comedies have traditionally been viewed as women's cinema Fischer defies gender based classifications to show how motherhood has played a fundamental role in the overall cinematic experience She argues that motherhood is often treated as a site of crisis for example the mother being blamed for the ills afflicting her offspring then shows the tendency of certain genres to specialize in representing a particular social or psychological dimension in the thematics of maternity Drawing on social history and various cultural theories Fischer first looks at Rosemary's Baby to show the prevalence of childbirth themes in horror films In crime films White Heat she sees the linkage of male deviance and mothering The Hand That Rocks the Cradle and The Guardian both occult thrillers uncover cultural anxieties about working mothers Her discussion covers burlesques of male mothering feminist documentaries on the mother daughter relationship trick films dealing with procreative metaphors and postmodern films like High Heels where fluid sexuality is the theme These films tend to treat motherhood as a locus of irredeemable conflict whereas History and Memory and High Tide propose a more sanguine dynamic and enabling view Originally published in 1996 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

**Gambling Bets for Magicians** Bruce Carley, What is this book about I am going to show you a number of games that the magician or gambler plays against a spectator one on one The spectator gets a free choice of the objects that are used in the gambling game Some games use cards dice pieces of paper spinners etc For example say the spectator has a choice of four dice Spectator picks one die and the magician picks one die Each rolls their die and the high number wins Whoever wins a best of 12 game match wins the game Unfortunately for the spectator the magician will almost always win the match The probability will ALWAYS be in the magician's favor There is no sleight of hand or funny business These type of games are called non transitive games What is a non transitive game A beats B B beats C And C beats A The best explanation would be to give an example that you may know Rock Paper Scissors
