Backhouse,1999-11-20 Historically Canadians have considered themselves to be more or less free of racial prejudice Although this conception has been challenged in recent years it has not been completely dispelled In Colour Coded Constance Backhouse illustrates the tenacious hold that white supremacy had on our legal system in the first half of this century and underscores the damaging legacy of inequality that continues today Backhouse presents detailed narratives of six court cases each giving evidence of blatant racism created and enforced through law The cases focus on Aboriginal Inuit Chinese Canadian and African Canadian individuals taking us from the criminal prosecution of traditional Aboriginal dance to the trial of members of the Ku Klux Klan of Kanada From thousands of possibilities Backhouse has selected studies that constitute central moments in the legal history of race in Canada Her selection also considers a wide range of legal forums including administrative rulings by municipal councils criminal trials before police magistrates and criminal and civil cases heard by the highest courts in the provinces and by the Supreme Court of Canada The extensive and detailed documentation

presented here leaves no doubt that the Canadian legal system played a dominant role in creating and preserving racial discrimination. A central message of this book is that racism is deeply embedded in Canadian history despite Canada's reputation as a raceless society. Winner of the Joseph Brant Award presented by the Ontario Historical Society. **Walking Through Walls** Philip Smith, 2008-09-16 Running with Scissors meets Bewitched in this irresistible memoir as Philip Smith describes growing up in 1960s Miami with his decorator father who one day discovers he has the miraculous power to talk to the dead and heal the sick. After a full day of creating beautiful interiors for the rich and famous, Lew Smith would come home, take off his tie and get down to his real work as a psychic healer who miraculously cured thousands of people. For his son Philip, watching his father transform himself at a moment's notice from gracious society decorator into a healer with supernatural powers was a bit like living with Clark Kent and Superman. **Walking Through Walls** is Philip Smith's astonishing memoir of growing up in a household where séances, talking spirits and exorcisms were daily occurrences and inexplicable psychic healings resulted in visitors suddenly discarding their crutches and wheelchairs or being cured of fatal diseases. While there are benefits to having a miracle man in the house, Philip soon discovers the downside of living with a father who psychically knows everything he is doing. Surrounded by invisible spirits who tend to behave like nagging relatives, Philip looks for ways to escape his mystical home life, including forays into sex surfing and even Scientology. By turns hilarious and profound, **Walking Through Walls** recounts Philip Smith's often bizarre but always magical coming of age in a household that felt like a cross between Lourdes and the set of *Rosemary's Baby* and shows how he managed to map out his own identity in the shadow of a father who truly loomed larger than life itself. **Ulysses**, **Sexing the Body** Anne Fausto-Sterling, 2020-06-30 Now updated with groundbreaking research, this award-winning classic examines the construction of sexual identity in biology, society and history. Why do some people prefer heterosexual love while others fancy the same sex? Is sexual identity biologically determined or a product of convention? In this brilliant and provocative book, the acclaimed author of *Myths of Gender* argues that even the most fundamental knowledge about sex is shaped by the culture in which scientific knowledge is produced. Drawing on astonishing real-life cases and a probing analysis of centuries of scientific research, Fausto-Sterling demonstrates how scientists have historically politicized the body. In lively and impassioned prose, she breaks down three key dualisms: sex/gender, nature/nurture, and real/constructed, and asserts that individuals born as mixtures of male and female exist as one of five natural human variants and as such should not be forced to compromise their differences to fit a flawed societal definition of normality.
