## Mainland Greece:

**The Companion Guide to Mainland Greece** Brian De Jongh, John Gandon, Geoffrey Graham-Bell, 2000 When Brian de Jongh's two classic Companion Guides Southern Greece and Mainland Greece were first published they were greeted with acclaim and immediately established themselves as essential guides They have now been combined into this single volume covering the whole of the Greek mainland This new edition has been thoroughly revised by John Gandon Brian de Jongh's nephew and Geoffrey Graham Bell taking into account both new archaeological discoveries and recent development Brian de Jongh combined an expert knowledge of history archaeology and mythology with a profound understanding of the Greek people and a feeling for the landscape which inspired their myths and monuments he describes a country that he loved and much of which Pausanias writing almost two thousand years ago would still recognise This book is more than ever the most indispensable of all modern guides to Greece

of Greece      **Lexicon and Atlas of the Modern World Coinciding with the Ancient Greek World** Joseph R. Laurin, 2013-01-09 LEXICON AND ATLAS OF THE MODERN WORLD COINCIDING WITH THE ANCIENT GREEK WORLD From Solon of the sixth century BCE to Alexander the Great of the fourth century BCE the Ancient Greek World covered about six percent of our Modern World but in this small inhabited territory many of the greatest deeds of history were accomplished in places whose names remained the same to this day or changed with the subsequent civilizations In order to retrieve from this book some brief information about nearly four thousand of these places the researchers can approach it by their names in either the Modern world or the Ancient Greek World For the Ancient Greeks the earth was a flat oval sphere surrounded by a huge Ocean longer from west to east than from north to south In addition to Hellas Greece their world encompassed the lands of Southern Europe North Africa and Egypt and West and Central Asia In relation to the Modern World it covered from the British Isles and Gibraltar in the west to western China and India in the east and from southern Germany the Ukraine and Kazakhstan in the north to north Africa Ethiopia and the Arabian Sea in the south In this publication cities islands mountains regions rivers and seas are listed alphabetically with a brief description in the Lexicon and a reference to their locations on forty two maps in the Atlas They are all listed again by groups in the Index Between the monumental publications about the geography of the Ancient Greek World and the specialized ones there remained between them a gap to be filled in by an instrument providing a fairly comprehensive and always brief clear and easy to handle listing of places Filling in this gap with such an instrument is the purpose of this publication addressed primarily to the busy readers and writers of all types <http://www.greekancienthistory.com>      **Byzantine and Medieval Greece** Paul Hetherington, 1999-12 Informs visitors to modern Greece about some features of the country's medieval past from the 4th century to the final occupation by the Turks in 1460 It concentrates on surviving creations that were produced on Greek soil in early Christian Byzantine and medieval periods on the mainland and the Peloponnese to the exclusion of the islands Sections an outline history of medieval Greece the architecture and art of medieval Greece entries in alphabetical sequence by location glossary tables of rulers main historical events further reading and index of personal names 34 illustrations and 6 maps      **Greece** Sierra Adare, 2007-10-31 New photos and updated text highlight this revised edition Beautiful photos show ancient and modern cities and new topics include the recent rash of devastating fires      *Odysseus Unbound* Robert Bittlestone, James Diggle, John Underhill, 2005-09-19 Extraordinary story of the exciting discovery of the true location of Odysseus homeland of Ithaca      **Religions of the Ancient Greeks** S. R. F. Price, 1999-06-28 This 1999 book is about the religious life of the Greeks from the eighth century BC to the fifth century AD looked at in the context of a variety of different cities and periods Simon Price does not describe some abstract and self contained system of religion or myths but examines local practices and ideas in the light of general Greek ideas relating them for example to gender roles and to cultural and political life including Attic tragedy and the trial of Socrates He also lays emphasis on the reactions to Greek religions of ancient thinkers Greek

Roman Jewish and Christian The evidence drawn on is of all kinds literary texts which are translated throughout inscriptions including an appendix of newly translated Greek inscriptions and archaeology which is highlighted in the numerous illustrations *Cultural History of Reading* Sara E. Quay, Gabrielle R. Watling, 2008-11-30 What is it about some books that makes them timeless *Cultural History of Reading* looks at books from their earliest beginnings through the present day in both the U S and regions all over the world Not only fiction and literature but religious works dictionaries scientific works and home guides such as Mrs Beeton s all have had an impact on not only their own time and place but continue to capture the attention of readers today Volume 1 examines the history of books in regions throughout the world identifying both literature and nonfiction that was influenced by cultural events of its time Volume 2 identifies books from the pre colonial era to the present day that have had lasting significance in the United States History students and book lovers alike will enjoy discovering the books that have impacted our world *Social Formations in the Ancient World* Rakesh Kumar, 2024-02-27 This book encapsulates a long period of history of human progress by highlighting crucial social economic and cultural dynamics It presents recent historiography and new analytical tools used to analyse multi dimensional themes involved in social formations in different parts of the world This is a reader friendly book with simple and lucid language and fulfils the pressing needs of students studying the course on Social Formations and Cultural Patterns of the ancient and medieval world at various universities across the world The summary key words and representative questions at the end of each chapter would assist in revision and a better understanding of the issues dealt with therein A detailed chapter end reference would enable and motivate the readers to engage in further studies for a better understanding of the themes This book will be of interest to students researchers and academics in the area of history ancient and medieval world history in particular and anthropology It will also be an interesting read for general readers interested in knowing about the ancient and medieval world Agathokles of Syracuse Christopher de Lisle, 2021-02-04 Agathokles of Syracuse ruled large areas of Sicily and southern Italy between 317 and 289 BC In this book Christopher de Lisle argues that Agathokles was an important player in the Mediterranean world at a key moment in its history Agathokles career has important implications for our definition of the Hellenistic world and its relationship to both the western Mediterranean and earlier Greek history However he has tended not to feature in studies of the Hellenistic world or of ancient Sicily In ancient discourse about him in the coins he issued in his interactions with the world around him and in the way he ruled Agathokles is simultaneously heir to a long tradition and actively engaged in his contemporary world The failure to place Agathokles in both of these contexts up till now has contributed to the development of an excessively deep separation between the western and eastern Mediterranean and between the Classical and Hellenistic periods This work the first book length study of Agathokles in English in over a century places him in the context of both the earlier history of Sicily and the developments in the eastern Mediterranean that mark the start of the Hellenistic era The volume includes a narrative of his career studies of his coinage and his representation in

literary sources and a series of explorations of important themes and regions      Communities in Transition Søren Dietz,Fanis Mavridis,Žarko Tankosić,Turan Takaoglu,2017-11-30 *Communities in Transition* brings together scholars from different countries and backgrounds united by a common interest in the transition between the Neolithic and the Early Bronze Age in the lands around the Aegean Neolithic community was transformed in some places incrementally and in others rapidly during the 5th and 4th millennia BC into one that we would commonly associate with the Bronze Age Many different names have been assigned to this period Final Neolithic Chalcolithic Eneolithic Late Neolithic I II Copper Age which to some extent reflects the diversity of archaeological evidence from varied geographical regions During this long heterogeneous period developments occurred that led to significant changes in material culture the use of space the adoption of metallurgical practices establishment of far reaching interaction and exchange networks and increased social complexity The 5th to 4th millennium BC transition is one of inclusions entanglements connectivity and exchange of ideas raw materials finished products and quite possibly worldviews and belief systems Most of the papers presented here are multifaceted and complex in that they do not deal with only one topic or narrowly focus on a single line of reasoning or dataset Arranged geographically they explore a series of key themes Chronology cultural affinities and synchronization in material culture changing social structure and economy inter and intra site space use and settlement patterns caves and include both site reports and regional studies This volume presents a tour de force examination of many multifaceted aspects of the social cultural technological economic and ideological transformations that mark the transition from Neolithic to Early Bronze Age societies in the lands around the Aegean during the 5th and 4th millennium BC      *Rome & Parthia: Empires at War* Gareth C. Sampson,2020-08-05 A Roman historian examines the motivation and strategy behind Marc Anthony s invasion of Parthia and the reasons for its ultimate defeat In the mid first century BC the Roman Empire was rivaled only by the Parthian Empire to the east The first war between these two ancient superpowers resulted in the total defeat of Rome and the death of Marcus Crassus When Rome collapsed into Civil War in the 1st century BC the Parthians took the opportunity conquer the Middle East and drive Rome back into Europe What followed was two decades of war which saw victories and defeats on both sides The Romans were finally able to gain a victory over the Parthians thanks to the great general Publius Ventidius These victories acted as a springboard for Marc Antony s plans to conquer the Parthian Empire which ended in ignominious defeat In this authoritative history Gareth Sampson analyses the military campaigns and the various battles between Rome and Parthia He provides fascinating insight into the war that in many ways defined the Middle East for the next 650 years
