**Everett M. Rogers**

## **Magills Literary Annual 1983s Of 198:**

*Catalogue of New World Grasses (Poaceae)* Emmet J. Judziewicz, Robert John Soreng, 2000      Diffusion of Innovations Everett M. Rogers, 2012

Getting an innovation adopted is difficult a common problem is increasing the rate of its diffusion Diffusion is the communication of an innovation through certain channels over time among members of a social system It is a communication whose messages are concerned with new ideas it is a process where participants create and share information to achieve a mutual understanding Initial chapters of the book discuss the history of diffusion research some major criticisms of diffusion research and the meta research procedures used in the book This text is the third edition of this well respected work The first edition was published in 1962 and the fifth edition in 2003 The book s theoretical framework relies on the concepts of information and uncertainty Uncertainty is the degree to which alternatives are perceived with respect to an event and the relative probabilities of these alternatives uncertainty implies a lack of predictability and motivates an individual to seek information A technological innovation embodies information thus reducing uncertainty Information affects uncertainty in a situation where a choice exists among alternatives information about a technological innovation can be software information or innovation evaluation information An innovation is an idea practice or object that is perceived as new by an individual or an other unit of adoption innovation presents an individual or organization with a new alternative s or new means of solving problems Whether new alternatives are superior is not precisely known by problem solvers Thus people seek new information Information about new ideas is exchanged through a process of convergence involving interpersonal networks Thus diffusion of innovations is a social process that communicates perceived information about a new idea it produces an alteration in the structure and function of a social system producing social consequences Diffusion has four elements 1 an innovation that is perceived as new 2 communication channels 3 time and 4 a social system members jointly solving to accomplish a common goal Diffusion systems can be centralized or decentralized The innovation development process has five steps passing from recognition of a need through R 2 persuasion to form an attitude 3 decision 4 implementation and 5 confirmation reinforcement or rejection Innovations can also be re invented changed or modified by the user The innovation decision period is the time required to pass through the innovation decision process Rates of adoption of an innovation depend on and can be predicted by how its characteristics are perceived in terms of relative advantage compatibility complexity trialability and observability The diffusion effect is the increasing cumulative pressure from interpersonal networks to adopt or reject an innovation Overadoption is an innovation s adoption when experts suggest its rejection Diffusion networks convey innovation evaluation information to decrease uncertainty about an idea s use The heart of the diffusion process is the modeling and imitation by potential adopters of their network partners who have adopted already Change agents influence innovation decisions in a direction deemed desirable Opinion leadership is the degree individuals influence others attitudes      **Fundamentals of Ground Improvement Engineering** Jeffrey Evans, Daniel

Ruffing, David Elton, 2021-09-17 Ground improvement has been one of the most dynamic and rapidly evolving areas of geotechnical engineering and construction over the past 40 years. The need to develop sites with marginal soils has made ground improvement an increasingly important core component of geotechnical engineering curricula. Fundamentals of Ground Improvement Engineering addresses the most effective and latest cutting edge techniques for ground improvement. Key ground improvement methods are introduced that provide readers with a thorough understanding of the theory, design principles and construction approaches that underpin each method. Major topics are compaction, permeation, grouting, vibratory methods, soil mixing, stabilization and solidification, cutoff walls, dewatering, consolidation, geosynthetics, jet grouting, ground freezing, compaction grouting and earth retention. The book is ideal for undergraduate and graduate level university students as well as practitioners seeking fundamental background in these techniques. The numerous problems with worked examples, photographs, schematics, charts and graphs make it an excellent reference and teaching tool. **A Lover's Pinch**

Peter Tupper, 2018-08-10 A worldwide subculture that influences everything from fashion to advertising, sadomasochism has a long and lively history. A Lover's Pinch tells the story of consensual sadomasochism from a controversial religious practice to a secretive sexuality branded a perversion. The origins of kink and fetish culture have been shrouded in secrecy and myths until now. Here Peter Tupper reveals the true story of sadism and masochism, dominance and submission. From the ancient Christian flagellants to the Fifty Shades trilogy, the history of consensual sadomasochism is a story of fascinating individuals, unlikely connections and strange twists and turns. Meet Arthur Munby, the Victorian gentleman who secretly married Hannah Cullwick, his maid of all work and called her his slave, and Jack McGeorge, the UN weapons inspector who was outed as a BDSM club leader just before the Iraq war. Explore the links between Robinson Crusoe, Uncle Tom's Cabin and modern BDSM pornography, and between fetish fashion and anti-Catholic propaganda. Learn how the 19th century middle class household nurtured dominant, submissive sexuality. Discover the secret history of a hidden world. **Annotated Family Law**

**Legislation, 4th Edition** Richard Colin Chisholm, Suzanne Christie, Julie Kearney, 2017-03-10 An essential resource for students, practitioners and others who are practising in family law. Annotated Family Law Legislation is an invaluable resource tool that provides comprehensive analysis and explanation of the provisions and the relevant case law. Annotated by Richard Chisholm, Suzanne Christie and Julie Kearney, this work provides essential practical and portable access to all the necessary Family Law Legislation. The text includes detailed annotations to the Family Law Act Cth and 2004 Rules. The material in Annotated Family Law Legislation 4th edition is extracted from the four volume looseleaf service Australian Family Law LexisNexis Features: Full text of Family Law legislation, High quality annotations from expert authors, Ease of use and navigability through shaded tabs, Related Titles, Australian Family Law looseleaf and online, Mills E and Ebejer M Focus Series, Family Law 6th ed 2014, Young L, Monahan G, Sifris A, Carroll R, Family Law in Australia 8th ed 2012. Topics In Abstract Algebra (second Edition) P. Mukhopadhyay, Shamik Ghosh, Mridul Kanti Sen, 2006 This book covers the elements of

Abstract Algebra which is a major mathematics course for undergraduate students all over the country and also for first year postgraduate students of many universities It is designed according to the new UGC syllabus prescribed for all Indian universities

A Guide to the Literature on Semirings and their Applications in Mathematics and Information Sciences K. Glazek, 2002-06-30 This book presents a guide to the extensive literature on the topic of semirings and includes a complete bibliography It serves as a complement to the existing monographs and a point of reference to researchers and students on this topic The literature on semirings has evolved over many years in a variety of languages by authors representing different schools of mathematics and working in various related fields Recently semiring theory has experienced rapid development although publications are widely scattered This survey also covers those newly emerged areas of semiring applications that have not received sufficient treatment in widely accessible monographs as well as many lesser known or forgotten works The author has been collecting the bibliographic data for this book since 1985 Over the years it has proved very useful for specialists For example J S Golan wrote he owed a special debt to Kazimierz Glazek whose bibliography proved to be an invaluable guide to the bewildering maze of literature on semirings U Hebisch and H J Weinert also mentioned his collection of literature had been of great assistance to them Now updated to include publications up to the beginning of 2002 this work is available to a wide readership Audience This volume is the first single reference that can guide the interested scholar or student to the relevant publications in semirings semifields algebraic theory of languages and automata positive matrices and other generalisations and ordered semigroups and groups

**Attention and Memory** Nelson Cowan, 1998-01-15 Attention and Memory brings together and assesses past and present research on information processing to formulate a model of this entire system

**Genera Euphorbiacearum** A. Radcliffe-Smith, 2001 A taxonomic account of all 339 genera currently recognized in the family illustrated with 50 fullpage line drawings Many generic descriptions are based on the work of Dr John Hutchinson but the classification follows that of Webster as modified by the author

*Judge and Jurist* Andrew Burrows, David Johnston, Reinhard Zimmermann, 2013-06-20 Lord Rodger of Earlsferry was a distinguished judge and scholar He was a Justice of the Supreme Court of the United Kingdom and the author of many high quality law journal articles and two books Written in memory of Lord Rodger this collection contains 47 essays by Lord Rodger's friends and colleagues from the UK and Europe The essays reflect Lord Rodger's role as a leading judge and also his wide ranging academic interests including Roman law Scots law and legal history and a miscellany of other topics The authors in this volume are leading academics or judges and a particularly notable feature is the nine essays written by Supreme Court justices As the highest judges in the UK they provide a unique insight into the work of the Supreme Court as well as Lord Rodger's work in the Court The book also includes the memorial tributes to Lord Rodger which explain his remarkable legal career including his roles as Lord Advocate Senior Law Officer of Scotland Lord President of the Court of Session Lord of Appeal in Ordinary and finally Justice of the UK Supreme Court The essays include personal reminiscences of Lord Rodger helping the reader to

understand why he was so highly regarded and why his untimely death has dealt such a devastating blow to law in the UK

**Treating Eating Disorders** W. Vandereycken, P. J. V. Beaumont, 1998-12 Covers the major areas of pressure and responsibility upon practising therapists in the treatment of eating disorders including the problems of transference dealing with the patient's family nursing care issues of gender compulsory treatment food refusal and forced feeding managed care treatment facilities and terminal care

Divided Families Frank F. Furstenberg, Andrew J. Cherlin, 1991 Explores the effects of divorce on children and their parents

**Working Memory, Thought, and Action** Alan Baddeley, 2007-03-15 Working Memory Thought and Action is the magnum opus of one of the most influential cognitive psychologists of the past 50 years This new volume on the model he created with Graham Hitch discusses the developments that have occurred within the model in the past twenty years and places it within a broader context Working memory is a temporary storage system that underpins our capacity for coherent thought Some 30 years ago Baddeley and Hitch proposed a way of thinking about working memory that has proved to be both valuable and influential in its application to practical problems This book updates the theory discussing both the evidence in its favour and alternative approaches In addition it discusses the implications of the model for understanding social and emotional behaviour concluding with an attempt to place working memory in a broader biological and philosophical context Inside are chapters on the phonological loop the visuo spatial sketchpad the central executive and the episodic buffer There are also chapters on the relevance to working memory of studies of the recency effect of work based on individual differences and of neuroimaging research The broader implications of the concept of working memory are discussed in the chapters on social psychology anxiety depression consciousness and on the control of action Finally Baddeley discusses the relevance of a concept of working memory to the classic problems of consciousness and free will This new volume from one of the pioneers in memory research will doubtless emulate the success of its predecessor and be a major publication within the psychological literature

New Perspectives on Cybernetics G. Vijver, 2013-06-29 Gertrudis Van de Vijver Seminar of Logic and Epistemology University of Ghent Before being classified under the fashionable denominators of complexity and chaos self organization and autonomy were intensely inquired into in the cybernetic tradition Despite all rejections that cybernetics has gone through in the second half of this century today its importance is more and more recognized Its decisive influence for connectionist theories autopoietic and constructivist theories for different forms of applied or experimental epistemology is being more and more understood and generally accepted It is mainly due to the success of connectionist models that we observe today a revival of interest for cybernetics The 1943 article by McCulloch and Pitts is evidently a founding article Cybernetics has however a much broader interest than the one linked to technical mathematical details relevant to the construction of networks For instance the evolution from first to second order cybernetics the ways of approaching biological and cognitive phenomena in the latter and the limits that were formulated there are particularly meaningful to understand current developments and divergences in

connectionism A nuanced picture of cybernetic s history and its present state is therefore clearly epistemologically essential

**Final Judgment** Alan Paterson, 2014-07-18 Winner of the Inner Temple book prize 2015 and the Socio Legal Studies Association Book prize 2014 15 The House of Lords for over 300 years the UK s highest court was transformed in 2009 into the UK Supreme Court This book provides a compelling and unrivalled view into the workings of the Court during its final decade and into the formative years of the Supreme Court Drawing on over 100 interviews including more than 40 with Law Lords and Justices and uniquely some of their judicial notebooks this is a landmark study of appellate judging from the inside by an author whose earlier work on the House of Lords has provided a scholarly benchmark for over 30 years The book demonstrates that appellate decision making in the UK s final court remains a social and collective process primarily because of the dialogues which take place between the judges and the key groups with which they interact when reaching their decisions As the book shows the forms of dialogue are now more varied yet the most significant dialogues continue to be with their fellow Law Lords and Justices and with counsel To these new dialogues have been added namely those with foreign courts especially Strasbourg and with judicial assistants which have subtly altered the tenor and import of their other dialogues The research reveals that unlike the English Court of Appeal the House of Lords in its last decade was only intermittently collegial since Lord Bingham s philosophy of appellate judging left opinion writing concurrences and dissents largely to individual preference In the Supreme Court however there has been a marked shift to team working and collective decision making bringing with it challenges and occasional tensions not seen in the final years of the House of Lords The work shows that effectiveness in group decision making in the final court turns in part on the stages when dialogues occur in part on the geography of the court and in part on the task leadership and social leadership skills of the judges involved in particular cases The passing of the Human Rights Act and the expansion in judicial review over the last 30 years have dramatically altered the two remaining dialogues those with Parliament and with the Executive With the former the dialogue has grown more distant with the latter more problematic than was the case 40 years ago The last chapter rehearses where the changing dialogues have left the UK s final court Ironically despite the oft applauded commitment of the new Court to public visibility the book concludes that even greater transparency in the dialogue with the public may be required The way appellate judges at the highest level behave to each other to counsel with other branches of government and with other courts is brought under closer scrutiny in this book than ever before The remarkable width and depth of his examination has resulted in a work of real scholarship which all those who are interested in how appellate courts work all over the common law world will find especially valuable From the foreword by Lord Hope of Craighead KT Alan Paterson s knowledge and interest in the Supreme Court coupled with his expertise as a lawyer who understands the legal system and the judicial process make him a perfect chronicler and assessor of what the Court s role is and what it should be and how it functions and how it might improve Lord Neuberger President of the Supreme Court

**Semirings and their Applications** Jonathan S.

Golan,1999-07-31 This work is an updated and considerably expanded version of the author s book The Theory of Semirings with Applications to Mathematics and Theoretical Science which has been recognized as the definitive reference work in this area This edition includes many of the new results in this area as well as further applications of semiring theory in such areas as idempotent analysis discrete dynamical systems formal language theory fuzzy set theory optimization etc The book contains an extensive bibliography and a large number of examples Audience This book is aimed both at mathematicians and at researchers in applied mathematics and theoretical computer science It is also suitable for use as a graduate level textbook

**Comparative Cultural Analysis** Keith F. Otterbein,1977

**Adaptable TV** Yvonne Griggs,2018-07-25 This book focuses on the significantly under explored relationship between televisual culture and adaptation studies in what is now commonly regarded as the Golden Age of contemporary TV drama Adaptable TV Rewiring the Text does not simply concentrate on traditional types of adaptation such as reboots remakes and sequels but broadens the scope of enquiry to examine a diverse range of experimental adaptive types that are emerging within an ever changing TV landscape With a particular focus on the serial narrative form and with case studies that include Penny Dreadful Fargo The Night Of and Orange is the New Black this study is essential reading for anyone who is interested in the complex interplay between television studies and adaptation studies

**Ground Improvement** Klaus Kirsch,Alan Bell,2012-11-26 When finding another location redesigning a structure or removing troublesome ground at a project site are not practical options prevailing ground conditions must be addressed Improving the ground modifying its existing physical properties to enable effective economic and safe construction to achieve appropriate engineering performance is an
