James T. Robinson

Maimonides As Philosopher And Codifier:

Maimonides and the Merchants Mark R. Cohen, 2017-07-05 In *Maimonides and the Merchants* Mark R. Cohen reveals the extent of pragmatic revisions to the halakha or body of Jewish law introduced by Moses Maimonides in his *Mishneh Torah* the comprehensive legal code he compiled in the late twelfth century **Hasdai Crescas on Codification, Cosmology**

and Creation Ari Ackerman, 2022-08-01 This work focuses on the conception of God of the medieval Jewish philosopher and legal scholar Hasdai Crescas 1340-1410. It demonstrates that Crescas' God is infinitely creative and good and explores the parallel that Crescas implicitly draws between God as creator and legislator which is rooted in his understanding of the Deity as continuously involved in generative activity through the outpouring of goodness and love as manifest by multiple simultaneous and successive worlds and a perpetually expanding Torah. It also reviews the Maimonidean background for Crescas' position and suggests that Crescas is countering Maimonides' stance that creation is limited to a single moment and Maimonides' notion of the Torah as perfect and immutable **A History of Jewish Philosophy in the Middle Ages** Colette

Sirat, 1990-11-30 Jewish medieval philosophy has formed the subject of much research over the past thirty years since the appearance of Gutmann's *Philosophies of Judaism* resulting in greater understanding and a new need for summation. This important work now available in paperback aims to supply that need and devotes ample discussion to the major figures of the period like Saadia Gaon, Maimonides, Abraham Ibn Ezra, and Judah Halevi. It also gives much attention to the discussion and presentation of texts by lesser known authors clustering around the greater men and movements **Accounting for the**

Commandments in Medieval Judaism Jeremy P. Brown, Marc Herman, 2022-01-17 *Accounting for the Commandments in Medieval Judaism* explores the discursive formation of the commandments as a generative matrix of Jewish thought and life in the post-talmudic period. Each study sheds light on how medieval Jews crafted the commandments out of theretofore underdetermined material. By systematizing, representing, or interrogating the amorphous category of commandment, medieval Jewish authors across both the Islamic and Christian spheres of influence sought to explain, justify, and characterize Israel's legal system, divine revelation, the cosmos, and even the divine order. This volume correlates bodies of knowledge such as jurisprudence, philosophy, ethics, pietism, and kabbalah that are normally treated in isolation into a single conversation about a shared constitutional concern *Central Problems of Medieval Jewish Philosophy* Dov Schwartz, 2006-02-01 This

book deals with central issues of medieval Jewish philosophy. Among the subjects treated are divine immanence, the intellect, miracles, and esoteric writing and its limits. The work provides a new perspective on the history of Jewish philosophy in the Middle Ages. Relying on many as yet unpublished manuscripts, which enable it to offer new insights relating to such thinkers as Judah Halevi, Maimonides, and Gersonides, it also presents a new and original perception of the dynamics of Jewish thought in general **Philosophical Religions from Plato to Spinoza** Carlos Fraenkel, 2012-11-22 This groundbreaking account

of the concept of a philosophical religion traces its history from antiquity to the Enlightenment [Maimonidean Studies](#)

,2008 **History of Jewish Philosophy** Daniel Frank, Oliver Leaman, 2005-10-20 Jewish philosophy is often presented as an addendum to Jewish religion rather than as a rich and varied tradition in its own right but the History of Jewish Philosophy explores the entire scope and variety of Jewish philosophy from philosophical interpretations of the Bible right up to contemporary Jewish feminist and postmodernist thought The links between Jewish philosophy and its wider cultural context are stressed building up a comprehensive and historically sensitive view of Jewish philosophy and its place in the development of philosophy as a whole Includes Detailed discussions of the most important Jewish philosophers and philosophical movements Descriptions of the social and cultural contexts in which Jewish philosophical thought developed throughout the centuries Contributions by 35 leading scholars in the field from Britain Canada Israel and the US Detailed and extensive bibliographies **From Phenomenology to Existentialism** Dov Schwartz, 2012-12-07 This book focuses on the first and second stages of Soloveitchik's philosophy through a systematic and detailed discussion of some of his essays Schwartz exposes the philosophical methodology of Soloveitchik's religious thought 1945 1965 *The Cultures of Maimonideanism* James T. Robinson, 2009 In the history of Jewish thought no individual scholar has exercised more influence than Maimonides 1138 1204 philosopher and physician legal scholar and communal leader This collection of papers originating at the 2007 EAJIS colloquium places primary emphasis on this influence not on Maimonides himself but the many movements he inspired Using Maimonideanism as an interpretive lens the authors of this volume representing a variety of fields and disciplines develop new approaches to and fresh perspectives on the peculiar dynamic of Judaism and philosophy Focusing on social and cultural processes as well as philosophical ideas and arguments they point toward an original reconceptualization of Jewish thought **Imagery Techniques in Modern Jewish Mysticism** Daniel Reiser, 2018-07-09 This book analyzes and describes the development and aspects of imagery techniques a primary mode of mystical experience in twentieth century Jewish mysticism These techniques in contrast to linguistic techniques in medieval Kabbalah and in contrast to early Hasidism have all the characteristics of a full screenplay a long and complicated plot woven together from many scenes a kind of a feature film Research on this development and nature of the imagery experience is carried out through comparison to similar developments in philosophy and psychology and is fruitfully contextualized within broader trends of western and eastern mysticism **Maimonides the Universalist** Menachem Kellner, David Gillis, 2020-11-04 Maimonides Mishneh Torah presents not only a system of Jewish law but also a system of values This study focuses on the moral and philosophical meditations that close each volume of his code The authors analyse these concluding passages to uncover the universalist outlook underlying Maimonides halakhic thought **Maimonides** Abraham Joshua Heschel, 1982 This classic biography of the medieval Jewish philosopher in its first English translation recounts the events of Maimonides's life and provides an illuminating analysis of his thought including his greatest work The Guide for the Perplexed **The Guide for the Perplexed** Moses Maimonides, 1928 *Prophecy* Howard Kreisel, 2012-12-06 More than any other topic

prophecy represents the point at which the Divine meets the human the Absolute meets the relative How can a human being attain the Word of God In what manner does God when conceived as eternal and transcendent address corporeal transitory creatures What happens to God s divine Truth when it is beheld by minds limited in their power to apprehend and influenced by the intellectual currents of their time and place How were these issues viewed by the great Jewish philosophers of the past who took the divine communication and all it entails seriously while at the same time desired to understand it as much as humanly possible in the course of dealing with a myriad of other issues that occupied their attention This book offers an in depth study of prophecy in the thought of seven of the leading medieval Jewish philosophers R Saadiah Gaon R Judah Halevi Maimonides Gersonides R Hasdai Crescas R Joseph Albo and Baruch Spinoza It attempts to capture the original voice of these thinkers by looking at the intellectual milieus in which they developed their philosophies and by carefully analyzing their views in their textual contexts It also deals with the relation between the earlier approaches and the later ones Overall this book presents a significant model for narrating the history of an idea

Ethical Monotheism Ehud Benor, 2017-12-15 The term Ethical Monotheism is an important marker in Judaism s tumultuous transition into the modern era The term emerged in the context of culture wars concerning the question of whether or not Jews could or should become emancipated citizens of modern European states It appeared in arguments whether or not Judaism could be considered a Religion of Reason a symbolic motivational representation of a universal morality and in debates about whether or not Judaism could or should reform itself into a Religion of Reason This book is both a decisive departure from such discussions and an attempt to add a further post modern statement to their ongoing development As departure it refuses to take for granted a philosophical conception of Religion of Reason as the standard for Ethical Monotheism according to which Judaism was to be evaluated or reformed As continuation the book undertakes a phenomenology of Jewish modes of ethical religiosity that allows it to inquire what kind of ethical monotheism Judaism might be Through sophisticated analysis of select snapshots or fragments of a hologram guided by a robust theory of religion the author discloses Judaic ethical monotheism as an ongoing wrestling with the meaning of justice By closely examining five main snapshots of this long process the Bible rabbinic Judaism Maimonides The

Zohar and the modern philosophers Buber and Levinas the author offers his own constructive philosophy of Judaism and his own distinctive philosophy of religion Ethical Monotheism offers a new way to think about Judaism as a religion and as a coherent philosophical debate and demonstrates the need to integrate philosophy history cognitive psychology anthropology theology and history of science in the study of religion **A History of the Jewish Experience** Leo Trepp, 2001 A comprehensive one volume history of Jewish civilization
