**The Themes of Quine's Philosophy** Edward Becker, 2012-06-28 Willard Van Orman Quine's work revolutionized the fields of epistemology semantics and ontology At the heart of his philosophy are several interconnected doctrines his rejection of conventionalism and of the linguistic doctrine of logical and mathematical truth his rejection of the analytic synthetic distinction his thesis of the indeterminacy of translation and his thesis of the inscrutability of reference In this book Edward Becker sets out to interpret and explain these doctrines He offers detailed analyses of the relevant texts discusses Quine's views on meaning reference and knowledge and shows how Quine's views developed over the years He also proposes a new version of the linguistic doctrine of logical truth and a new way of rehabilitating analyticity His rich exploration of Quine's thought will interest all those seeking to understand and evaluate the work of one of the most important philosophers of the second half of the twentieth century

**Wittgenstein's Tractatus** Peter M. **Wittgenstein and the Human Form of Life** Oswald Hanfling, 2003-08-29 Wittgenstein's later writings generate a great deal of controversy and debate as do the implications of his ideas for such topics as consciousness knowledge language and the arts Oswald Hanfling addresses a widespread tendency to ascribe to Wittgenstein views that go beyond those he actually held Separate chapters deal with important topics such as the private language argument rule following the problem of other minds and the ascription of scepticism to Wittgenstein Describing Wittgenstein as a humanist thinker he contrasts his views on language art humanity and philosophy itself with those of scientifically minded philosophers He argues that the human form of life calls for a kind of understanding that cannot be achieved by the methods of empirical science that consciousness for example cannot properly be regarded as a property of the brain and that the resulting problem of consciousness is an illusion Wittgenstein and the Human Form of Life is essential reading for anyone interested in Wittgenstein's approach to what it means to be human It will be

**Rousseau, Robespierre and English Romanticism** Gregory Dart,1999-02-25 This book re opens the question of Rousseau's influence on the French Revolution and on English Romanticism by examining the relationship between his confessional writings and his political theory Gregory Dart argues that by looking at the way in which Rousseau's writings

were mediated by the speeches and actions of the French Jacobin statesman Maximilien Robespierre we can gain a clearer and more concrete sense of the legacy he left to English writers He shows how the writings of William Godwin Mary Wollstonecraft William Wordsworth and William Hazlitt rehearse and reflect upon the Jacobin tradition in the aftermath of the French revolutionary Terror

**Between Kant and Hegel** George Di Giovanni, Henry Sifton Harris, 2000 This volume fills a lamentable gap in the philosophical literature by providing a collection of writings from the pivotal generation of thinkers between Kant and Hegel It includes some of Hegel's earliest critical writings which reveal much about his thinking before the first mature exposition of his position in 1807 as well as Schelling's justification of the new philosophy of nature against skeptical and religious attack This edition contains George di Giovanni's extensive corrections new preface and thoroughly updated bibliography

**Materialist Ethics and Life-Value** Jeff Noonan, 2012-02-02 Current patterns of global economic activity are not only unsustainable but unethical this claim is central to Materialist Ethics and Life Value Grounding the definition of ethical value in the natural and social requirements of life support and life development shared by all human beings Jeff Noonan provides a new way of understanding the universal conception of the good life Noonan argues that the true crisis affecting the world today is not sluggish rates of economic growth but the model of measuring economic and social health in terms of money value In response he develops an alternative understanding of good societies where the breadth and depth of life activity and enjoyment are dependent on dominant institutions The more social institutions satisfy the necessary requirements of human life the more they empower each person to develop and enjoy the capacities that make human life valuable and meaningful A well reasoned synthesis of traditional philosophical concerns and contemporary critiques of global capitalism this book is a forward looking treatise that defends political struggle and reconsiders what is most important for a happy life

Claude Buffier and Thomas Reid Louise Marcil-Lacoste, 1982 All too often it is said that common sense philosophers fail to justify their appeal to common sense as a philosophical standard and that they merely repeat one another in the glorification of philosophical trivialities This book challenges these and others
