Mail Orders The Fiction Of Letters In Postmodern Culture:

Mail-Orders Sunka Simon, 2002-03-28 Explores contemporary uses of letters and letter writing including electronic mail in literature film and art *Letters, Postcards, Email* Esther Milne, 2012-02-27 In this original study Milne moves between close readings of letters postcards and emails and investigations of the material technological infrastructures of these forms to answer the question How does presence function as an aesthetic and rhetorical strategy within networked communication practices As her work reveals the relation between old and new communication systems is more complex than allowed in much contemporary media theory Although the correspondents of letters postcards and emails are not usually present to one another as they write and read their exchanges this does not necessarily inhibit affective communication Indeed this study demonstrates how physical absence may in some instances provide correspondents with intense intimacy and a spiritual almost telepathic sense of the other's presence While corresponding by letter postcard or email readers construe an imaginary incorporeal body for their correspondents that in turn reworks their interlocutor's self presentation In this regard the fantasy of presence reveals a key paradox of cultural communication namely that material signifiers can be used to produce the experience of incorporeal presence *Edinburgh Companion to Nineteenth-Century American Letters and Letter-Writing* Celeste-Marie Bernier, 2016-02-15 Provides a wide ranging entry point and intervention into scholarship on nineteenth century American letter writing This comprehensive study by leading scholars in an important new field the history of letters and letter writing is essential reading for anyone interested in nineteenth century American politics history or literature Because of its mass literacy population mobility and extensive postal system nineteenth century America is a crucial site for the exploration of letters and their meanings whether they be written by presidents and statesmen scientists and philosophers novelists and poets feminists and reformers immigrants Native Americans or African Americans This book breaks new ground by mapping the voluminous correspondence of these figures and other important American writers and thinkers Rather than treating the letter as a spontaneous private document the contributors understand it as a self conscious artefact circulating between friends and strangers and across multiple genres in ways that both make and break social ties Key Features Draws together different emphases on the intellectual literary and social uses of letter writing Provides students and researchers with a means to situate letters in their wider theoretical and historical contexts Methodologically expansive intellectually interrogative chapters based on original research by leading academics Offers new insights into the lives and careers of Louisa May Alcott Charles Brockden Brown Emily Dickinson Frederick Douglass Margaret Fuller Henry James Thomas Jefferson Abraham Lincoln Herman Melville Harriet Beecher Stowe and Edgar Allan Poe among many others

Epistolarity in a Post-Letter World Sindija Franzetti, 2024-11-18 The study intervenes in a field hitherto dominated by formal and historical analyses of the literary letter Across the five case studies the method of reading epistolarity as a motif is applied to a selection of American novels published after 1990 Nick Bantock's Griffin Lish and Dunn test the limitations of

letters for conveying individual experience to a distant other Robinson and Erdrich envision epistolarity as an address to a future Exploring the employment of epistolarity as a motif the study offers an interpretation of the messages these fictions extend for readers in a post letter world Communication technologies and practices may change but epistolarity as a motif a reprise of a scene of encounter that depends on keeping a distance between addresser and addressee remains a deeply compelling site of inquiry in twenty first century literature

Rethinking Postmodernism(s) Katrin Amian,2008-01-01 Rethinking Postmodernism s revisits three historical sites of American literary postmodernism the early postmodernism of Thomas Pynchon s V 1961 the emancipatory postmodernism of Toni Morrison s Beloved 1987 and the late or post postmodernism of Jonathan Safran Foer s Everything Is Illuminated 2002 For the first time it confronts these texts with the pragmatist philosophy of Charles Sanders Peirce staging a conceptual dialogue between pragmatism and postmodernism that historicizes and recontextualizes customary readings of postmodern fiction The book is a must read for all interested in current reassessments of literary postmodernism in new critical dialogues between seminal postmodern texts and in recent attempts to theorize the post postmodern moment

Addressing the Letter Laura Anne Salsini,2010-01-01 Women writers of nineteenth and twentieth century Italy reinvigorated the modern epistolary novel through their re fashioning of the genre as a tool for examining women s roles and experiences Addressing the Letter argues that many epistolary novels purposely tie narrative structure to thematic content creating in the process powerful texts that reflect and challenge literary and socio cultural norms Through the lens of the genre Laura A Salsini considers how the works of authors including the Marchesa Colombi Sibilla Aleramo Gianna Manzini Natalia Ginzburg and Oriana Fallaci highlight such issues as love the loss of ideals lack of communication and connection and feminist ideology She also analyses what may be the first woman authored Italian example of epistolary fiction Orontia Romagnuoli Sacratini s Lettere di Giulia Willet 1818 In their reworking of the epistolary narrative form Italian women writers challenged dominant assumptions about female behaviours roles relationships and sexuality in modern Italy

Email and the Everyday Esther Milne,2024-07-02 An exploration of how email is experienced understood and materially structured as a practice spanning our everyday domestic and work lives Despite its many obituaries email is not dead As a global mode of business and personal communication email outstrips newer technologies of online interaction it is deeply embedded in our everyday lives And yet perhaps because the ubiquity of email has obscured its study this is the first scholarly book devoted to email as a key historical social and commercial site of digital communication in our everyday lives In Email and the Everyday Esther Milne examines how email is experienced understood and materially structured as a practice spanning the domestic and institutional spaces of daily life Email experiences range from the routine and banal to the surprising and shocking Drawing on interviews and online surveys Milne focuses on both the material and the symbolic properties of email She maps the development of email as a technology and as an industry considers institutional uses of email including bureaucratic intensity of workplace email and the continuing vibrancy of email groups

and examines what happens when private emails end up in public archives discussing the Enron email dataset and Hillary Clinton's infamous private server Finally Milne explores the creative possibilities of email connecting eighteenth century epistolary novels to contemporary email novels discussing the vernacular expression of ASCII art and mail art and examining email works by Carl Steadman Miranda July and others

The Epistolary Renaissance Maria Löschnigg, Rebekka Schuh, 2018-09-10 Since the late twentieth century letters in literature have seen a remarkable renaissance The prominence of letters in recent fiction is due in part to the rediscovery by contemporary writers of letters as an effective tool for rendering aspects of historicity liminality marginalization and the expression of subjectivity vis vis an other it is also due however to the artistically challenging inclusion of the new electronic media of communication into fiction While studies of epistolary fiction have so far concentrated on the eighteenth century and on thematic concerns this volume charts the epistolary renaissance in recent literature entering new territory by also focusing on the aesthetic implications of the epistolary mode In particular the essays in this volume illuminate the potential of the epistolary including digital forms for rendering contemporary sensitivities The volume thus offers a comprehensive assessment of letter narratives in contemporary literature Through its focus on the aesthetic and structural aspects of new epistolary fiction the inclusion of various narrative forms and the consideration of both conventional letters and their new digital kindred The Epistolary Renaissance offers novel insight into a multi faceted re new ed genre

The Multiverse of Office Fiction Masaomi Kobayashi, 2022-11-15 The Multiverse of Office Fiction liberates Herman Melville's 1853 classic *Bartleby the Scrivener* from a microcosm of Melville studies namely the so called Bartleby Industry This book aims to illuminate office fiction featuring office workers such as clerks civil servants and company employees as an underexplored genre of fiction by addressing relevant issues such as evolution of office work integration of work and life exploitation of women office workers and representation of the Post Office In achieving this goal Bartleby plays an essential role not as one of the most eccentric characters in literary fiction but rather as one of the most generic characters in office fiction Overall this book demonstrates that Bartleby is a generative figure by incorporating a wide diversity of his cousins as Bartlebys It offers fresh contexts in which to place these characters so that it can ultimately contribute to an ever evolving poetics of the office

Inherent Vice Lucas Hilderbrand, 2009-05-28 In an age of digital technology and renewed anxiety about media piracy *Inherent Vice* revisits the recent analog past with an eye opening exploration of the aesthetic and legal innovations of home video Analog videotape was introduced to consumers as a blank format essentially as a bootleg technology for recording television without permission The studios initially resisted VCRs and began legal action to oppose their marketing In turn U S courts controversially reinterpreted copyright law to protect users right to record while content owners eventually developed ways to exploit the video market Lucas Hilderbrand shows how videotape and fair use offer essential lessons relevant to contemporary progressive media policy Videotape not only radically changed how audiences accessed the content they wanted and loved but also altered how they watched it Hilderbrand develops an aesthetic theory of analog video an aesthetics of access most boldly embodied by bootleg videos He contends that the medium specificity of videotape becomes most apparent through repeated duplication wear and technical failure video's visible and audible degeneration signals its uses for legal transgressions and illicit pleasures Bringing formal and cultural analysis into dialogue with industrial history and case law Hilderbrand examines four decades of often overlooked histories of video recording including the first network

Anxious Journeys Karin Baumgartner, Monika Shafi, 2019 The first book to offer a cutting edge discussion of contemporary travel writing in German

Anxious Journeys looks both at classical tropes of travel writing and its connection to current debates. The rich contemporary literature of travel has been the focus of numerous recent publications in English that seek to understand how travel narratives with their distinctive representations of identities, places, and cultures respond to today's globalized, high-speed world characterized by the dual mass movements of tourism and migration. Yet a corresponding cutting-edge discussion of twenty-first-century travel writing in German has until now been missing. The fourteen essays in *Anxious Journeys* redress this situation. They analyze texts by leading authors such as Felicitas Hoppe, Christoph Ransmayr, Julie Zeh, Navid Kermani, Judith Schalansky, Ilija Trojanow, and others, as well as topics such as Turkish-German travelogues and the relationship of comics to travel writing. The volume examines how writers engage with classic tropes of travel writing and how they react to the current sense of crisis and belatedness. It also links travel to ongoing debates about the role of the nation, mass migration, and the European project, as well as to Germany's place in the larger world order.
