Magicheskie Paby:

Between Heaven and Hell G. Diment, Y. Slezkine, 2016-04-30 Siberia has no history of independent political existence no claim to a separate ethnic identity and no clear borders Yet it could be said that the elusive country behind the Urals is the most real and the most durable part of the Russian landscape For centuries Siberia has been represented as Russia's alter ego as the heavenly or infernal antithesis to the perceived complexity or shallowness of Russian life It has been both the frightening heart of darkness and a fabulous land of plenty the House of the Dead and the realm of utter freedom a frozen wasteland and a colourful frontier a dumping ground for Russia's rejects and the last refuge of its lost innocence The contributors to *Between Heaven and Hell* examine the origin nature and implications of these images from historical literary geographical anthropological and linguistic perspectives They create a striking fascinating picture of this enormous and mysterious land

Stephan, 1971 Based on Russian Japanese and Chinese sources it is the first comprehensive history of Sakhalin **The Languages of the Soviet Union** Bernard Comrie, 1981-06-04 A general account of the languages of the Soviet Union one of the most diverse multinational and multilingual states in the world as well as one of the most important There are some 130 languages spoken in the USSR belonging to five main families and ranging from Russian which is the first language of about 130 000 000 people to Alut spoken only by 96 in the 1970 census Dr Comrie has two general aims First he presents the most important structural features of these languages their genetic relationships and classification and their distinctive typological features Secondly he examines the social and political background to the use of functioning of the various languages in a multilingual state The volume will be of importance and interest to linguists and to those with a broader professional interest in the Soviet Union **Interpreting the Indian** Michael Castro, 1991 **Holy Foolishness** Harriet Murav, 1992 This book examines the ways in which Dostoevsky's adoption and reinvention of the medieval Russian holy fool in Russian Orthodoxy a person who feigned madness or folly as an ascetic feat of self humiliation serves as a locus for a critique of his culture's increasing reliance on the scientific paradigms of Claude Bernard's physiology and as a source of formal narrative innovation in his novels The author first explores the paradoxical hagiography of the holy fool whose saintly acts are disguised under the mask of demonic folly She then traces the rise of medical science in the nineteenth century and the increasing authority of the new scientific models of human behavior especially the all important notion of the normal and the pathological The book then shifts to close readings of four of Dostoevsky's major novels Crime and Punishment The Idiot The Devils and The Brothers Karamazov always keeping the double focus of cultural critique and

formal innovation The author examines how Dostoevsky develops a specific literary procedure that is itself holy foolishness That is his novels in their structure and in particular in the voice of their narrators mislead tempt and scandalize the reader much like the street theater of the medieval holy fool This difficult relationship between reader and text is mirrored in what is represented in the text as the interaction between the holy fool and other characters In its theoretical orientation the book both builds from and criticizes Bakhtin s work on carnival The author offers a less optimistic account showing how in Dostoevsky carnival is more demonic than jubilant particularly in *The Devils* where carnival leads to a frightening chaos

men and often led them. The radicals criticized the existing social and political order, created their own educational system, and in some cases engaged in radical politics.
