Magnificent Failures:

Magnificent Mistakes and Fantastic Failures Josh Langley, 2020-03 A book to help kids build resilience

Magnificent Failure John Martin Campbell, 2008-08-01 Stunning photographic testimony to the hard realities of western farming In words that are as clean and precise as his haunting starkly beautiful photographs John Martin Campbell vividly recreates the life and times of the western homestead era the period from about 1885 when the prairie lands lying west of the longitude of the western Dakotas became available to pioneering farmers More than 70 black and white duotone photographs with detailed captions record bleak landscapes and abandoned farms outbuildings farm implements and hand tools mute testimonies to the failed hopes of several million families who settled on these arid and semi arid lands Campbell explains how their failure resulted from a deadly combination of natural and economic causes Historians of the western United States have largely ignored the homesteaders despite the lessons their experiences teach about irrigation and dry farming on the northern plains and the impact of the Great Depression and Dust Bowl There is little romance in farming especially when compared with that attached to cowboys Indians and explorers Still the homesteaders were heroes in the opening of the West and this book with its moving text historical introduction and stunning photographs tells their story

A Magnificent Disaster David Bennett, 2008-07-08 Reveals much of what history has tended to gloss over should be a must read for all who have an interest in this operation Airborne Quarterly After Normandy the most spectacular Allied offensive of World War II was Operation Market Garden which planned to join three divisions of paratroopers dropped behind German lines with massive armored columns breaking through the front The object was to seize a crossing over the Rhine to outflank the heartland of the Third Reich and force a quick end to the war The operation utterly failed of course as the 1st British Airborne was practically wiped out the American 82nd and 101st Airborne Divisions became tied down in vicious combat for months and the vaunted armored columns were foiled at every turn by improvisational German defenses Some have called the battle Hitler s last victory In this work many years in the making David Bennett puts forward a balanced and comprehensive account of the British American Polish Canadian and German actions as well as the strategic background of the operation in a way not yet done He shows for example that rather than a bridgehead over the Rhine Montgomery s ultimate aim was to flank the Ruhr industrial area from the north The book also deals as never before with the key role of all three Corps of British Second Army not just Brian Horrocks central XXX Corps For the first time we learn the dramatic untold story of how a single company of Canadian engineers achieved the evacuation of 1st Airborne s survivors back across the Rhine when all other efforts had failed Also revealed is the scandal of how Polish Gen Sosabowski was treated by the British military authorities and how the operation would have failed at the outset but for the brilliant soldiery of the two American airborne divisions Respectfully nodding to A Bridge Too Far and other excellent works on Market Garden the author has interviewed survivors walked the ground and performed prodigious archival research to increase our

understanding of the battle from the actions of the lowliest soldier to the highest commander Allied and German
