Gabriel Weimann, Abraham Kaplan, 2011-01-07 This book examines reason and unreason in the legal and political responses to terrorism. Terrorism is often perceived as sheer madness, unreasonable use of extreme violence and senseless futile political action. These assertions are challenged by this book. Combining traditional thought by Kaplan on reason and unreason in terrorism with empirical explorations of post modern terrorism and its use of communication platforms by Weimann, the work uses interdisciplinary and cross disciplinary dimensions to provide a multidimensional picture of critical issues in current politics and a deeper examination of their implications than previously available. The book looks at various aspects of modern politics from terrorism to protest from decision making to political discourse applying the perspective of philosophical thought. To do so, political issues and actions are examined by using concepts such as reason, emotions, madness, magic, morality, absolutism, extremism, psychopathology, rationality and others. The analysis is rooted in theories and concepts derived from history, philosophy, religion, art, sociology, psychology and political science. This book, which was mostly written by the late Abraham Kaplan, an American philosopher and edited and updated by Gabriel Weimann, will be of much interest to students of political violence, terrorism, philosophy, war and conflict studies and political science in general. **Earthquake**

Terror Peg Kehret, 1998-05-01 When Jonathan and his family go camping on Magpie Island, they look forward to a fun, relaxing weekend. But their fun quickly vanishes when Jonathan, his sister Abby and their dog Moose find themselves in the middle of a natural disaster. A devastating earthquake has hit, destroying their camper, knocking out the only bridge to the mainland and leaving Jonathan, Abby and their dog with no food, water or shelter. Alone in the woods, can Jonathan manage to keep calm and save Abby and Moose and stay alive himself? *Portable Grindhouse* Jacques Boyreau, 2009 A tribute to the design art of early VHS movie box covers, features reproductions of some of the format's most decadent, minimalist and depraved examples in a visual tour that is complemented by a history of the VHS format. Visual Culture Chris Jenks, 2017-07-05 In *Visual Culture*, the visual character of contemporary culture is explored in original and lively essays. The contributors look at advertising, film, painting and fine art, journalism, photography, television and propaganda. They argue that there is only a social, not a formal, relation between vision and truth. A major preoccupation of modernity and central to an understanding of the postmodern, vision and the visual are emergent themes across sociology, cultural studies and critical theory in the visual arts. *Visual Culture* will prove an indispensable guide to the field. *Spinegrinder* Clive

Davies, 2015-03-06 First came video and more recently high definition home entertainment through to the internet with its streaming videos and not strictly legal peer to peer capabilities. With so many sources available today, a fan of horror and exploitation movies isn't necessarily educated on paths well trodden. Universal classics, 1950s monster movies, Hammer as once they were. In fact, anyone with a bit of technical savvy quickly becoming second nature for the born clicking generation may be viewing *MYSTICS IN BALI* and *S S EXPERIMENT*.

Magic Flutes and Enchanted Forests David J. Buch,2009-08-01 Drawing on hundreds of operas singspiels ballets and plays with supernatural themes Magic Flutes and Enchanted Forests argues that the tension between fantasy and Enlightenment era rationality shaped some of the most important works of eighteenth century musical theater and profoundly influenced how audiences and critics responded to them David J Buch reveals that despite and perhaps even because of their fundamental irrationality fantastic and exotic themes acquired extraordinary force and popularity during the period pervading theatrical works with music in the French German and Italian mainstream Considering prominent compositions by Gluck Rameau and Haydn as well as many seminal contributions by lesser known artists Buch locates the origins of these magical elements in such historical sources as ancient mythology European fairy tales the Arabian Nights and the occult He concludes with a brilliant excavation of the supernatural roots of Mozart s The Magic Flute and Don Giovanni building a new foundation for our understanding of the magical themes that proliferated in Mozart s wake

Thresholds of Western Culture John Burt Foster, Jr.,Wayne Froman,2003-01-01 Thresholds of Western Culture explores identity postcoloniality and transnationalism three closely related issues which redefine contemporary cultural identity The book opens with an analysis of subjectivity and the cultural meltdown that accompanied fascism in the West The situation in Africa is then explored which while recalling modernity s dark side highlights the intricacy of postcolonial identity Post Soviet Eastern Europe presents a separate case of neglected postcoloniality which emphasizes how ethnocentrism and cultural tensions have exposed the fragility of transnationalism The book concludes with an examination of East Asia a region which offers transnational options potentially much more fruitful than Balkanization

Covino,1994-07-28 This book presents a selective introductory reading of key texts in the history of magic from antiquity forward in order to construct a suggestive conceptual framework for disrupting our conventional notions about rhetoric and literacy Offering an overarching pointed synthesis of the interpenetration of magic rhetoric and literacy William A Covino draws from theorists ranging from Plato and Cornelius Agrippa to Paulo Freire and Mary Daly and analyzes the different magics that operate in Renaissance occult philosophy and Romantic literature as well as in popular indicators of mass literacy such as The Oprah Winfrey Show and The National Enquirer Magic Rhetoric and Literacy distinguishes two kinds of magic rhetoric that continue to affect our psychological and cultural life today Generative magic rhetoric creates novel possibilities for action within a broad sympathetic universe of signs and symbols Arresting magic rhetoric attempts to induce automatistic behavior by inculcating rules and maxims that function like magic ritual formulas JUST SAY NO In this connection the literate individual is one who can interrogate arresting language and generate counter spells Evaporating Genres Gary K. Wolfe,2012-01-01 A series of provocative essays on how the fantastic genres evolve and grow In this wide ranging series of essays an award winning science fiction critic explores how the related genres of science fiction fantasy and horror evolve merge and finally evaporate into new and more dynamic forms Beginning with a discussion of how literary readers unlearned how to read the fantastic during the heyday of realistic fiction Gary K Wolfe goes on to show how the fantastic reasserted itself in popular genre literature and how these genres themselves grew increasingly unstable in terms of both narrative form and the worlds they portray More detailed discussions of how specific contemporary writers have promoted this evolution are followed by a final essay examining how the competing discourses have led toward an emerging synthesis of critical approaches and vocabularies The essays cover a vast range of authors and texts and include substantial discussions of very current fiction published within the last few years A Magic Still Dwells Kimberley C. Patton,Benjamin C. Ray,2023-09-01 The first thorough assessment of the field of comparative religion in forty years this groundbreaking

volume surmounts the seemingly intractable division between postmodern scholars who reject the comparative endeavor and those who affirm it. The contributors demonstrate that a broader vision of religion involving different scales of comparison for different purposes is both justifiable and necessary. *A Magic Still Dwells* brings together leading historians of religions from a wide range of backgrounds and vantage points and draws from traditions as diverse as Indo-European mythology, ancient Greek religion, Judaism, Buddhism, Ndembu ritual, and the spectrum of religions practiced in America. The contributors take seriously the postmodern critique, explain its impact on their work, uphold or reject various premises, and in several cases demonstrate new comparative approaches. Together, the essays represent a state-of-the-art assessment of current issues in the comparative study of religion.
