Canadian Economic Observer. Statistical Summary ,2002-07      *The Finance and Growth Nexus Re-Examined* Mr.Adolfo Barajas,Mr.Ralph Chami,Mr.Reza Yousefi,2013-05-29 A large theoretical and empirical literature has focused on the impact of financial deepening on economic growth throughout the world This paper contributes to the literature by investigating whether this impact differs across regions income levels and types of economy Using a rich dataset for 150 countries for the period 1975 2005 dynamic panel estimation results suggest that the beneficial effect of financial deepening on economic growth in fact displays measurable heterogeneity it is generally smaller in oil exporting countries in certain regions such as the Middle East and North Africa MENA and in lower income countries Further analysis suggests that these differences might be driven by regulatory supervisory characteristics and related to differences in the ability to provide widespread access to financial services      **Bibliografijos žinios** ,2002      **Reducing Inequalities** Rémi Genevey,R. K. Pachauri,Laurence Tubiana,2013-01-01 The reduction of inequalities within and between countries stands as a policy goal and deserves to take centre stage in the design of the Sustainable Development Goals agreed during the Rio 20 Summit in 2012 The 2013 edition of A Planet for Life represents a unique international initiative grounded on conceptual and strategic thinking and most importantly empirical experiments conducted on five continents and touching on multiple realities This unprecedented collection of works proposes a solid empirical approach rather than an ideological one to inform future debate The case studies collected in this volume demonstrate the complexity of the new systems required to accommodate each country s specific economic political and cultural realities These systems combine technical financial legal fiscal and organizational elements with a great deal of applied expertise and are articulated within a clear well understood growth and job generating development strategy Inequality reduction does not occur by decree neither does it automatically arise through economic growth nor through policies that equalize incomes downward via ill conceived fiscal policies Inequality reduction involves a collaborative effort that must motivate all concerned parties one that constitutes a genuine political and social innovation and one that often runs counter to prevailing political and economic forces      **The Cost of Environmental Degradation** Lelia Croitoru,Maria Sarraf,2010 This book brings together the best case studies of valuing the Cost of Environmental Degradation in several Middle East and North African countries and summarizes their impacts at the country and regional levels      **Serviços Bibliográficos da Livraria Portugal** Livraria Portugal.
