**A New View of London** Edward Hatton,1708      *A New View of London* Edward Halton,1708      **Mogg's Street Directory; being an entirely new and correct list of all the streets, squares, lanes, courts, and allies, in London ... To which is added an entire new plan of London and Westminster. By Edward Mogg ,1810**      *Bowles's New London Guide, etc* Carington BOWLES,1786      **Weaving and Binding** Michael Como,2009-09-02 Among the most exciting developments in the study of Japanese religion over the past two decades has been the discovery of tens of thousands of ritual vessels implements and scapegoat dolls hitogata from the Nara 710 784 and early Heian 794 1185 periods Because inscriptions on many of the items are clearly derived from Chinese rites of spirit pacification it is now evident that previous scholarship has mischaracterized the role of Buddhism in early Japanese religion Weaving and Binding makes a compelling argument that both the Japanese royal system and the Japanese Buddhist tradition owe much to continental rituals centered on the manipulation of yin and yang animal sacrifice and spirit quelling Building on these recent archaeological discoveries Michael Como charts an epochal transformation in the religious culture of the Japanese islands tracing the transmission and development of fundamental paradigms of religious practice to immigrant lineages and deities from the Korean peninsula In addition to archaeological materials Como makes extensive use of a wide range of textual sources from across Asia including court chronicles poetry collections gazetteers temple records and divinatory texts As he investigates the influence of myths legends and rites of the ancient Chinese festival calendar on religious practice across the Japanese islands Como shows how the ability of immigrant lineages to propitiate hostile deities led to the creation of elaborate networks of temple shrine complexes that shaped later sectarian Shinto as well as popular understandings of the relationship between the buddhas and the gods of Japan For much of the book this process is examined through rites and legends from the Chinese calendar that were related to weaving sericulture and medicine technologies that to a large degree were controlled by lineages with roots in the Korean peninsula and that claimed female deities and weaving maidens as founding ancestors Como s examination of a series of ancient Japanese legends of female immortals weaving maidens and shamanesses reveals that female deities played a key role in the moving of technologies and ritual practices from peripheral regions in Kyushu and elsewhere into central Japan and the heart of the imperial cult As a result some of the most important building blocks of the purportedly native Shinto tradition were to a remarkable degree shaped by the ancestral cults of immigrant lineages and popular Korean and Chinese religious practices This is a provocative and innovative work that upsets the standard interpretation of early historical religion in Japan revealing a complex picture of continental cultic practice both at court and in the countryside

Gentleman's and Citizen's Almanack ,1842      **From the Colonial to the Contemporary** Rahela Khorakiwala,2020-01-09 *From the Colonial to the Contemporary* explores the representation of law images and justice in the first three colonial high courts of India at Calcutta Bombay and Madras It is based upon ethnographic research work and

data collected from interviews with judges lawyers court staff press reporters and other persons associated with the courts Observing the courts through the in vivo in trial and practice the book asks questions at different registers including the impact of the architecture of the courts the contestation around the renaming of the high courts the debate over the use of English versus regional languages forms of addressing the court the dress worn by different court actors rules on photography video recording live telecasting of court proceedings use of CCTV cameras and the alternatives to courtroom sketching and the ceremony and ritual that exists in daily court proceedings The three colonial high courts studied in this book share a recurring historical tension between the Indian and British notions of justice This tension is apparent in the semiotics of the legal spaces of these courts and is transmitted through oral history as narrated by those interviewed The contemporary understandings of these court personnel are therefore seen to have deep historical roots In this context the architecture and judicial iconography of the high courts helps to constitute preserve and reinforce the ambivalent relationship that the court shares with its own contested image A Dictionary of London Henry Andrade Harben,1918
