*The Gospel of Trees* Apricot Irving, 2019-03-26 In an eye opening memoir People as beautiful as it is discomfiting The New Yorker award winning writer Apricot Irving untangles her youth on a missionary compound in Haiti Apricot Irving grew up as a missionary s daughter in Haiti Her father was an agronomist a man who hiked alone into the deforested hills to preach the gospel of trees Her mother and sisters spent their days in the confines of the hospital compound they called home As a child this felt like paradise to Irving as a teenager it became a prison Outside of the walls of the missionary enclave Haiti was a tumult of bugle call bus horns and bicycles that jangled over hard packed dirt road blocks

and burning tires triggered by political upheaval the clatter of rain across tin roofs and the swell of voices running ahead of the storm Poignant and explosive Irving weaves a portrait of a missionary family that is unflinchingly honest her father's unswerving commitment to his mission her mother's misgivings about his loyalty the brutal history of colonization Drawing from research interviews and journals her parents as well as her own this memoir in many voices evokes a fractured family finding their way to kindness through honesty Told against the backdrop of Haiti's long history of intervention it grapples with the complicated legacy of those who wish to improve the world while bearing witness to the defiant beauty of an undefeated country A lyrical meditation on trees and why they matter loss and privilege love and failure The Gospel of Trees is a lush emotional debut A beautiful memoir that shows how a family altered by its own ambitious philanthropy might ultimately find hope in their faith and love for each other and for Haiti Publishers Weekly starred review Venture Into Cultures Olga R. Kuharets,2001-05 Contains a resource book of multicultural materials and includes program ideas Web sites and recommended children's books that provide students with information on the traditions stories pictures and music from around the world The Life of Plants Emanuele Coccia,2019-01-16 We barely talk about them and seldom know their names Philosophy has always overlooked them even biology considers them as mere decoration on the tree of life And yet plants give life to the Earth they produce the atmosphere that surrounds us they are the origin of the oxygen that animates us Plants embody the most direct elementary connection that life can establish with the world In this highly original book Emanuele Coccia argues that as the very creator of atmosphere plants occupy the fundamental position from which we should analyze all elements of life From this standpoint we can no longer perceive the world as a simple collection of objects or as a universal space containing all things but as the site of a veritable metaphysical mixture Since our atmosphere is rendered possible through plants alone life only perpetuates itself through the very circle of consumption undertaken by plants In other words life exists only insofar as it consumes other life removing any moral or ethical considerations from the equation In contrast to trends of thought that discuss nature and the cosmos in general terms Coccia's account brings the infinitely small together with the infinitely big offering a radical redefinition of the place of humanity within the realm of life
