Ideologies in Education Lilia I. Bartolomé, 2008 Exposes the invisible yet pervasive nature of oppressive dominant ideologies the urgent need to articulate their existence and the harmful impact they have on education The solutions to many of the educational challenges facing subordinated students are not purely technical or methodological in nature but are instead rooted in commonly unacknowledged discriminatory ideologies and practices The invisible foundation hegemonic ideologies that inform our perceptions and treatment of subordinated students needs to be made explicit and studied critically in order to comprehend the challenges presented in minority education and possible solutions more accurately Confronts the continuing existence and vigorous resurgence of not easily named discriminatory perspectives toward students from subordinated cultural groups as well as their numerous manifestations in schools and identifies the measures necessary to neutralize unequal material conditions and biased beliefs From publisher description **Dialogues Across Civilizations** Roxann Prazniak, 2018-05-04 Dialogues Across Civilizations sets the histories of China and Europe alongside one another Each chapter stands as an essay that imaginatively places historical individuals and events in proximity to one another and explores a specific topic gender relations rural politics artistic renderings of nature to name a few through the stories of persons who reflected on similar questions but in different social and cultural settings Through this juxtaposition Chinese and European civilizations illuminate each other's achievements problems and limitations in a range of areas from urban history to religious faith Privileging neither Europe nor China this work offers an innovative move away from relativism and

multiculturalism towards an analysis that focuses on relationships between social choices and consequences As a result both common and divergent perspectives on the human condition emerge for discussion Drawing upon a rich literature of cross societal studies *Dialogues Across Civilizations* generates reflection on themes central to the study of world history as well as European and Asian history

Darwin's Laboratory Roy M. MacLeod, Philip F. Rehbock, 1994-01-01 No scientific traveler was more influenced by the Pacific than Charles Darwin and his legacy in the region remains unparalleled Yet the extent of the Pacific's impact on the thought of Darwin and those who followed him has not been sufficiently grasped In this volume of essays sixteen scholars explore the many dimensions biological geological anthropological social and political of Darwinism in the Pacific Fired by Darwinian ideas nineteenth century naturalists within and around the Pacific rim worked to further Darwin's programs in their own research in Seattle conchologist P Brooks Randolph in Honolulu evolutionist John Thomas Gulick in Adelaide botanist Richard Schomburgk and in Malaysia biogeographer Alfred Russel Wallace Lesser known enthusiasts furnished Darwin with fresh material and replied to his endless inquiries while young aspiring biologists from Cambridge tested Darwinian ideas directly

in the laboratory of the Pacific But the implications of Darwinism for the understanding of human nature and history turned it into a public theory as well as a scientific one Anthropologists geographers missionaries politicians and social commentators from Australia to Japan all found ways to adapt Darwinism to their own agendas Darwin s Laboratory demonstrates the variety and richness of Darwinian ideas in the Pacific and in so doing shows how the region functioned as a testing ground for the theory of evolution Further it illustrates how Darwinian ideas and their European contexts helped invent and define the particular conception we have of the Pacific Both the general reader and the specialist will find controversy illumination and entertainment in this the first book to probe the extent of Darwinism and Darwinian thinking in the Pacific **A Great**

Idea at the Time Alex Beam,2010-09 Today the classics of the western canon written by the proverbial dead white men are cannon fodder in the culture wars But in the 1950s and 1960s they were a pop culture phenomenon The Great Books of Western Civilization fifty four volumes chosen by intellectuals at the University of Chicago began as an educational movement and evolved into a successful marketing idea Why did a million American households buy books by Hippocrates and Nicomachus from door to door salesmen And how and why did the great books fall out of fashion In A Great Idea at the Time Alex Beam explores the Great Books mania in an entertaining and strangely poignant portrait of American popular culture on the threshold of the television age Populated with memorable characters A Great Idea at the Time will leave readers asking themselves Have I read Lucretius s De Rerum Natura lately If not why not **Rethinking China's Rise** Jilin

Xu,2018-07-05 China s rise to power is the signal event of the twenty first century and this volume offers a contemporary view of this nation in ascendancy from the inside Eight recent essays by Xu Jilin a popular historian and one of China s most prominent public intellectuals critique China s rejection of universal values and the nation s embrace of Chinese particularism the rise of the cult of the state and the acceptance of the historicist ideas of Carl Schmitt and Leo Strauss Xu s work is distinct both from better known voices of dissent and also from the New Left perspectives offering instead a liberal reaction to the complexity of China s rise Yet this work is not a shrill denunciation of Xu s intellectual enemies but rather a subtle and heartfelt call for China to accept its status as a great power and join the world as a force for good **Myth and**

Southern History Patrick Gerster,Nicholas Cords,1974 **The German Stranger** William H. F. Altman,2012-06-07 The German Stranger provides a guide to Leo Strauss that situates his thought in the context of National Socialism by destroying any middle ground between Athens and Jerusalem Strauss undermined modernity s secular bulwark against political theology Once National Socialism is understood as an atheistic religion re enacted by post Revelation philosophers the German avatar of Plato s Athenian Stranger can be recognized as its principal theoretician **INTRODUCTION TO HUMAN GEOGRAPHY**

The Evolution of MAN from Man First Edition Dr. Asutosh Goswami, Human Geography is a wide ranging subfield that is intertwined with virtually every other academic field The spatial perspective is this connection which basically means that if a phenomenon can be mapped it has some connection to Geography Geographical knowledge is essential to a competent

comprehension of our global environment and the study of the entire world is an intriguing field In this section a reader will realize what topography is as well as a portion of the crucial ideas that support the discipline As you progress through the subsequent chapters a solid understanding of these fundamental terms and ideas is essential because they will be interwoven throughout the text This textbook is an introduction to the study of Human Geography It gives new geographers a simple way to get started in the field while also encouraging readers to dig deeper and learn more The Great Right North Stéphane Leman-Langlois, Samuel Tanner, Aurélie Campana, 2024-10-15 In February 2021 the Canadian government published a considerably expanded list of domestic terrorist entities While some such as Blood and Honour were already known others such as Atomwaffen Division the Base the Proud Boys and the Russian Imperial Movement emerged from the shadows Until then many considered far right groups in Canada a negligible phenomenon at worst a local police matter The Great Right North charts the growth of these groups illuminating how official and unofficial government attention generates the context in which they build their movements The result of seven years of research including social media scraping analysis of print and video sources and interviews with scores of leaders and adherents it examines how far right organizations operate recruit and finance their activities and explores why individuals choose to join Breaking new ground by revealing the ideological underpinnings and fragmentation within these groups the authors also highlight the role of digital platforms in their proliferation Most politicians have been quiet about the phenomenon of far right extremism in Canada insisting it is imported activism financed elsewhere The Great Right North provides an essential primer for journalists those working in policy institutes and think tanks and students and scholars for understanding its vast and urgent homegrown challenges

Organizational Communication and Management Andrzej K. Koźmiński, Donald P. Cushman, 1993-01-01 Polish and American scholars with contributions from Western Europe Japan and Africa discuss issues of the communication and management demands on companies faced with dealing in a global economy The main topics of the 14 papers from a June 1990 conference near Plock Poland are the economic *Why The West Rules - For Now* Ian Morris, 2010-11-04 Why did British boats shoot their way up the Yangzi in 1842 rather than Chinese ones up the Thames Why do Easterners use English more than Europeans speak in Mandarin or Japanese To put it bluntly why does the West rule There are two schools of thought the Long Term Lock In theory suggesting some sort of inevitability and the Short Term Accident theory But both approaches have misunderstood the shape of history Ian Morris presents a startling new theory He explains with flair and authority why the paths of development differed in the East and West and analysing a vicious twist in trajectories just ahead of us predicts when the West's lead will come to an end Here you have three books wrapped into one an exciting novel that happens to be true an entertaining but thorough historical account of everything important that happened to any important people in the last 10 millennia and an educated guess about what will happen in the future Read learn and enjoy Jared Diamond A great work of synthesis and argument drawing together an awesome range of materials and authorities to bring

us a fresh sharp reading of East West relationships Andrew Marr Blowin' Hot and Cool John Gennari, 2010-09-15 In the illustrious and richly documented history of American jazz no figure has been more controversial than the jazz critic Jazz critics can be revered or reviled often both but they should not be ignored And while the tradition of jazz has been covered from seemingly every angle nobody has ever turned the pen back on itself to chronicle the many writers who have helped define how we listen to and how we understand jazz That is of course until now In Blowin' Hot and Cool John Gennari provides a definitive history of jazz criticism from the 1920s to the present The music itself is prominent in his account as are the musicians from Louis Armstrong and Duke Ellington to Charlie Parker John Coltrane Roscoe Mitchell and beyond But the work takes its shape from fascinating stories of the tradition's key critics Leonard Feather Martin Williams Whitney Balliett Dan Morgenstern Gary Giddins and Stanley Crouch among many others Gennari is the first to show the many ways these critics have mediated the relationship between the musicians and the audience not merely as writers but in many cases as producers broadcasters concert organizers and public intellectuals as well For Gennari the jazz tradition is not so much a collection of recordings and performances as it is a rancorous debate the dissonant noise clamoring in response to the sounds of jazz Against the backdrop of racial strife class and gender issues war and protest that has defined the past seventy five years in America Blowin' Hot and Cool brings to the fore jazz's most vital critics and the role they have played not only in defining the history of jazz but also in shaping jazz's significance in American culture and life **Getting a Grip** Frances Moore Lappe, 2010-10-08 Designated by The New York Times Book Review as a must read in 2008 for the next U S president Lappe's unique take and laser like logic invite readers to try on a new invigorating way of seeing the world With her characteristic boldness she takes on a set of disempowering ideas driving economic and ecological crises challenging readers to rethink the meaning of power democracy and hope itself In her punchy no holds barred style Lappe weaves together fresh insights startling facts and stirring vignettes of regular people pursuing ingenuous solutions My books intent Lappe writes is to enable us to see what is happening all around us but is still invisible to most of us people in all walks of life penetrating the spiral of despair and reversing it with new ideas innovation and courage This updated and revised edition responds to Obama's presidency and the global financial collapse concluding with reflection questions that are perfect for book groups

America's New Working Class Kathleen R. Wave Cristóbal Rovira Kaltwasser, 2021 The origins of this project can be traced back to 2011 when the editors of this volume were working together at the University of Sussex During this time Cristóbal was working on a book on the right in Latin America while Tim was doing research on the Conservative Party in the UK Soon after Tim started a new job at Queen Mary University of London and Cristóbal started a new job at Universidad Diego Portales in Santiago de Chile Nevertheless we continued to stay in contact and continued to remain baffled about the absence of comparative studies on the mainstream right in Western Europe This bafflement led Tim to come to Santiago de Chile in March 2018 and we started not only to write a framework for analysis on this topic but also to think about who else might be interested in writing on the state of the mainstream right in the different countries of Western Europe Thanks to the support of the Thyssen Foundation we were able to organize a two day meeting at Queen Mary University of London in March 2019 in which we discussed a first draft of several of the chapters of this edited volume We want to thank Susan Scarrow and Thomas Poguntke who provided invaluable feedback to all authors during this workshop
