yearn to be away from external sounds and sufferings This will not appear strange to the reader who keeps in remembrance the impressible power that I possess to feel another's woe from a distance of hundreds and even thousands of miles The compact walls of my abode in the healthy and beautiful city of Hartford were no protection The study and discipline of Mount Beauty had opened my sympathies toward all mankind The descriptive and questioning letters that came to me daily from far and near were

College Andrew Delbanco, 2023-04-18 The strengths and failures of the American

college and why liberal education still matters As the commercialization of American higher education accelerates more and more students are coming to college with the narrow aim of obtaining a preprofessional credential The traditional four year college experience an exploratory time for students to discover their passions and test ideas and values with the help of teachers and peers is in danger of becoming a thing of the past In *College* prominent cultural critic Andrew Delbanco offers a trenchant defense of such an education and warns that it is becoming a privilege reserved for the relatively rich In describing what a true college education should be he demonstrates why making it available to as many young people as possible remains central to America's democratic promise In a brisk and vivid historical narrative Delbanco explains how the idea of college arose in the colonial period from the Puritan idea of the gathered church how it struggled to survive in the nineteenth century in the shadow of the new research universities and how in the twentieth century it slowly opened its doors to women minorities and students from low income families He describes the unique strengths of America's colleges in our era of globalization and while recognizing the growing centrality of science technology and vocational subjects in the curriculum he mounts a vigorous defense of a broadly humanistic education for all Acknowledging the serious financial intellectual and ethical challenges that all colleges face today Delbanco considers what is at stake in the urgent effort to protect these venerable institutions for future generations

Secularism in Antebellum America John Lardas Modern, 2011-11-11 *Ghosts Railroads Sing Sing Sex machines* These are just a few of the phenomena that appear in John Lardas Modern's pioneering account of religion and society in nineteenth century America This book uncovers surprising connections between secular ideology and the rise of technologies that opened up new ways of being religious Exploring the eruptions of religion in New York's penny presses the budding fields of anthropology and phrenology and Moby Dick Modern challenges the strict separation between the religious and the secular that remains integral to discussions about religion today Modern frames his study around the dread wonder paranoia and manic confidence of being haunted arguing that experiences and explanations of enchantment fueled secularism's emergence The awareness of spectral

Imagining New York City Christoph Lindner, 2015 Using examples from architecture film literature and the visual arts Imagining New York City considers how and why certain city spaces the skyline the sidewalk the slum and the subway have come to emblemize key aspects of the modern urban condition **Andrew Jackson Davis** - John DeSalvo, 2006-06-01 The Life and Works of Andrew Jackson Davis Also read about Abraham Lincoln's involvement in Spiritualism and his prophetic dreams This book contains over 90 illustrations **Albion's Seed** David Hackett Fischer, 1991-03-14 This fascinating book is the first volume in a projected cultural history of the United States from the earliest English settlements to our own time It is a history of American folkways as they have changed through time and it argues a thesis about the importance for the United States of having been British in its cultural origins While most people in the United States today have no British ancestors they have assimilated regional cultures which were created by British colonists even while preserving ethnic identities at the same time In this sense nearly all Americans are Albion's Seed no matter what their ethnicity may be The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988 and still help to shape attitudes toward education government gender and violence on which differences between American regions are greater than between European nations *The Magic Staff* Andrew Jackson Davis, Samuel Osgood, 2013-12 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book
