Mahler will be an essential resource for scholars and students of Mahler and late Romantic era music more generally and will also find an audience among the many devotees of Mahler's music **The Music Makers** Edward Elgar, Sir Edward William Elgar, 1912 **Interwar Vienna** Deborah Holmes, Lisa Silverman, 2009 Although beset by social, political and economic instabilities interwar Vienna was an exhilarating place with pioneering developments in the arts and innovations in the social sphere. Research on the period long saw the city as a mere shadow of its former imperial self; more recently it has concentrated on high profile individual figures or party politics. This volume of new essays widens the view, stretching disciplinary boundaries to consider the cultural and social movements that shaped the city. The collapse of the Austro-Hungarian Empire resulted not in an abandonment of the arts but rather led to new forms of expression that were nevertheless conditioned by the legacies of earlier periods. The city's culture was caught between extremes from neopositivism to cultural pessimism, Catholic mysticism to Austro-Marxism, late Enlightenment liberalism to rabid antisemitism. Concentrating on the paradoxes and often productive tensions that these created, the volume's twelve essays explore achievements and anxieties in fields ranging from modern dance, theater, music, film and literature to economic, cultural and racial policy. The volume will appeal to social, cultural and political historians as well as to specialists in modern European literary and visual culture. Contributors: Andrea Amort, Andrew Barker, Alys X. George, Deborah Holmes, Jon Hughes, Birgit Lang, Wolfgang Maderthaner, Therese Muxeneder, Birgit Peter, Lisa Silverman, Edward Timms, Robert Vilain, John Warren, Paul Weindling. Deborah Holmes is Researcher at the Ludwig Boltzmann Institute for the History and Theory of Biography in Vienna. Lisa Silverman is Assistant Professor of History and Jewish Studies at the University of Wisconsin-Milwaukee.

A number of themes organize major developments and emerging areas in autism. The book is essential for researchers and practitioners who require a state-of-the-art resource on autism.

**Carl Gustav Jung** J. Sherry, 2010-10-25 Carl Gustav Jung has always been a popular but never a fashionable thinker. His groundbreaking theories about dream interpretation and psychological types have often been overshadowed by allegations that he was anti-Semitic and a Nazi sympathizer. Most accounts have unfortunately been marred by factual errors and quotes taken out of context. This has been due to the often partisan sympathies of those who have written about him. This book provides a more accurate and comprehensive account of Jung's controversial opinions about art, politics and race.

**The Lost One** Stephen D. Youngkin, 2005-09-30 Often typecast as a menacing figure, Peter Lorre achieved Hollywood fame first as a featured player and later as a character actor, trademarking his screen performances with a delicately strung balance between good and evil. His portrayal of the child murderer in Fritz Lang's masterpiece *M* (1931) catapulted him to international fame. Lang said of Lorre: "He gave one of the best performances in film history and certainly the best in his life."

Today the Hungarian born actor is also recognized for his riveting performances in *The Man Who Knew Too Much* 1934 *The Maltese Falcon* 1941 and *Casablanca* 1942 Lorre arrived in America in 1934 expecting to shed his screen image as a villain. He even tried to lose his signature accent but Hollywood repeatedly cast him as an outsider who hinted at things better left unknown. Seeking greater control over his career Lorre established his own production company. His unofficial graylisting by the House Committee on Un American Activities however left him with little work. He returned to Germany where he co authored directed and starred in the film *Der Verlorene* *The Lost One* in 1951. German audiences rejected Lorre's dark vision of their recent past and the actor returned to America wearily accepting roles that parodied his sinister movie personality. The first biography of this major actor *The Lost One A Life of Peter Lorre* draws upon more than three hundred interviews including conversations with directors Fritz Lang Alfred Hitchcock Billy Wilder John Huston Frank Capra and Rouben Mamoulian who speak candidly about Lorre both the man and the actor. Author Stephen D Youngkin examines for the first time Lorre's pivotal relationship with German dramatist Bertolt Brecht his experience as an migr from Hitler's Germany his battle with drug addiction and his struggle with the choice between celebrity and intellectual respectability. Separating the enigmatic person from the persona long associated with one of classic Hollywood's most recognizable faces *The Lost One* is the definitive account of a life triumphant and yet tragically riddled with many failed possibilities *Kodály, the Composer* István Kecskeméti,1986 **The Autobiography of J.L. Moreno** Jacob L. Moreno,2011-08-22 J L Moreno wrote books chapters and articles about psychodrama. His writing like the method he pioneered is rich and complex. Many students practitioners and participants around the world have encountered Moreno's work in action however fewer people may have had the opportunity to read and think about the words of the father due to the limited availability of key texts. A desire to ensure Moreno's work is available to the widest possible audience inspired members of the North West Psychodrama Association to work together to re publish the books in this series. We hope by doing so J L Moreno's words will continue to reverberate across time and space inspiring new generations of practitioners to be as creative and spontaneous as is possible whilst managing the complexity of modern day practice *Impromptu Man* Jonathan D. Moreno,2014 The untold story of the creative genius behind major 20th century movements in therapy and theater and his lasting influence

**Understanding the Brain: The Birth of a Learning Science** OECD,2007-06-12 This book provides new insights about learning by synthesising existing and emerging findings from cognitive and brain science **Beyond the Information Given** Jerome Seymour Bruner,1980
