Budapest Review of Books ,1995 **Encyclopaedia Hungarica** Peter G. Glockner,2007 **Magyar nemzeti bibliográfia** ,2000 **Matthias Rex** András Kubinyi,2008 **Magyarország** Korniss Péter (fotóműv.),1996 **Hungary** Péter Korniss,1998 **The New Landlord** Mór Jókai,1868 *Attachment, 1967-2008* Péter Korniss,2008 Forty years of images of peasant life from Hungary s most renowned documentary photographer *Advice to a Daughter* George Savile Marquis of Halifax,1688 **Geographical Development of European Languages** Grover S. Krantz,1988 This work presents a natural approach to reconstructing the geography of prehistoric languages in Europe Ethnic movements are described as predictable results of just a few cultural innovations such as the origin of agriculture empire building and the mold board plow all fitted to the changing environment All recent European language distributions are shown to follow automatically from these describable causes and no historical events or personalities need to be invoked to explain any of them *The Modern Devotion* Regnerus Richardus Post,1968 *The Death of the Child Valerio Marcello* Margaret L. King,2009-05-15 Margaret King shows what the death of a little boy named Valerio Marcello over five hundred years ago can tell us about his time This child scion of a family of power and privilege at Venice s time of greatness left his father in a state of despair so profound and so public that it occasioned an outpouring of consoling letters orations treatises and poems In these documents we find a firsthand account richly colored by humanist conventions and expectations of the life of the fifteenth century boy the passionate devotion of his father the feelings of his brothers and sisters the striking absence of his mother The father s story is here as well the career of a Venetian nobleman and scholar patron and soldier a participant in Venice s struggle for dominion in the north of Italy Through these sources also King traces the cultural trends that made Marcello s century famous Her work enlarges our view of the literature of consolation which had a distinctive tradition in Venice and shifting attitudes toward death from the late Middle Ages onward For the depth and acuity of its insights into political cultural and private life in fifteenth century Venice this book will be essential reading for students of the Renaissance For the grace and drama of its storytelling it will be savored by anyone who wishes to look into life and death in a palace and a city long ago *Byzantine Military Organization on the Danube, 10th-12th Centuries* Alexandru Madgearu,2013-06-13 The current state of research on this contact area between Byzantium and East Central Europe during a troubled period invites a new synthesis of the most recent finds and interpretations No such comprehensive work addressing both literary and archaeological evidence exists for the history of the Byzantine Danubian provinces in the 10th 12th c The main purpose Alexandru Madgearu s book is to establish a chronology for the provincial organization and for the development of the Danubian frontier First a shield against the Rus the province of Dristra later called Paradunavon became further a contact and conflict area with the Pechenegs and Cumans turned by the end of the 11th century in a half open space according to the new strategy of Alexius I Comnenus *In the Benedictine Tradition* M. The Imported State Bertrand Badie,2000 This book traces the rise of the modern state in post Enlightenment Europe and its spread to the remainder of the world especially colonial and postcolonial societies It shows how non Western cultures invented their own practices of the state thereby transforming the original model

The Expansion of Central Europe in the Middle Ages Nora Berend,2017-05-15 This volume brings together a set of key studies on the history of medieval Central Europe Bohemia Hungary Poland along with others specially commissioned for the book or translated and a new introduction This region was both an area of immigration and one of politics in expansion Such expansion included the settlement and exploitation of previously empty lands as well as rulers attempts to incorporate new territories under their rule although these attempts did not always succeed Often German immigration has been prioritized in scholarship and the medieval expansion of Central Europe has been equated with the expansion of Germans Debates then focused on the positive or negative contribution of Germans to local life and the consequences of their settlement This perspective however distorts our understanding of medieval processes On the one hand Central Europe was not a passive recipient of immigrants Local rulers and eventually nobles benefited from and encouraged immigration they played an active role On the other hand German immigration was not a unified movement and cannot be equated with a drang nach osten Finally not just Germans but also various Romance speaking and other immigrant groups settled in Central Europe This volume therefore seeks to present a more complex picture of medieval expansion in Central Europe

Women and Religion in Medieval and Renaissance Italy Daniel Bornstein,Roberto Rusconi,1996-07-15 Between the twelfth and the sixteenth centuries women assumed public roles of unprecedented prominence in Italian religious culture Legally subordinated politically excluded socially limited and ideologically disdained women s active participation in religious life offered them access to power in all its forms These essays explore the involvement of women in religious life throughout northern and central Italy and trace the evolution of communities of pious women as they tried to achieve their devotional goals despite the strictures of the ecclesiastical hierarchy The contributors examine relations between holy women their devout followers and society at large Including contributions from leading figures in a new generation of Italian historians of religion this book shows how women were able to carve out broad areas of influence by carefully exploiting the institutional church and by astutely manipulating religious percepts

Beloved Children Katalin Péter,2001 First published in Hungarian in 1996 this study of childhood during the 16th and 17th centuries draws on family papers and other sources to illustrate family life among Hungary s aristocracy It covers topics including birth care family intimacy maternal and paternal attitudes orphanhood and death two case studies focus on
