"Beowulf" and Other Old English Poems Craig Williamson, 2011-06-30 The best known literary achievement of Anglo Saxon England

Beowulf is a poem concerned with monsters and heroes treasure and transience feuds and fidelity Composed sometime between 500 and 1000 C E and surviving in a single manuscript it is at once immediately accessible and forever mysterious And in Craig Williamson s splendid new version this often translated work may well have found its most compelling modern English interpreter Williamson s Beowulf appears alongside his translations of many of the major works written by Anglo Saxon poets including the elegies The Wanderer and The Seafarer the heroic Battle of Maldon the visionary Dream of the Rood the mysterious and heart breaking Wulf and Eadwacer and a generous sampling of the Exeter Book riddles Accompanied by a foreword by noted medievalist Tom Shippey on Anglo Saxon history culture and archaeology and Williamson s introductions to the individual poems as well as his essay on translating Old English the texts transport us back to the medieval scriptorium or ancient mead hall to share an exile s lament or herdsman s recounting of the story of the world s creation From the riddling song of a bawdy onion that moves between kitchen and bedroom to the thrilling account of Beowulf s battle with a treasure hoarding dragon the world becomes a place of rare wonder in Williamson s lines Were his idiom not so modern we might almost think the Anglo Saxon poets had taken up the lyre again and begun to sing after a silence of a thousand years

more important than ethnicity and says that the term Latino erases his nationality The dialogues also offer new insights on the place of Chicano writings in the U S Mexico borderlands on the Puerto Rican Nuyorican establishment and on the anti Castro stand of Cuban born poets As these writers answer questions about their work background ethnic identity and political ideology they provide a wealth of biographical intellectual and literary material collected here for the first time A Poet s Truth is a provocative and revealing book that not only conveys the fire of these writers passions but also sheds important light on a whole literary movement Interviews with Miguel Algarín Martín Espada Sandra Mar a Esteves Victor Hernández Cruz Carolina Hospital and Carlos Medina Demetria Martínez Pat Mora Judith Ortiz Cofer Ricardo Pau Llosa Gustavo Pérez Firmat Leroy Quintana Aleida Rodríguez Luis Rodríguez Benjamin Alire S enez Virgil Suárez

summarized into the following four topics Translation and Interpreting Theory and Practice Translation and Cross cultural Studies Evaluation of Translation and Interpretation and Studies on the Teaching of Translation By no means is it difficult to find some interesting and thought provoking papers under each topic For example concerning Translation and Interpreting Theory and Practice To Translate or not to Translate That is the Question On Metaphor Translation in Chinese Political works by Dong Yu explains that in judging whether or not a Chinese metaphor can be translated into English an indispensable step is to decide whether or not the two cultural connotations can be connected But this can easily be influenced by subjective factors Yu has suggested some ways in which subjective factors could be controlled to some extent so that the translator could be more confident in his or her decision He has also suggested three steps The first step is to assume that the cultural connotation of the Chinese metaphor can be connected with that of its English version For example the metaphor in could be translated as rain or shine The second step is to find out whether or not this translated version is acceptable both linguistically and culturally in English The third step is to consider the systematicity of the metaphor in regard with the context in both the source and target texts This involves a process of recontextualization When it comes to Translation and Cross cultural Studies On Translation of the English Guide interpreter from the Perspective of Intercultural Communication by Fengxia Liua and Xiaoning Bi points out that inbound tourism serves as a window through which foreign tourists get to know China so the interaction between the guide interpreters and foreign tourists are the typical activity of cultural communication Foreign language speaking guides are usually regarded as people to people ambassadors or cultural ambassadors who have played an essential role in the international tourist industry Therefore they argue that it is extremely important for tourist guides to cultivate their cross cultural communication awareness enhance their overall communicative competence observe and distinguish east and west differences with multi dimensional perspective transcend cultural barriers and learn to use translation skills Studies on the Teaching of Translation is another interesting topic that has attracted enormous attention such as Business Translation Teaching from the Perspective of Metaphors by Dandan Li which explores application of conceptual metaphor theory in the translation process of business lexicons business discourse and business English culture so as to provide a new perspective in business English pedagogy Another study entitled Cognitive Studies in Translation by Xin Huang analyzes the cognitive studies of translation interpreting processes over the past three decades with focus on the issues examined the findings reached as well as the recent development She explains that cognitive studies of translation process examine the translation competence on line translation behaviors such as how the eye gazes and how the words are typed and the brain activities when doing translation Special interests are paid to the working memory problem solving the executive function and some linguistic relative factors such as text difficulty Over the past thirty years the interest in the field has been gaining considerable momentum and increasing issues have been involved Finally she concludes that with the advancement of technologies and interdisciplinary approaches the black box the previously

unforeseeable cognitive activities of how human process translation can be unfolded Considering the importance of integrating theory with practice the proceedings are therefore compiled in such a way as to be balanced and inclusive in the hope of summarizing current accomplishments as well as providing certain insights for teaching and further research in the field of translation and interpretation studies **Identity, Home and Writing Elsewhere in Contemporary Chinese**
