social practice Interweaving a critical historiography of modern China with the work of the Marxist trained economist Wang Yanan Karl shows how magical concepts based on dehistoricized Eurocentric and capitalist conceptions of historical activity that purport to exist outside lived experiences have erased much of the critical import of China's twentieth century history In this volume Karl retrieves the economic to argue for a more nuanced and critical account of twentieth century Chinese and global historical practice

Understanding Witchcraft and Sorcery in Southeast Asia C. W. Watson, R. F.

Ellen, 1993-01-01 Witchcraft holds a perennial fascination for scholars and the public at large In Southeast Asia malign magic and sorcery are part of the routine experience of villagers and urban dwellers alike and stories appearing in the press from time to time bear witness to a persisting public concern The essays presented in this volume describe what people believe and what actions result from those beliefs Not surprisingly given the range and variety of cultures considerable differences exist in the region Among some cultures in Thailand and Indonesia for example sorcerers are said to possess spirits that empower them to cause illness and misfortune Elsewhere in Malaysia and Sumatra the power of the dukun derives from the accumulation of arcane knowledge and mystical practice Contributors describe the witches and sorcerers they have met and suggest both how their societies look upon them and how we in turn should regard them Understanding Witchcraft and Sorcery in Southeast Asia will appeal to scholars and students of social anthropology and comparative religion Its substantial contribution to theoretical and comparative issues in a Southeast Asian context provides a fresh perspective on a stimulating topic
