Maintaining The Target Intraocular Pressure:

Intraocular Pressure R.N. Weinreb,J.D. Brandt,D. Garway-Heath,F. Medeiros,2007 Intraocular Pressure is the subject for the fourth Consensus report published under the auspices of the AIGS now renamed as the World Glaucoma Association WGA The active participation in our Project Forum e Room started in January 2007 by expert members of the various consensus committees As done with prior reports the preliminary document was circulated to each of the member societies of the WGA and additional comments were solicited for the document Each member Society also was invited to send a representative to attend the consensus meeting that was held in Fort Lauderdale Florida on May 5 2007 The report then was discussed extensively during the Consensus Meeting and Consensus Statements were revised following these discussions Intraocular Pressure is a topic that touches the essence of our subspecialty Its measurement is a vital aspect of glaucoma diagnosis and treatment For now it is the only modifiable risk factor Measurement of IOP is a relatively recent one century addition to our diagnostic armamentarium Even though the measurement of IOP is relatively simple it is by no means uncomplicated The greatest limitation is probably the paucity of measurements that are obtained in practice Although continuous IOP measurement is on the horizon it still is not ready for clinical practice Arriving at a consensus often can be circuitous and filled with compromises However this opportunity is used to critically assess the evidence and develop consensus points The reader will find this consensus report instructive practical and thought provoking Moreover it has great potential to impact patients both individually and collectively through both their care and research *Clinical Glaucoma Care* John R. Samples,Paul N. Schacknow,2013-11-27 Glaucoma Clinical Care The Essentials is a pragmatic slimmer companion volume to the more academically focused text The Glaucoma Book by the same editors This new book is a thoroughly updated manual for the day to day diagnosis and management of glaucoma patients by comprehensive ophthalmologists and optometric physicians Its 33 chapters are authored by world renowned experts in clinical care and basic research providing evidenced based research office examination skills clinical pearls and up to date reviews of the scientific literature on glaucoma as well as extensive graphics and tables to accompany the text Glaucoma Clinical Care The Essentials is the one book to have and consult when confronted with a problematic glaucoma patient sitting in your exam chair as it is a thorough presentation of glaucoma medications laser and incisional glaucoma surgeries complete with commentaries on advantages and disadvantages of the different therapies **Maintaining the Target Intraocular Pressure** Sade Kosoko-Lasaki,Mildred M.
