**Aggregate Demand and Employment** Brian K. MacLean, Hassan Bougrine, Louis-Philippe Rochon, 2020-03-28 With an emphasis on developments during and after the Great Recession and paying due attention to the impacts of austerity policies the chapters assembled for this book explain that high growth of aggregate demand is as essential as ever for achieving full employment and rising living standards Written by distinguished Keynesian and Post Keynesian economists from diverse national backgrounds the book tackles critical theoretical and empirical issues to illuminate the economic experiences both of large geographic regions such as Europe Latin America and Africa as well as specific national economies including the USA Japan India and Canada

**God-Conscious Organization and the Islamic Social Economy** Masudul Alam Choudhury, 2016-08-05 Can there be God conscious organizational behaviour in the real world of today's capitalist corporations and the alternatives In this overview of God consciousness as a moral awareness model of preference formation functions structures and programs of organization within the purview of institutions and society the authors explain and compare the major ethical issues of organizational behaviour and structure in Islamic economic theory and application By analysing the nature of inclusive

organizations and institutions and the ethical preferences in Islamic choice framework the authors from Saudi Arabia Australia Malaysia Bangladesh Canada Indonesia and the UK can highlight individual aspects to show whether capitalist organizational behaviour is sustainable They describe how The Tawhidi epistemological framework governing conscious moral decision making by institutions and organization are used to establish the meaning and potential application of the concept of sustainability and whether organizational moral objectives achieve their goals of life fulfilment development Poverty alleviation and the equitable distribution of wealth and resources      **Heterodox Islamic Economics** Masudul Alam Choudhury,Ishaq Bhatti,2016-07-28 The fields of morality and ethics have been left out significantly from socio scientific study in general and in economics and finance in particular Yet this book argues that in this age of post modernist analytical inquiry the study of morality and ethics is an epistemological requirement This book illustrates the delimiting nature of mainstream economic reasoning in treating morality and ethics and highlights the potential contribution of analytical monotheism as typified by the Islamic concept of Tahwid The principal purpose of this book is to undertake an introductory exploration of the critical area of comparative economic thought in order to place the nature and emergence of ethico economic theory in its proper context It is ultimately argued that such a post orthodoxy revolutionary methodological worldview can be presented by Islamic political economy Islamic economics and finance      **Driving Innovation and Business Success in the Digital Economy** Oncioiu, Ionica,2016-12-12 Advancements in the digital world are bringing about rapid waves of change in organizational management As such it is increasingly imperative to discover ways for businesses to adapt to changes in the markets and seize various digital market opportunities Driving Innovation and Business Success in the Digital Economy is an essential reference source for the latest research on the impact of digital computing and emerging technological innovations in the realm of business success Featuring extensive coverage across a range of relevant perspectives and topics such as IT outsourcing sustainable development and online advertising this publication is ideally designed for researchers professionals and students seeking current research on the complex scope of the new economy

Growth and Economic Development P. Arestis,A. P. Thirlwall,2007-01-01 this volume is a very good and important addition to economic growth and development On the basis of authority the selection is well balanced This book should be a mandatory textbook for graduate students in development economics and essential reading for all policy makers Voxi Heinrich Amavilah Progress in Development Studies This valuable and engaging new book bears eloquent testimony to A P Thirlwall s substantial contribution to economics over the last 40 years The volume does not attempt to provide a comprehensive review of such a prolific figure but rather demonstrates the considerable influence that his work on economic theory has had on his contemporaries and the profession as a whole From his early pioneering research in regional and labour economics to his more recent exploration of growth and development economics leading experts in the field bear witness to the significant role he has played in the evolution of the discipline In addressing some of the most pivotal aspects

of his career the contributors cover a range of topics including Thirlwall's Law the application of Keynesian macroeconomic approaches the General Theory within open economies the connection between short run cycles and long run growth endogenous growth theory the Stability and Growth Pact as well as broader development issues and problems In championing Thirlwall's challenging work this volume provides a lively and comprehensive account of some of the most important areas of economics today This book will prove an essential read for academics and policy makers alike who are interested in trade growth and development economics      *The Manufacturing Sector in Argentina, Brazil, and Mexico* Juan Eduardo Santarcángelo, 2019-01-25 Using a heterodox perspective this book discusses the real possibilities of Argentina Brazil and Mexico ever achieving economic development through industrialization Through their discussion of the three most industrialized countries of Latin America the contributors compare trajectories and critically analyze the transformations challenges and development prospects of the sector at the beginning of the 21st Century Focusing on the historical evolution of each country's industrial sector as well as their productivity structural transformation and degree of external dependence and international integration this book will appeal to those researching the political economy economic history industrial organization and economic development in Latin America      **Monopoly Capitalism in Crisis** B. Lucarelli, 2004-03-09 The world economy is on the brink of a profound crisis The threat of global deflation and the emergence of chronic excess global capacity characterizes the contemporary phase of crisis and stagnation Lucarelli argues that these pathological features of globalization acquire a remorseless logic during the mature stages of monopoly capitalism He explores the historical origins and theoretical tendencies of this protracted crisis from a Keynes Kakecki perspective      *The Oxford Handbook of Post-Keynesian Economics, Volume 2* G. C. Harcourt, Peter Kriesler, 2013-08-16 This two volume Handbook contains chapters on the main areas to which Post Keynesians have made sustained and important contributions These include theories of accumulation distribution pricing money and finance international trade and capital flows the environment methodological issues criticism of mainstream economics and Post Keynesian policies The Introduction outlines what is in the two volumes in the process placing Post Keynesian procedures and contributions in appropriate contexts      Islamic Financial Economy and Islamic Banking Masudul Alam Choudhury, 2016-06-10 Islamic Financial Economy and Islamic Banking is a thorough deeply conceptual analytical and applied work in the area of epistemological foundation of Islamic world system The book presents a new frontier of original contribution to the theme of generalized system model of shari'ah The model derived from the Qur'an and Sunnah Prophetic guidance incorporates a wide analytical coverage of the purpose and objective of the Islamic worldview maqasid as shari'ah in Islamic economics and finance in particular The author covers issues that contrast with the existing understanding of Islamic economics and finance including some specific goals defining the field and how they compare in today's unstable world of financial volatility A new heterodox thinking in economic theory is outlined The potential as to how such issues can be addressed by the Tawhidi epistemology in formulating the generalized system model

of the purpose and objective of shari ah lead the way in this book Its presentation and analysis methods and approach overarch the fields of philosophy of science rigorous analysis mathematical and other presentations of the understanding given and all taken up in the light of the exegesis of the Qur an and coverage of the Sunnah The result is a substantive one in the field of scholarship and application and in analytically proving the universality and uniqueness of the epistemic worldview for the academic and practitioner world at large The totality of the multiverse diversity of issues and problems reviewed comprise the study of the world system by the Tawhidi methodological approach Yet this methodology and its empirical configuration are universally applicable to all users without any need for unnecessary religious overtone     *Strategizing, Disequilibrium, and Profit* John Alwyn Mathews,2006 This book outlines a conceptual framework within which strategizing by firms takes place in the same conditions of turbulence that are found in the real economy The framework accommodates strategizing around issues of innovation networks formation entrepreneurship extension of value chains and other phenomena that do not fit easily into conventional equilibrium based settings     *Equilibrium and Evolution* N. Hart,2011-12-12 Alfred Marshall has traditionally been listed alongside pioneering neoclassical economists In this volume Neil Hart challenges this view illuminating the ambiguities within Marshall s work and exploring his reconciliation of two modes of thinking equilibrium economics and evolutionary economics     Human Progress Amid Resistance to Change Joseph E. Pluta,2011-04 In building their profession around carefully selected interpretations of the work of Adam Smith Alfred Marshall and others mainstream economists have embraced such concepts as the invisible hand equilibrium consumer rationality the marginal productivity theory the inevitability of diminishing returns and the fiction of pure competition In contrast the evolutionary economics of Thorstein Veblen and Clarence Ayres challenges all of these concept as unproven and capable of telling us little or nothing about the actual operation of the economy Using the evolutionary framework *Human Progress Amid Resistance to Change* argues that all cultures since prehistory have faced two opposing forces technology including human knowledge and institutions rooted in ceremonialism The former is dynamic forward looking accepting of change cumulative one discovery builds on another and the major cause of human progress The latter is static and consists of all customs traditions superstitions rituals ceremonies taboos and past binding religious beliefs that resist change The book illustrates in detail how these competing forces have interacted throughout the history of the human race and how mainstream economics fails to grasp the significance of their combined effects     Absolute Reality in the Qur'an Masudul Alam Choudhury,2016-09-14 This book studies the absolute reality of the Qur an which is signified by the struggle of truth against falsehood in the framework of monotheistic unity of knowledge and the unified world system induced by the consilience of knowledge In such a framework the absolute reality reveals itself not by religious dogmatism Rather the methodology precisely comprises its distinctive parts These are namely the primal ontology as the foundational explained axiom of monotheistic unity the secondary ontologies as explanatory replications of the law of unity in the particulars of the

world system epistemology as the operational model and phenomenology as the structural nature of events induced by the monotheistic law that is by knowledge emanating from the law The imminent methodology remains the unique explanatory reference of all events that take place advance and change in continuity across continuums of knowledge space and time

*Agile Actors on Complex Terrains* Graham Room,2016-06-17 This book assesses the value and relevance of the literature on complex systems to policy making contributing to both social theory and policy analysis For this purpose it develops two key ideas agile action and transformative realism The book takes some major themes from complexity science presents them in a clear and accessible manner and applies them to core problems in sociological theory and policy analysis Combining complexity science with perspectives from institutionalism and political economy this book is the first to integrate these fields conceptually methodologically and in terms of the implications for policy analysis and practice Room shows how the models and methods of social and complexity science can be jointly deployed and applied to empirical areas of public policy He demonstrates how complexity science can provide insight into the nonlinear dynamics of the social world but why these need to be understood by reference to the unequal distribution of power and advantage Among the sociological debates with which the book engages are those concerned with causation and explanation rational action and positional competition and the place of evolutionary concepts in accounts of social change Among the policy debates are those concerned with evidence and policy the dynamics of inequality and libertarian paternalism The book will appeal to final year undergraduates and postgraduate students in social sciences scholars in social and policy studies broadly defined policy makers who want to go beyond conventional discussions of evidence based policy making and cross national lesson drawing and consider how to approach complex and turbulent policy terrains and a wider range of scholars in other disciplines where complexity science is already well developed

Islamic Economics Taha Eğri,Necmettin Kizilkaya,2015-06-18 Studies conducted in the field of Islamic economics lose their relevance over time Works examining Islamic economics since the 1970s have been co opted by the existing economic system and have become limited to a large extent as they are now only concerned with financial transactions In fact Islamic economics as a concept should actually be conceptualized as an alternative economic system However because of the financial and commercial transactions implemented in daily economic life

**Jewish-Muslim Relations and Migration from Yemen to Palestine in the Late Nineteenth and Twentieth Centuries** Ari

Ariel,2013-12-05 In *Jewish Muslim Relations and Migration from Yemen to Palestine in the Late Nineteenth and Twentieth Centuries* Ari Ariel analyzes the impact of local regional and international events on ethnic and religious relations in Yemen and Yemeni Jewish migration patterns Previous research has dealt with single episodes of Yemenite migration during limited spans of time Ariel instead provides a broad sweep of the migratory flows over the 70 year time span during which most of Yemen s Jews moved to Palestine and then Israel He successfully avoids the polemic nature of much of the literature on Middle Eastern Jewry by focusing on the social economic and political transformations that provoked and then sustained this

migration
