my mother and gleaned new lessons from them Through the eighteen essays in this book I recount how her food music and stories all the things that she birthed in her spacious sun dappled kitchen helped me cope with long distance grief and taught me to look at life with renewed hope I also present some special recipes straight from Amma s kitchen and a bunch of kitchen poems in her honour finding her in such things as the sizzling of spices the bubbling of flavourful broths or a melodious Raga swirled into my cup of coffee My wish is that this book will come to stand for all this and more a celebration of life and a quiet acceptance of death I hope that it will inspire and touch many those who are going through rough times or those who are simply living the ordinary life for often we forget that there s so much magic in it **The Magic And Science Of**

Consuming Space Michael K. Goodman, David Goodman, 2016-05-23 An examination of the relationship between space place and consumption offers important insights into some of the most powerful forces constructing contemporary societies Space and place are made and remade through consumption Yet how do cultures of consumption discover space and how do they construct place This book addresses these questions by exploring the implications of conceptualizing consumption as a spatial increasingly global yet intensely localized activity The work develops integrative approaches that articulate the processes involved in the production and consumption of space and place The result is a varied engaging and innovative study of consumption and its role in structuring contemporary capitalist political economies
