Contested Kingdom William McCarthy,2024-11-20 In Contested Kingdom Fan Attachment and Corporate Control at Disneyland William

McCarthy presents a groundbreaking study centered on the history of Disneyland and Disney theme park enthusiasts. Focusing on two unexplored yet interconnected phenomena, the dynamic relationship between the Disney corporation and Southern Californian fans in both online and physical park settings over a span of more than three decades, this volume sheds new light on the meaning and purpose of Disneyland. Through a comprehensive analysis of the interwoven dimensions of individuals' place and cognitive, affective, and behavioral processes, McCarthy explores the fervent sense of place attachment experienced by the approximately one million annual passholders who visit the park. McCarthy's analysis extends beyond the physical world of Disneyland by delving into the evolution of Disney fandom discourse, commerce, and social formations in online social platforms like Usenet, web discussion boards, and social media. By employing a mixed methods approach incorporating interviews, participant observation, surveys, and data analysis, this study establishes a novel analytical framework for comprehending the interrelationships between the Disney corporation, its fan communities, and online social platforms. As the first in-depth longitudinal analysis of the ongoing struggle on successive social platforms between fan users and a corporate entity, *Contested Kingdom* provides valuable insights for scholars and future investigations. Howard Lawrence Scheiner MD AAHIVS, 2011-04

This book is not *The Secret*. The true secret is there is no secret, only a truth. Anyone who has seen the film *The Matrix* understands Matrix Philosophy. Do you choose the red pill which will answer The Question, or do you choose the blue pill which allows life to simply carry on as before? To paraphrase the words of Morpheus from the film: All I'm offering is the truth. Nothing more. And what is the truth? It encompasses the meaning and the purpose of life and embraces an understanding of a greater reality. One would think that everyone would want to know truth. But it is not quite so simple. We can't all quite handle truth. But that's life. I have no desire nor am I attempting to convert, proselytize, or convince anyone of anything that does not feel true to them. So I share my story of love and discovery and hope that it finds resonance in your hearts. I ask your willing suspension of belief or disbelief. For now, make any human image you may wish or imagine any force that you would hope God to be. I made a leap of faith and as a result achieved a sense of freedom that I have never before experienced. That leap was to believe the reality I experienced and not to doubt the truth of what happened. If God tells you the meaning and purpose of life, it leaves you a changed person. My burning bush moment left me a changed person. I knew bliss. I do not claim any special powers or abilities. Who I AM speaks only to a level of awareness. I do find myself in the mold of others from the historical past. I am connected spiritually to a greater reality. Even with this new level of awareness, I can still find myself trapped in a nexus of disillusionment and disappointment, displaced from the moment, a part of being human. Yet that fleeting moment of knowing, having felt the touch of God upon my soul, allows me to enter the state of Grace, which I now touch every day. None of this will negate the potential ambushes that can overtake one's life in a flash, no matter which road is chosen. Nor is it any sort of guarantee of wealth, health, social status, or the usual measures of success. All roads lead to the same destination. The train each travels is set on its course. While I have neither the desire nor the ability

to change anyone's journey I do believe I can offer a travel upgrade. It is possible to travel in greater comfort in a more luxurious carriage with larger windows that give a greater view of the beautiful vistas along the way. **Routledge Library Editions: Utopias** Various, 2021-11-01. Routledge Library Editions Utopias 6 volume set contains titles originally published between 1923 and 1982. It includes volumes focusing on Utopian fiction both as a genre in its own right and also from a feminist perspective. In addition, there are sociological texts that examine the history of Utopian thought from the writings of Plato and beyond as well as specific examples of people who have tried to create Utopian communities. **Disney & His Worlds** Alan Bryman, 2003-09-02. This work provides an overview of the Disney organization in particular the theme parks and their significance for contemporary culture. The author examines topics such as Walt Disney's life and how his biography has been constructed, the Disney Company in the years after his death, and various writings about the Disney theme parks. He raises important issues about the parks such as whether they are harbingers of postmodernism, the significance of consumption at the parks, and the representation of past and future. The discussion of theme parks links with the presentation of Disney's biography and his organization by showing how central economic and business considerations have been in their development and how the significance of these considerations is typically marginalized in order to place an emphasis on fantasy and magic. *Vinyl Leaves* Stephen M Fjellman, 2019-06-20. Walt Disney World is a pilgrimage site filled with utopian elements, craft, and whimsy. It's a pedestrian's world where the streets are clean, the employees are friendly, and the trains run on time. All of its elements are themed, presented in a consistent architectural, decorative, horticultural, musical, even olfactory tone, with rides, shows, and more.
