Lori L. Smith,Daniel C. Barkley,Daniel D. Cornwall,Eric W. Johnson,J. Louise Malcomb,2003-11-30 Each state government

produces large varieties and quantities of useful information that are largely unknown outside their state of origin This book

leads the public to the most useful information sources produced by each state as well as to depository libraries that will

facilitate more effective research For each of the 50 states important publications are detailed along with information on how

to obtain them The publications topics range from crime statistics to vital statistics business statistics health information

statistical abstracts education directories state budgets economic indicators state laws and legal information and more

Tapping State Government Information Sources has a broader focus than previously published books in this subject area

most of which have focused solely on depository laws useful state publications or indexes to state publications This book

covers all three The first chapter describes print and electronic sources that provide information about all 50 states Each

state s resources are then described in individual chapters When possible information about how to order a copy of the

source is given as are Web addresses for titles that are available online At the beginning of each state chapter the state s

legal definition of public document or its equivalent is given which may be of interest to librarians in states that are

reexamining their own depository laws      *Pennsylvania Manufacturers Register* ,2004      Rubber Trade Directory ,1916
