Halverson,Kristie A. Foell,2013-02-18 The sudden fall of the Berlin Wall is one of the defining images of the late twentieth century The subsequent unification of Germany and the decision to return Berlin to its status as capital has made the constant changes within the city a matter of public interest It also offered Berlin the opportunity to create a new image for itself one that can serve as a counterbalance to the politically charged recent history of Berlin as the capital of Nazi Germany and former East Berlin as the capital of the German Democratic Republic Poised between capitalist Western Europe and the former communist powers in Eastern Europe Berlin occupies a fascinating geopolitical space This anthology presents a unique glimpse into the various constituencies that make up Berlin and that impact the city s challenges and promises

Figge,Jenifer K. Ward,2010 Coming to terms with the past has been a preoccupation within German culture and German Studies since the Second World War In addition there has been a surge of interest in adaptation of literary works in recent years Numerous volumes have theorized chronicled or analyzed adaptations from novel to film asking how and why adaptations are undertaken and what happens when a text is adapted in a particular historical context With its focus on adaptation of twentieth century German texts not only from one medium to another but also from one cultural moment to another the present collection resides at the intersection of these two areas of inquiry The ten essays treat a variety of media Each considers the way in which a particular adaptation alters a story or history for a subsequent audience taking into account the changing context in which the retelling takes place and the evolution of cultural strategies for coming to terms with the past The resulting case studies find in the retellings potentially corrective versions of the stories for changing times The volume makes the case that adaptation studies

are particularly well suited for tracing Germany's obsessive cultural engagement with its twentieth century history
