## **Magnetic Mountain:**

Magnetic Mountain Stephen Kotkin, 1997-02-27 This study is the first of its kind a street level inside account of what Stalinism meant to the masses of ordinary people who lived it Stephen Kotkin was the first American in 45 years to be allowed into Magnitogorsk a city built in response to Stalin's decision to transform the predominantly agricultural nation into a country of metal With unique access to previously untapped archives and interviews Kotkin forges a vivid and compelling account of the impact of industrialization on a single urban community Kotkin argues that Stalinism offered itself as an opportunity for enlightenment The utopia it proffered socialism would be a new civilization based on the repudiation of capitalism The extent to which the citizenry participated in this scheme and the relationship of the state's ambitions to the dreams of ordinary people form the substance of this fascinating story Kotkin tells it deftly with a remarkable understanding of the social and political system as well as a keen instinct for the details of everyday life Kotkin depicts a whole range of life from the blast furnace workers who labored in the enormous iron and steel plant to the families who struggled with the shortage of housing and services Thematically organized and closely focused Magnetic Mountain signals the beginning of a new stage in the writing of Soviet social history

Day Lewis** Cecil Day Lewis, 1992 C Day Lewis 1904-1972 was one of the leading young poets of the 1930s who along with W H Auden Louis MacNeice and Stephen Spender broke away from the staid poetic establishment to dominate British poetry in the middle third of the century Here for the first time are all the poems Day Lewis wrote including occasional verse which has never appeared in book form and a number of poems previously published only in limited editions The Complete Poems has been edited with an introduction and textual notes by Jill Balcon the poet's widow

*Lessons of History* Klas-Göran Karlsson, 2024-06-11 Lessons of history are often referred to in public discourse but seldom in scholarly discussions This book seeks to change this by introducing an innovative analytical model of historical lessons starting from the basic three fold perspective that everyone simultaneously is history shares history and makes history Not all history however is useful for extracting lessons Here what are called borderline historical events which demonstrate both time specific and time transcending qualities are suggested as useful didactic material Scholarly works on the Holocaust and Soviet terror from Raul Hilberg's and Robert Conquest's classical works of the 1960s to more recent books by Jan Gross and Timothy Snyder are analyzed to identify lessons of history and how they have changed during a full half century

Living in Time Albert Gelpi, 1998-02-19 The Oxford poets of the 1930s W H Auden C Day Lewis Stephen Spender and Louis MacNeice represented the first concerted British challenge to the domination of

twentieth century poetry by the innovations of American modernists such as Ezra Pound and William Carlos Williams. Known for their radical politics and aesthetic conservatism, the Auden Generation has come to loom large in our map of twentieth century literary history. Yet Auden's voluble domination of the group in its brief period of association and Auden's sway with critics ever since has made it difficult to hear the others on their own terms and in their own distinct voices. Here rendered in eloquent prose by one of our most distinguished critics of modern poetry is the first full length study of the poetry of C Day Lewis, a book that introduces the reader to a profoundly revealing and beautifully wrought record of his poetry against the cultural and literary ferment of this century. Albert Gelpi explores in three expansive sections the major periods of the poet's development beginning with the emergence of Day Lewis in the thirties as the most radical of the Oxford poets. An artist who sought through poetry a way of living in time without traditional religious assurances, Day Lewis went further than his friends in seeking to forge a revolutionary poetry out of his commitment to Marxism. When Stalinism led to his resignation from the Communist Party, Day Lewis in the forties went on to shape a rich, fiercely perceptive poetry out of the convergence of the wartime crisis with the explosive events of his own inner life intensified by the erotics of a decade long affair. Returning to his Irish roots and meditating on the persistent tension between agnosticism and faith in the work of his third and final period, Day Lewis wrote some of the most moving poems in the language about mortality and dying, the limits and possibilities of human striving. Through the traumatic changes of his life, C Day Lewis came increasingly to depend on the intricacies of poetry itself as a way of living in time. His abiding belief in the psychological and moral functions of poetry impelled him in his critical writings and in his own poetic practice to delineate a modern poetics that presents an effective alternative to the elitist experimentation associated with Modernism. This vital revisionist reading of Day Lewis demonstrates that much of his best work was written after the thirties and establishes him as one of the most significant and accomplished British poets of the modern period.

At the Borders of the Wondrous and Magical Claude Lecouteux, 2025-01-07 Examines the esoteric side of texts and tales from the Middle Ages including the enduring presence of haunted areas and power places and the roles of witches, house spirits, rune priests, shapeshifters and the undead. Discusses the dividing line between magic and devilry as well as the significance of grimoires, bells, blacksmiths, storm callers and more. Serves as a guide to a still present magical and imaginal realm, pointing readers to the borderlands and liminal thresholds that enable access to the other world. In this new collection of his writings, scholar and Sorbonne instructor Claude Lecouteux reveals that the magical world of the distant past is real and still very present if you know where to look. Explaining how he makes the texts he studies reveal their hidden teachings, Lecouteux directly explores the esoteric side of medieval myths and tales, peeling back the Christian veneer to show the enduring presence of haunted areas and power places of witches, house spirits, rune priests, vampires, shapeshifters and the undead. In tales originating from Greenland and Iceland to Saxony, Romania and beyond, the author discusses the dividing line between magic and devilry as well as the significance of grimoires, bells, blacksmiths and other magical objects.

and characters He explores magic in the elements of nature and as illustrated by the art of witches and magicians specializing in weather magic storm callers and storm dispellers He examines the medieval mythology surrounding clouds and the mythic significance of mountains in the haunted world of our ancestors which is still as close to us today as it was to them in the past Looking at borderlands and liminal thresholds that can serve as gateways to other worlds the author also discusses land spirits and the shapeshifting needed to engage with them including how their ownership of the land can never fully be usurped Through these writings Lecouteux acts as a ferryman transporting readers into the realms of the wondrous and magical He enables us to see how the haunted magic of the Middle Ages never ended and how the imaginal realm standing just beyond the borders of our own is as vividly real as the material world

What Was Soviet Ideology? Petre Petrov, 2023-11-02 In this book Petre Petrov argues that Soviet ideology in the form in which it solidified during the Stalinist period should not be seen as a member of a known political ideology Rather Soviet ideology is its own kind of political ideology whose original life calls for an innovative conceptual treatment
