**In Defence of Fantasy** Ann Swinfen, 2019-10-01 The modern fantasy novel might hardly seem to need a defence but its position in contemporary literature in the 1980s was still rather ambivalent Many post war writers had produced highly successful fantasy novels some phenomenal publishing successes had occurred in the field and an increasing number of universities throughout the English speaking world now included the literary criticism of fantasy as part of their English Literature courses None the less some critics and academics condemned the whole genre with a passion that seemed less than objectively critical In this book originally published in 1984 Dr Ann Swinfen presents a wide ranging and comprehensive view of fantasy what it is what it tries to achieve what fundamental differences distinguish it from mainstream realist fiction She concentrates on the three decades from 1945 when a new generation of writers found that Tolkien had made fantasy respectable Her approach is thematic rather than by individual author and she brings out the profound moral purpose that underlies much modern fantasy in a wide range of works both British and American such as Russell Hoban's *The Mouse and His Child* C S Lewis's *Chronicles of Narnia* and Ursula Le Guin's *Earthsea Trilogy* **Only Connect** Sheila A. knowledge and experience remain hidden in apparently simple and innocent texts Nodelman then engages a wide range of views of children's literature from authors literary critics cultural theorists and specialists in education and information sciences Through this informed dialogue Nodelman develops a comprehensive theory of children's literature exploring its commonalities and shared themes *The Hidden Adult* is a focused and sophisticated analysis of children's literature and a major contribution to the theory and criticism of the genre
