and hope In lively inventive prose she introduces us to whales so rare they have never been named she tells us of the astonishing variety found in whale sounds and of whale pop songs that sweep across hemispheres She takes us into the deeps to discover that one whale's death can spark a great flourishing of creatures We travel to Japan to board whaling ships examine the uncanny charisma of these magnificent mammals and confront the plastic pollution now pervading their underwater environment In the spirit of Rachel Carson and John Berger *Fathoms* is a work of profound insight and wonder It marks the arrival of an essential new voice in narrative nonfiction and provides us with a powerful surprising and compelling view of some of the most urgent issues of our time
