Wilson,2001 Maine has long been a well known and frequently visited hunting region Long ago moose and caribou were abundant and as time passed trappers have been able to earn a decent living pursuing choice and prized fur bearing animals Small game and waterfowl populations remained fairly stable over the years and have continued to increase in popularity However as large areas of habitat were cleared for timber larger animals began to disappear and opulations dwindled Trapping has since become a less favorable mode of producing income because of the low prices offered for native and raw fur Maine s Hunting Past captures the pursuit of wild animals through a century of documentation Since about 1850 animals have been taken for sport for food and for their hides Hunting has long been not only a sport but also an industry resulting in the increase and growth of sporting camps and an expanding number of guides Maine s Hunting Past highlights favorite regions featuring famous sporting camps and well known guides Big game small game upland birds waterfowl furbearers and numerous photographs of trophy animals and large bag limits are all included      **New England**

to mark Maryland's dangerous shoals and waterways Lighthouses sprang up throughout the 1800s and early 1900s including wood framed cottages placed upon screw pile foundations that stood offshore in the unforgiving waters Most of these unique structures did not survive lost tragically to ice that also occasionally claimed the lives of the keepers who faithfully tended them and rescued mariners in trouble With the advent of electricity and GPS many beacons succumbed to vandalism and neglect leaving a fraction remaining
