects in the history of cinematic storytelling from Buster Keaton s breaching of the film screen in *Sherlock Jr* to the pixel disintegration of a remotely projected hologram in *Blade Runner 2049* Stewart s book puts unprecedented emphasis on technique in moving image narrative Complicating and revising the discourse on historical screen processes *Cinemachines* will be crucial reading for anyone interested in the evolution of the movies from a celluloid to a digital medium

Scott Butterfield, T. Rodd Kelsey, Abigail K. Hart, 2021-04-08 As the world population grows so does the demand for food putting unprecedented pressure on agricultural lands In many desert dryland regions however intensive cultivation is causing their productivity to decline precipitously Rewilding the least productive of these landscapes offers a sensible way to reverse the damage recover natural diversity and ensure long term sustainability of remaining farms and the communities they support This accessibly written groundbreaking contributed volume is the first to examine in detail what it would take to retire eligible farmland and restore functioning natural ecosystems The lessons in *Rewilding Agricultural Landscapes* will be useful to conservation leaders policymakers groundwater agencies and water managers looking for inspiration and practical advice for solving the complicated issues of agricultural sustainability and water management *Miscellany Men* G.
