My Search for Ramanujan Ken Ono,Amir D. Aczel,2016-04-20 The son of a prominent Japanese mathematician who came to the United States after World War II Ken Ono was raised on a diet of high expectations and little praise Rebellious against his pressure cooker of a life Ken determined to drop out of high school to follow his own path To obtain his father s approval he invoked the biography of the famous Indian mathematical prodigy Srinivasa Ramanujan whom his father revered who had twice flunked out of college because of his single minded devotion to mathematics Ono describes his rocky path through college and graduate school interweaving Ramanujan s story with his own and telling how at key moments he was inspired by Ramanujan and guided by mentors who encouraged him to pursue his interest in exploring Ramanujan s

mathematical legacy Picking up where others left off beginning with the great English mathematician G H Hardy who brought Ramanujan to Cambridge in 1914 Ono has devoted his mathematical career to understanding how in his short life Ramanujan was able to discover so many deep mathematical truths which Ramanujan believed had been sent to him as visions from a Hindu goddess And it was Ramanujan who was ultimately the source of reconciliation between Ono and his parents Ono s search for Ramanujan ranges over three continents and crosses paths with mathematicians whose lives span the globe and the entire twentieth century and beyond Along the way Ken made many fascinating discoveries The most important and surprising one of all was his own humanity

Asper Nation Marc Edge, 2007 The second generation of Aspers that now runs Canada s largest news media company is much like the first Israel Izzy Asper s three children often appear in today s headlines David is bidding to buy the Winnipeg Blue Bombers football team Gail heads fundraising efforts for the new Canadian Museum of Human Rights Leonard sits in his father s place as head of CanWest Global Communications Like its founder they also use their media empire to influence public opinion Asper Nation explains why Canadians should be concerned about where the country s first family of news media is coming from politically Izzy Asper was an oddity as a Liberal politician in the 1970s Fiscally he was to the right of

most Conservatives As a nationally syndicated newspaper columnist he called for a flat tax and workfare As a best selling author he helped thwart a plan to shift Canada's tax burden from the middle class onto corporations But when Asper took his policies to Manitobans as Liberal leader in 1973 he was soundly defeated Asper got into the television business instead and built Canada's third network Asper made CanWest the country's most profitable broadcaster by feasting on regulations that encouraged the importation of cheap American programming He took his formula to the world in the 1990s buying television networks in New Zealand Australia and Ireland Then in 2000 Asper pioneered media convergence buying Canada's largest newspaper chain from Conrad Black Southam dailies were soon ordered to run national editorials written at CanWest Global headquarters in Winnipeg This corporate news control brought protest from journalists and two government inquiries Neither resulted in long sought limits on media ownership however Marc Edge offers a compelling account of the political perils involved in allowing the Asper family to dominate Canadian media
