Magnum Fifty Years At The Front Line Of History:

Magnum Russell Miller, 1998 The photographers of Magnum have been on hand at the defining moments of the twentieth century From Robert Capa's moment of death photograph of a Loyalist soldier during the Spanish Civil War to Eve Arnold's astonishingly intimate portraits of celebrities such as Joan Crawford and Malcolm X the images captured by members of Magnum have changed how we perceive war our political leaders social crises and the communities next door Magnum's photographers including Capa Arnold David Seymour George Rodger Henri Cartier Bresson Bruce Davidson Mary Ellen Mark Susan Meiselas Inge Morath James Nachtwey Eugene Richards and Sebastiao Salgado are some of the most talented brave and resourceful in the world and Magnum follows them around the world through picaresque adventures and into the risk filled trenches of several wars in search of the perfect shot A dramatic portrait of the world's greatest photo house and its times Magnum is an essential volume for anyone interested in photography history or photojournalism Book jacket *The Decisive Network* Nadya Bair, 2020 Since its founding in 1947 the legendary Magnum Photos agency has been telling its own story Its photographers were concerned witnesses to history and artists on the hunt for decisive moments their pictures were humanist documents of the postwar world Based in unprecedented archival research *The Decisive Network* peels back layers of the Magnum mythology to offer a new history of what it meant to shoot edit and sell news images after World War II Between the 1940s and 1960s Magnum expanded the human interest story about the everyday life of ordinary people to global dimensions while bringing the aesthetic of news pictures into new markets Its best known work started as humanitarian aid promotion travel campaigns corporate publicity and advertising Working with this range of clients Magnum made photojournalism integral to visual culture Yet Magnum's photographers could not have done this alone This book unpacks the collaborative nature of photojournalism as it transpired on a daily basis focusing on how picture editors sales agents spouses and publishers helped Magnum photographers succeed in their assignments and achieve fame *The Decisive Network* concludes in the late 1960s and early 1970s when amidst the decline of magazine publishing and the rise of an art market for photography Magnum turned to photo books and exhibitions to manage its growing picture archives and consolidate its brand In that moment Magnum's photojournalists became artists and their assignments turned into oeuvres Such ideas were necessary publicity and they also managed to shape discussions about photography for decades Bridging art history media studies cultural history and the history of communication this book transforms our understanding of the photographic profession and the global circulation of images in the pre digital world American Photo, 1998-09 **Liquid Criminology** Michael Hviid Jacobsen, Sandra Walklate, 2016-06-17 This book explores the ways in which criminological methods can be imaginatively deployed and developed in a world increasingly characterized by the blurred nature of social reality Whilst recognizing the importance of positivist approaches and research techniques it advocates a commitment to understanding the ways in which those techniques can be used imaginatively at times in combination with less conventional

methods discussing the questions concerning risk ethics and access that arise as a result Giving voice to cutting edge research practices both in terms of concepts and methods that shift the criminological focus towards the kind of imaginative work that comprised the foundations of the discipline it calls into question the utility and credentials of mainstream work that fails to serve the discipline itself or the policy questions allied to it A call not to give up on numbers but also not to be defined by statistics and the methods that produce them Liquid Criminology sheds light on a way of doing research for criminology that is not only creative but also critical As such it will appeal to scholars of sociology criminology and social policy with interests in research methods and design *David 'Chim' Seymour* Carole Naggar,2022-06-21 He used his camera like a doctor would use a stethoscope in order to diagnose the state of the heart His own was vulnerable Cartier Bresson wrote about David Seymour who liked to be called Chim Chim is best known as one of the cofounders of photojournalism s famous cooperative Magnum Photos Weaving Chim s life and work this book discovers this empathetic photographer who has been called The First Human Rights Photographer In 1947 Chim was one of the four cofounders of the Magnum Photos cooperative with Robert Capa Henri Cartier Bresson and George Rodger He also wrote Magnum s 1955 bylaws which are still in effect today But he is the only one of those famous photographers who does not have a full biography to his name This book examines his life and work from Poland to France to the Spanish Civil War his work for British intelligence during World War II his reportage on Europe s children after the war his reportages on Italian actors illiteracy and religious festivals in Southern Italy his coverage of Israel s beginnings before his 1956 death during the Suez war His complex itinerary is emblematic of the displacements and passages of the XXth century **The Cruel Radiance** Susie Linfield,2012-04-15 Susie Linfield addresses the issue of whether photographs depicting past scenes of violence cruelty are voyeuristic arguing that if we do not look understand that we are seeing at people rather than depersonalised acts of inhumanity our hopes of curbing political violence today are probably limited The Violence of the Image Liam Kennedy,Caitlin Patrick,2020-09-13 Photography has visualized international relations and conflicts from the midnineteenth century onwards and continues to be an important medium in framing the worlds of distant suffering others Although photojournalism has been challenged in recent decades claims that it is dead are premature The Violence of the Image examines the roles of image producers and the functions of photographic imagery in the documentation of wars violent conflicts and human rights issues tackling controversial ideas such as witnessing the making of appeals based on displays of human suffering and the much cited concept of compassion fatigue In the twenty first century the advent of digital photography camera phones and socialmedia platforms has altered the relationship between photographers the medium and the audience as well as contributing to an ongoing blurring of the boundaries between news and entertainment and professional and amateur journalism The Violence of the Image explores how new vernacular and artistic modes of photographic production articulate international friction This innovative timely book makes a major contribution to discussions about the power of the image in conflict **Concise**

[Counterfactualism in the Fine Arts](#) Elke Reinhuber, 2022-10-14 Counterfactual thinking has become an established method to evaluate decisions in a range of disciplines including history psychology and literature Elke Reinhuber argues it also has valuable applications in the fine arts and popular media A fascination with the path not taken is a logical consequence of a world saturated with choices Art which provokes and explores these tendencies can help to recognise and contextualise the impulse to avoid or endlessly revisit individual or collective decisions Reinhuber describes the term in broad strokes through the disciplines to show how counterfactualism finds shape in contemporary art forms especially in photography film and immersive and interactive media art such as 360 content virtual reality and augmented reality She analyses the different stages of counterfactuals with examples where artists experience counterfactual thoughts in the process of art production explore these thoughts in their

artwork and where the artwork itself evokes counterfactual thoughts in the audience A fascinating exploration for scholars and students of art media and the humanities and anybody else with an interest in choices the art of decisionmaking and counterfactualism **Oxford Treasury of Sayings and Quotations** Susan Ratcliffe,2011-10-13 Contains quotations proverbs and phrases from throughout history and around the world grouped by topic in over four hundred alphabetically arranged categories from Ability to Youth Includes a list of themes and a keyword index *Drift* Jeff Ferrell,2018-03-16 This book was written late in the North American night with the rumbling thuds and booming train horns of the nearby rail yard echoing through my windows reminding me of the train hoppers and gutter punks out there rolling through the darkness In *Drift* Jeff Ferrell shows how dislocation and disorientation can become phenomena in their own right Examining the history of drifting he situates contemporary drift within today s economic legal and cultural dynamics He also highlights a distinctly North American form of drift that of the train hopping hobo by tracing the hobo s legal and political history and by detailing his own immersion in the world of contemporary train hoppers Along the way Ferrell sheds light on the ephemeral intensity of drifting communities and explores the contested politics of drift the strategies that legal authorities employ to control drifters in the interest of economic development the social and spatial dislocations that these strategies ironically exacerbate and the ways in which drifters create their own slippery forms of resistance Ferrell concludes that drift constitutes a necessary subject of social inquiry and a way of revitalizing social inquiry itself offering as it does new models for knowing and engaging with the contemporary world *Framing Crime* Keith Hayward,the late Mike Presdee,2010-07-02 In a world in which media images of crime and deviance proliferate where every facet of offending is reflected in a vast hall of mirrors *Framing Crime* Cultural Criminology and the Image makes sense of the increasingly blurred line between the real and the virtual Images of crime and crime control have become almost as real as crime and criminal justice itself The meaning of both crime and crime control now resides not solely in the essential and essentially false factuality of crime rates or arrest records but also in the contested processes of symbolic display cultural interpretation and representational negotiation It is essential then that criminologists are closely attuned to the various ways in which crime is imagined constructed and framed within modern society *Framing Crime* responds to this demand with a collection of papers aimed at helping the reader to understand the ways in which the contemporary story of crime is constructed and promulgated through the image It also provides the relevant analytical and research tools to unearth the hidden social and ideological concerns that frequently underpin images of crime violence and transgression *Framing Crime* will be of interest to students and academics in the fields of criminology crime and the media and sociology **Routledge International Handbook of Visual Criminology** Michelle Brown,Eamonn Carrabine,2017-07-06 Dynamically written and richly illustrated the Routledge International Handbook of Visual Criminology offers the first foundational primer on visual criminology Spanning a variety of media and visual modes this volume assembles established researchers whose work is essential to understanding the role of the visual

in criminology and emergent thinkers whose work is taking visual criminology in new directions This book is divided into five parts that each highlight a key aspect of visual criminology exploring the diversity of methods techniques and theoretical approaches currently shaping the field Part I introduces formative positions in the developments of visual criminology and explores the different disciplines that have contributed to analysing images Part II explores visual representations of crime across film graphic art documentary police photography press coverage and graffiti and urban aesthetics Part III discusses the relationship of visual criminology to criminal justice institutions like policing punishment and law Part IV focuses on the distinctive ethical problems posed by the image reflecting on the historical development theoretical disputes and methodological issues involved Part V identifies new frameworks and emergent perspectives and reflects upon the distinctive challenges and limits that can be seen in this emerging field This book includes a vibrant colour plate section and over a hundred black and white images breaking down the barriers between original photography and artwork historic paintings and illustrations and modern comics and films This interdisciplinary book will be of interest to criminologists sociologists visual ethnographers art historians and those engaged with media studies
