the country which sweeping away the classic forms and conventions produces a Naturalism dominating the whole of literature which from Naturalism leads to Radicalism from revolt against traditional convention in literature to vigorous rebellion against religious and political reaction and which bears in its bosom the germs of all the liberal ideas and emancipatory achievements of the later periods of European civilisation The literary period which I now proceed to describe is a vigorous highly productive one It has authors and schools of the most dissimilar types sometimes not merely unlike but antagonistic to each other Though the connection between these authors and schools is not self evident but only discernible to the understanding critical eye yet the period has its unity and the picture it presents though a many coloured restless one is a coherent composition the work of the great artist history About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
