## **Mainstreams In American Aesthetics A Mar:**

*Literary Gestures* Rocio G Davis, Sue-Im Lee, 2009-08-31 Form as function in Asian American literature      *Into the Mainstream* Jorge Febles, 2009-03-26 *Into the Mainstream* Essays on Spanish American and Latino Literature and Culture is a direct outgrowth of Jorge Febles's involvement with the annual conference of the American Culture Association and the Popular Culture Association. In that sense the compilation expands on a project initiated in 1993 by Helen Ryan Ransom with her book *Imagination Emblems and Expressions* Essays on Latin American Caribbean and Continental Culture and Identity Bowling Green Ohio Bowling Green State University Popular Press 1993 David William Foster who penned a lengthy preface to that collection justified its intent by underscoring The very fact that our approach to culture is dominated by categories based on high academic institutionalized phenomena poses from the very outset the question of how to deal with all those other cultural manifestations that do not comfortably assimilate to the accepted canon Ryan Ransom 3 The past fourteen years however have witnessed a radical transformation of that so called canon due to the widespread acceptance of ideas espoused by cultural theorists like Garcia Canclini Homi Bhabha Said Stuart Hall Benhabib Bourdieu and countless others. Therefore the ambivalence regarding what constitutes culture identified by Foster is inoperative nowadays to a substantial degree. In fact a fundamental component of the postmodern outlook resides in the ability to blend comfortably the high and the low the elitist and the popular realms of production in a multiplicity of textual artifacts creative as well as critical in nature. Hence the essays that conform *Into the Mainstream* do not question barriers anymore nor do they expound on the need to assign a discursive intellectual space to matters pertaining to popular culture. Thus this collection espouses an inclusive approach in which a variety of analytical approaches coalesce to reflect on an equally kaleidoscopic textuality. Pursuant to its comprehensive nature *Into the Mainstream* airs established as well as developing critical voices so as to reflect both ideological continuity and evolving viewpoints. Scholars who have compiled strong academic records like Hortensia Morell Raquel Rivas Rojas Elsa Gilmore David Petreman and Benjamin Torres Caballero share a venue with younger critics like Corey Shouse Tourino Roberto Vela C rdova Stacy Hoult Eduardo del R o Bruce Campbell Laura Redruello Dinora Cardoso and April Marshall as well as with two graduate students about to complete their academic preparation Nuria Ib ez Quintana and Mar a Teresa Vera Rojas. The result is an eclectic compilation meant to elicit discussion on the basis of its variety. *Into the Mainstream*'s primordial objective is to place these provocative essays which are expanded versions of papers presented during the annual gathering of the American Culture Association and the Popular Culture Association in the period 2002 2005 along with the numerous subjects they treat in the academic mainstream where they rightfully belong.

*Interracial Encounters* Julia H. Lee, 2011 Why do black characters appear so frequently in Asian American literary works and Asian characters appear in African American literary works in the early twentieth century *Interracial Encounters* attempts to answer this rather straightforward literary question arguing that scenes depicting Black Asian interactions relationships and conflicts capture the constitution of African American and Asian American identities as each group struggled to negotiate the racially exclusionary nature of American identity In this nuanced study Julia H Lee argues that the diversity and ambiguity that characterize these textual moments radically undermine the popular notion that the history of Afro Asian relations can be reduced to a monolithic media friendly narrative whether of cooperation or antagonism Drawing on works by Charles Chesnutt Wu Tingfang Edith and Winnifred Eaton Nella Larsen W E B Du Bois and Young-hill Kang *Interracial Encounters* foregrounds how these reciprocal representations emerged from the nation's pervasive pairing of the figure of the Negro and the Asiatic in oppositional overlapping or analogous relationships within a wide variety of popular scientific legal and cultural discourses Historicizing these interracial encounters within a national and global context highlights how multiple racial groups shaped the narrative of race and national identity in the early twentieth century as well as how early twentieth century American literature emerged from that multiracial political context

Gilman, 2021-12-07 Nose reconstructions have been common in India for centuries South Korea Brazil and Israel have become international centers for procedures ranging from eyelid restructuring to buttock lifts and tummy tucks Argentina has the highest rate of silicone implants in the world Around the globe aesthetic surgery has become a cultural and medical

fixture Sander Gilman seeks to explain why by presenting the first systematic world history and cultural theory of aesthetic surgery Touching on subjects as diverse as getting a nose job as a sweet sixteen birthday present and the removal of male breasts in seventh century Alexandria Gilman argues that aesthetic surgery has such universal appeal because it helps people to pass to be seen as a member of a group with which they want to or need to identify Gilman begins by addressing basic questions about the history of aesthetic surgery What surgical procedures have been performed Which are considered aesthetic and why Who are the patients What is the place of aesthetic surgery in modern culture He then turns his attention to that focus of countless human anxieties the nose Gilman discusses how people have reshaped their noses to repair the ravages of war and disease principally syphilis to match prevailing ideas of beauty and to avoid association with negative images of the Jew the Irish the Oriental or the Black He examines how we have used aesthetic surgery on almost every conceivable part of the body to try to pass as younger stronger thinner and more erotic Gilman also explores some of the extremes of surgery as personal transformation discussing transgender surgery adult circumcision and foreskin restoration the enhancement of dueling scars and even a performance artist who had herself altered to resemble the Mona Lisa The book draws on an extraordinary range of sources Gilman is as comfortable discussing Nietzsche Yeats and Darwin as he is grisly medical details Michael Jackson and Barbra Streisand's decision to keep her own nose The book contains dozens of arresting images of people before during and after surgery This is a profound provocative and engaging study of how humans have sought to change their lives by transforming their bodies

**Artists in the Audience** Greg Taylor, 2018-06-05 Gone with the Wind an inspiration for the American avant garde Mickey Mouse a crucial source for the development of cutting edge intellectual and aesthetic ideas As Greg Taylor shows in this witty and provocative book the idea is not so far fetched One of the first ever studies of American film criticism Artists in the Audience shows that film critics beginning in the 1940s turned to the movies as raw material to be molded into a more radical modernism than that offered by any other contemporary artists or thinkers In doing so they offered readers a vanguard alternative that reshaped postwar American culture nonaesthetic mass culture reconceived and refashioned into rich personally relevant art by the attuned creative spectator
