Congressional Government Woodrow Wilson,1901 The Arrogance of Power Anthony Summers,2001-08-01 The controversial New York Times bestselling biography of America s most infamous president written by a master of investigative political reporting Anthony Summers s towering biography of Richard Nixon reveals a tormented figure whose criminal behavior did not begin with Watergate Drawing on more than a thousand interviews and five years of research Summers traces Nixon s entire career revealing a man driven by addiction to power and intrigue His subversion of democracy during Watergate was the culmination of years of cynical political manipulation Evidence suggests the former president had problems with alcohol and prescription drugs was mentally unstable and was abusive to his wife Pat Summers discloses previously unrevealed facts about Nixon s role in the plots against Fidel Castro and Salvador Allende his sabotage of the Vietnam peace talks in 1968 and his acceptance of funds from dubious sources The Arrogance of Power shows how the actions of one tormented man influenced 50 years of American history in ways still reverberating today Summers has done an enormous service The inescapable conclusion well body guarded by meticulous research and footnotes is that in the Nixon era the United States was in essence a rogue state It had a ruthless paranoid and unstable leader who did not hesitate to break the laws of his own country Christopher Hitchens The New York Times Book Review A superbly researched and documented account the last word on this dark and devious man Paul Theroux No Citizen Left Behind Meira Levinson,2012-05-08 While teaching at an all black middle school in Atlanta Meira Levinson realized that students individual self improvement would not necessarily enable them to overcome their profound marginalization within American society This is because of a civic empowerment gap that is as shameful and antidemocratic as the academic achievement gap targeted by No Child Left Behind No Citizen Left Behind argues that students must be taught how to upend and reshape power relationships directly through political and civic action Drawing on political theory empirical research and her own on the ground experience Levinson shows how de facto segregated urban schools can and must be at the center of this struggle Recovering the civic purposes of public schools will take more than tweaking the curriculum Levinson calls on schools to remake civic education Schools should teach collective action openly discuss the racialized dimensions of citizenship and provoke students by engaging their passions against contemporary injustices Students must also have frequent opportunities to take civic and political action including within the school itself To build a truly egalitarian society we must reject myths of

civic sameness and empower all young people to raise their diverse voices Levinson s account challenges not just educators but all who care about justice diversity or democracy
