Board of Education,1926 **Circular - Educational Research Service** Educational Research Service (Arlington, Va.),1925 **Lights Out at Northern** Perry Munson,2010-08-11 The opening of the story vividly follows the author s relocation to Detroit Michigan from Seattle Washington Munson crosses the plains in his Volvo pulling his sailboat to his new home in Grosse Pointe Michigan He a teacher is moving there because his wife a pathologist has found a new job at Detroit Medical

Center As he drives he reflects on the land he crosses and the experiences he had in school in rural South Dakota and how it shaped his outlook As he drives he has great doubts about moving to Michigan and questions his future there Yet he is on the road with no way to turn back Finally he arrives in Detroit entering the rustbelt city that looks like a new planet to him poverty stricken destroyed and hopeless The scene shifts to his experiences while moving in and getting settled and the adjustments he has to make to live in a large crime ridden Midwestern city After a discouraging job hunt he is suddenly employed by Detroit Public Schools as a chemistry teacher and enters the classroom The experience is so incredibly different than anything else that he has previously seen in education that he decides to start keeping a diary of relevant day to day activities Months lead to years and he describes the dynamics of teaching in a inner city school Corruption abysmal administrative incompetence and even great but not to numerous educational triumphs go down in print His journal is that of an observer from the outside looking in The diary becomes the stream of consciousness of a hard working dedicated teacher who is tormented by what he sees and cannot change There are successes but the climb is constantly uphill due to administrative bungling a pathetic lack of supplies and low expectations placed on students by the system As the years go by the school is engifted with a huge grant from the Kellogg Foundation It is supposed to reform the school and result in a turn around that never happens Funds disappear not very much appears in the classrooms and nobody seems to notice any appreciable difference in the quality of education After all is spent there is only disillusionment and anger in the school over the project A new principal takes over and the school further declines into violence and chaos Yet through all of this Munson finds that education can and does take place in his classroom if he works hard with what he has available and does the best he can under the worsening circumstances In the end his main positive experience is the students themselves those who could be changed and enabled After thirteen years in Northern High School the environment becomes so violent dangerous and hopeless that Munson seriously contemplates transferring out to another school In this last year he describes a crumbling lawless school so vividly that you can smell the smoke from the fires and hear the screams of students beating and being beaten August 2004 finds Munson in Finney High School just a bit over a mile from his home He finds more of the same there but the commute is at least short He surprisingly teaches quite successfully there for three years and then on June 22 2007 he retires from thirty years of public school teaching On that very same day Northern High closes its doors due to lack of enrollment At the end of the day the lights were turned out
