Kleindorfer, 2012-12-06 Competitive Transformation of the Postal and Delivery Sector is an indispensable source of information and analysis on the current state of the postal and delivery sector. It offers current insights of leading researchers and practitioners into strategy and regulation as well as the economics of this sector. Issues addressed include national and international perspectives, financial viability, the universal service obligation, regulation, competition, entry, the role of scale and scope economies, the nature and role of cost and demand analysis in postal service, productivity, interaction of law and economics, human resources, transition and reform issues. The papers in the book were selected from the papers presented at the 11th Conference on Postal and Delivery Economics, Toledo, Spain, June 4-7, 2003.      *Downsizing the Federal Government* Chris R. Edwards, 2005 Most federal programs are unnecessary, actively damaging or improperly the responsibility of the states or the private sector. This book examines a huge range of programs that should be cut to balance the budget and reduce taxes.      *Preserving the People's Post Office* Christopher W. Shaw, 2006 Christopher Shaw, the book's author, said: "Through preferential postage rates for nonprofits, the Postal Service facilitates civic involvement and a healthy democracy. Nader also noted: 'Postal employees are fairly remunerated in an increasingly low wage, low benefit Wal-Mart economy.' According to Nader, 'Post offices serve as the heart of community life in neighborhoods and towns nationwide, and the presence of postal workers on community streets makes them safer, as the many beneficiaries of their frequently heroic efforts attest.' The lack of citizen/consumers involvement in the recently passed postal reform legislation has highlighted the need for a public dialogue about the future of our postal system. The book provides a starting point for that conversation," stated Nader.      **The Corporation** Joel Bakan, 2019-09-03 The inspiration for the film that won the 2004 Sundance Film Festival Audience Award for Best Documentary, *The Corporation*, contends that the corporation is created by law to function much like a psychopathic personality whose destructive behavior, if unchecked, leads to scandal and ruin. Over the last 150 years, the corporation has risen from relative obscurity to become the world's dominant economic institution. Eminent Canadian law professor and legal theorist Joel Bakan contends that today's corporation is a pathological institution, a dangerous possessor of the great power it wields over people and societies. In this revolutionary assessment of the history, character, and globalization of the modern business corporation, Bakan backs his premise with the following observations: "The corporation's legally defined mandate is to pursue relentlessly and without exception its own economic self-interest regardless of the harmful consequences it might cause to others. The corporation's unbridled self-interest victimizes individuals, society, and when it goes awry even shareholders, and can cause corporations to self-destruct as recent Wall Street scandals reveal. Governments have freed the corporation, despite its flawed character, from legal constraints through deregulation and granted it ever greater authority over society through privatization. But Bakan believes change is possible and he outlines a far-reaching program of achievable reforms through legal regulation and democratic control. Featuring in-depth interviews with such wide-ranging

figures as Nobel Prize winner Milton Friedman business guru Peter Drucker and cultural critic Noam Chomsky The Corporation is an extraordinary work that will educate and enlighten students CEOs whistle blowers power brokers pawns pundits and politicians alike Financial Disclosure Reports of Members of the U.S. House of Representatives for the Period Between January 1, 2001 to December 31, 2001 United States.
