Mainline Manifesto The Inevitable New Church:

Mainline Manifesto Charles Denison, 2005 This book is indeed a manifesto with a passionate style that is never preachy or condemning but full of hope and excitement about the future of mainline congregations Its underlying premise is that God will always have a people that Christians will always come together to worship and to do God's work in the world Denison argues that the future of the church lies not in just replacing the WWII generation with GenXers or younger people within its present structure Mainline congregations must envision their part in a new church one that calls forth new mission leaders to model the incarnational style of Jesus God is not unpopular among younger generations with 90 percent of Americans professing a belief in God In this rousing call to hope Denison lays out a plan for connecting that 90 percent with God through Jesus as he sets forth a positive agenda for communicating the relevance of the mainline tradition's message

[A Church Wide Enough for Everyone](#) Steven H. Propp, 2018-02-03 Robert Schaeffer and Douglas West are best friends living in Oklahoma in 1963 when they discover that they both sense a calling to become ministers in a mainline Christian denomination But from seminary and their early years in ministry to their golden years looking back on what it takes to lead a congregation a stimulating sometimes puzzling yet often inspirational world of theological controversies and congregational concerns would unfold for these two men of God [A Church Wide Enough for Everyone](#) follows these two men on their journey to demonstrate the continuing relevance of the Christian faith in a postmodern world After moving to Berkeley California to attend college and seminary they have little time to ponder the vast social changes taking place before they immediately enter into intensive critical study of the Bible and Christian theology And as Robert is then thrust into the ordained ministry with his wife Faye both men must in their own ways face the political cultural and ideological pressures of each passing decade responding to challenges from both within the church and from outsiders Are mainline churches and Christian theology dead Or might they be revitalized in the current century [A Church Wide Enough for Everyone](#) and the inspired journeys of two ministers offers a window into how this revitalization and new understanding is possible

The Artist's Way of Preaching Charles Denison, **Manifesto for Learning** Donn F. Morgan, 2012. This book stresses the importance of active advocacy for education in the church, suggesting the balance between worship, social service, and education is out of whack. Morgan promotes a new understanding of education at all levels of church life that takes the discussion beyond questions of survival, finances, and status quo to discover new roles in developing mission through the church and out in the world.

The Church Cracked Open Stephanie Spellers, 2021-03-17. This book will make a profound difference for the church in this moment in history. The Most Reverend Michael B. Curry: Sometimes it takes disruption and loss to break us open and call us home to God. It's not surprising that a global pandemic and once in a generation reckoning with white supremacy on top of decades of systemic decline have spurred Christians everywhere to ask who we are, why God placed us here, and what difference that makes to the world. In this critical yet loving book, the author explores the American story and the Episcopal story in order to find out how communities steeped in racism, establishment, and privilege can at last fall in love with Jesus, walk humbly with the most vulnerable, and embody beloved community in our own broken but beautiful way. *The Church Cracked Open* invites us to surrender privilege and redefine church not just for the sake of others but for our own salvation and liberation.

The End of Empathy John W. Compton, 2020 How did white evangelicals a group that had once rallied national support for the federal minimum wage and progressive child labor laws vote overwhelmingly for Donald Trump in 2016 In The End of Empathy John W Compton presents a nuanced portrait of the changing values of evangelical voters over the last century To explain the rise of white Protestant social concern in the latter part of the nineteenth century and its sudden demise at the end of the twentieth Compton argues that religious conviction by itself is rarely sufficient to motivate empathetic political behavior When believers do act empathetically championing reforms that transfer resources or political influence to less privileged groups within society for example it is typically because strong religious institutions have compelled them to do so
