Magic Divinatio Witchcraft Among The:

Witchcraft, Magic and Divination Patrick Mbunwe-Samba, 2012 This book is largely the personal account by Patrick Mbunwe Samba of how life in his home village of Binshua has been permeated throughout by belief in witchcraft The book not only provides a historical account informed by his reminiscences of his childhood it shows as well that even today belief in witchcraft is very widespread Witchcraft exerts a profound influence on society in Binshua and in Cameroon in general The book also provides accounts of the experiences of others some of them very recent and gives examples of what injustices and suffering can be caused by the notion that any misfortune must have been caused by witchcraft For the overwhelming majority of people in village communities such as Binshua Samba argues anything not immediately understandable is witchcraft which is synonymous with mystery Many educated Africans too revert to such traditional attitudes in stressful situations It may be thought surprising that in spite of the impact of Christianity Western culture and the improved level of education the majority of people still believe in witchcraft and that this phenomenon not only persists but is actually increasing The book perplexes and challenges by avoiding to provide simple answers to the question whether which witchcraft is real or imagined Theoretical and Empirical Investigations of Divination and Magic Jesper Sørensen, Anders Klostergaard Petersen, 2021-05-03 In Theoretical and Empirical Investigations of Divination and Magic ten leading scholars of religion provide up to date investigations into the classic domains of divination and magic Spanning historical anthropological cognitive philosophical and theoretical chapters the volume's authors invite the reader to explore how divinatory practices and magical rituals both apart and in interaction can be reconceptualized in line with 21st century scholarship Following an introduction addressing the ever pertinent discussion of the status and epistemological value of the categories inherited from our scholarly predecessors the volume includes analyses of divinatory and magic practices in particular historical areas as well as comparative theoretical and philosophical discussions making this an indispensable volume for anyone interested in broader comparative approaches to magic and divination Contributors are Lars Albinus Edward Bever Gideon Bohak Corby Kelly Lars Madsen Anders Klostergaard Petersen J rg R pke Jesper Fr kj r S rensen J rgen Podemann S rensen Dimitris Xygalatas **Moral Power** Koen Stroeken, 2010-07-01 Neither power nor morality but both Moral power is what Sukuma farmers in Tanzania in times of crisis attribute to an unknown figure they call their witch A universal process is involved as much bodily as social which obstructs the patient's recovery Healers turn the table on the witch through rituals showing that the community and the ancestral spirits side with the victim In contrast to biomedicine their magic and divination introduce moral values that assess the state of the system and that remove the obstacles to what is taken as key self healing The implied sensory shifts and therapeutic effectiveness have largely eluded the literature on witchcraft This book shows how to comprehend culture other than through the prism of identity politics It offers a framework to comprehend the rise of witch killings and human sacrifice just as ritual initiation disappears *Mesopotamian Witchcraft*
