Magic and Perception Bob Friedhoffer,2019-06-05 An exerpt from CHAPTER ONE WHAT IS PERCEPTION When I first started doing magic tricks I thought it was awesome that I could fool people I could do things they couldn t do Not only couldn t they do them they couldn t figure out how to do them Being the nosy kind of guy I am I wanted to know how and why people get fooled If I knew that I thought maybe I d become a better magician So I started studying different things both in school and out things such as acting stagecraft and the history of magic and science It dawned on me after a while that there are many scientific reasons for why magic fools people Some of them have to do with laws of physics which I ve discussed at length in some of my other books Others are based on principles of chemistry and biology which I ve touched on in other books But quite a few of the reasons have to do with the science of the mind better known as psychology and the science of the brain neurology These are the areas this book concentrates on Thirteen Senses: A Memoir Victor Villasenor,2002-09 A daring memoir of love magic adventure and miracles this book continues the exhilarating family saga that began in the widely acclaimed bestseller Rain of Gold Villaseor brings readers into the Bonnie and Clyde like world of his colorful immigrant family 8 page photo insert Print features The Magic of the Senses Vitus B. Dröscher,1971 **A History of the Senses** Robert Jütte,2005 This path breaking book examines our attitudes to the senses from antiquity through to the present day Robert Jutte explores a wealth of different traditions images metaphors and ideas that have survived through time and describes how sensual impressions change the way in which we experience the world Throughout history societies have been both intrigued or unsettled by the five senses The author looks at the way in which the social world conditions our perception and traces the rediscovery of sensual pleasure in the twentieth century paying attention to experiences as varied as fast food deodorization and extra sensory perception He concludes by exploring technological change and cyberspace reflecting on how developments in these fields will affect our relationship with the senses in the future **A Taste of Magic** Andre Norton,Jean Rabe,2007-08-28 Young Wisteria draws on all of her magical abilities which link her to the mysterious powers of nature as she ventures into the wilderness seeking revenge on the nobleman who had destroyed her village and

killed Lady Ewren **The Spell of the Sensuous** David Abram,1997-02-25 Winner of the International Lannan Literary Award for Nonfiction Animal tracks word magic the speech of stones the power of letters and the taste of the wind all figure prominently in this intellectual tour de force that returns us to our senses and to the sensuous terrain that sustains us This major work of ecological philosophy startles the senses out of habitual ways of perception For a thousand generations human beings viewed themselves as part of the wider community of nature and they carried on active relationships not only with other people with other animals plants and natural objects including mountains rivers winds and weather patters that we have only lately come to think of as inanimate How then did humans come to sever their ancient reciprocity with the natural world What will it take for us to recover a sustaining relation with the breathing earth In *The Spell of the Sensuous* David Abram draws on sources as diverse as the philosophy of Merleau Ponty Balinese shamanism Apache storytelling and his own experience as an accomplished sleight of hand of magician to reveal the subtle dependence of human cognition on the natural environment He explores the character of perception and excavates the sensual foundations of language which even at its most abstract echoes the calls and cries of the earth On every page of this lyrical work Abram weaves his arguments with a passion a precision and an intellectual daring that recall such writers as Loren Eiseley Annie Dillard and Barry Lopez

The Senses of Modernism Sara Danus,2019-01-24 In *The Senses of Modernism* Sara Danus develops a radically new theoretical and historical understanding of high modernism The author closely analyzes Thomas Mann s *The Magic Mountain* Marcel Proust s *Remembrance of Things Past* and James Joyce s *Ulysses* as narratives of the sweeping changes that affected high and low culture in the age of technological reproduction In her discussion of the years from 1880 to 1930 Danus proposes that the high modernist aesthetic is inseparable from a technologically mediated crisis of the senses She reveals the ways in which categories of perceiving and knowing are realigned when technological devices are capable of reproducing sense data Sparked by innovations such as chronophotography phonography radiography cinematography and technologies of speed this sudden shift in perceptual abilities had an effect on all arts of the time Danus explores how perception notably sight and hearing is staged in the three most significant modern novels in German French and British literature *The Senses of Modernism* connects technological change and formal innovation to transform the study of modernist aesthetics Danus questions the longstanding acceptance of a binary relationship between high and low culture and describes the complicated relationship between modernism and technology challenging the conceptual divide between a technological culture and a more properly aesthetic one *The Magic of the Senses* Vitus B. Dröscher,1966 **Rain of Gold** Victor
