**The Magic of Believing Action Plan (Master Class Series)** Mitch Horowitz, 2020-06-05. You Will Never Doubt Yourself Again. PEN Award winning historian and popular New Thought voice Mitch Horowitz teaches how to harness and maximize the tools of The Magic of Believing, one of the most effective works of mind power ever written. In Mitch's five lessons, you will experience Claude M. Bristol's The Magic of Believing in a whole new way and you will also experience as though for the first time and for all time the extraordinary powers within you. Join Mitch to discover how to effectively program your mind. The links between performance and self image. Why writing down symbols, aims, and wishes brings you special power. How to develop charisma. The correspondences between current ESP research and Bristol's ideas. Much of today's writing about spirituality is loaded with nonsense. Often it consists of little more than wild speculation, shoddy reasoning, and the repetition of a few stale truisms. A very small number of writers and editors have climbed above this morass to combine spiritual depth with intellectual acumen and literary polish. Mitch Horowitz is one of them. Richard Smoley, New Dawn Magazine

**Do You Believe in Magic?** Paul A. Offit, 2013-06-18. A physician offers an impassioned and meticulously researched exposé of the alternative medicine industry, separating the sense from the nonsense. A half century ago, acupuncture, homeopathy, naturopathy, Chinese herbs, Christian exorcisms, dietary supplements, chiropractic manipulations, and ayurvedic remedies were considered on the fringe of medicine. Now these practices, known variably as alternative, complementary, holistic, or integrative medicine, have become mainstream, used by half of all Americans today to treat a variety of conditions, from excess weight to cancer. But alternative medicine is an unregulated industry under no legal obligation to prove its claims or admit its risks, and many popular alternative therapies are ineffective, expensive, or even deadly. In *Do You Believe in Magic*, health advocate Dr. Offit debunks the treatments that don't work and tells us why, and takes on the media celebrities who promote alternative medicine. Using dramatic real life stories, he separates the sense from the nonsense, explaining why any therapy, alternative or traditional, should be scrutinized. As Dr. Offit explains, some popular therapies are remarkably helpful due to the placebo response, but there's no such thing as alternative medicine. There's only medicine that works and medicine that doesn't.
