Romantic Norths Cian Duffy, 2017-06-27 This book explores various forms of cultural influence and exchange between Britain and the Nordic countries in the late eighteenth century and romantic period

Broadly new historicist in approach but drawing also on influential descriptions of genre discipline mediation cultural exchange and comparative methodologies these essays not only constitute a substantial and innovative contribution to scholarly understanding of the development of romanticisms and romantic nationalisms in Britain and the Nordic countries but also describe a pattern of cultural encounter which was predicated upon exchange and a sense of commonality rather than upon the perception of difference or alterity which has so often been discerned by critical descriptions of British romantic period engagements with non British cultures

The volume ought to appeal to a broad and genuinely international academic audience with interests in eighteenth century and romantic period culture in Britain and Scandinavia as well as to undergraduates taking courses in eighteenth century romantic and Scandinavian studies
