Mainstreams Of World History:

Margins and Mainstreams Gary Y. Okihiro, 2014-04-01 In this classic book on the meaning of multiculturalism in larger American society Gary Okihiro explores the significance of Asian American experiences from the perspectives of historical consciousness race gender class and culture While exploring anew the meanings of Asian American social history Okihiro argues that the core values and ideals of the nation emanate today not from the so called mainstream but from the margins from among Asian and African Americans Latinos and American Indians women and the gay and lesbian community Those groups in their struggles for equality have helped to preserve and advance the founders ideals and have made America a more democratic place for all

Rethinking World History Marshall G. S. Hodgson, 1993-05-28 Is the history of the modern world the history of Europe writ large Or is it possible to situate the history of modernity as a world historical process apart from its origins in Western Europe In this posthumous collection of essays Marshall G S Hodgson challenges adherents of both Eurocentrism and multiculturalism to rethink the place of Europe in world history He argues that the line that connects Ancient Greeks to the Renaissance to modern times is an optical illusion and that a global and Asia centred history can better locate the European experience in the shared histories of humanity Hodgson then shifts the historical focus and in a parallel move seeks to locate the history of Islamic civilisation in a world historical framework In so doing he concludes that there is but one history global history and that all partial or privileged accounts must necessarily be resituated in a world historical context The book also includes an introduction by the editor Edmund Burke contextualising Hodgson s work in world history and Islamic history

History,

Historians and the Immigration Debate Eureka Henrich, Julian M. Simpson, 2018-10-13 This book is a response to the binary thinking and misuse of history that characterize contemporary immigration debates Subverting the traditional injunction directed at migrants to go back to where they came from it highlights the importance of the past to contemporary discussions around migration It argues that historians have a significant contribution to make in this respect and shows how this can be done with chapters from scholars in Asia Europe Australasia and North America Through their work on global transnational and national histories of migration an alternative view emerges one that complicates our understanding of 21st century migration and reasserts movement as a central dimension of the human condition History Historians and the Immigration Debate makes the case for historians to assert themselves more confidently as expert commentators offering a reflection on how we write migration history today and the forms it might take in the future

Schaeffer, 2022-03-09 Francis Schaeffer's Classic Analysis of the Rise and Decline of Western Thought and Culture Civilizations throughout history have built societies around their own limited value systems including rulers finite gods or relativism only to fail The absence of a Christian foundation eventually leads to breakdown and those signs are visible in present day culture as well Can modern society avoid the same fate In this latest edition of How Should We Then Live theologian Francis A Schaeffer traces the decline of Western culture from the fall of Rome through the Middle Ages and the Enlightenment and up to the twentieth century Studying humanism's impact on philosophy science and religion he shows how this worldview historically results in apathy chaos and decline Schaeffer's important work calls on readers to live instead by Christian ethics placing their trust in the infinite personal God of the Bible Originally written in 1976 How Should We Then Live remains remarkably applicable today A Theology Classic Written by renowned Christian philosopher Francis A Schaeffer For Those Interested in Philosophy and History Engages with the ideas of Plato John Locke Thomas Jefferson and Voltaire and examines the art architecture and ideas that shaped modern society Explores the Importance of a Christian Worldview A practical assessment of the evolution

of culture and the steadfast alternative offered by the biblical perspective The Sea and Civilization Lincoln Paine, 2015-10-27 A monumental retelling of world history through the lens of the sea revealing in breathtaking depth how people first came into contact with one another by ocean and river lake and stream and how goods languages religions and entire cultures spread across and along the world's waterways bringing together civilizations and defining what makes us most human The Sea and Civilization is a mesmerizing rhapsodic narrative of maritime enterprise from the origins of long distance migration to the great seafaring cultures of antiquity from Song Dynasty human powered paddle boats to aircraft carriers and container ships Lincoln Paine takes the reader on an intellectual adventure casting the world in a new light in which the sea reigns supreme Above all Paine makes clear how the rise and fall of civilizations can be linked to the sea An accomplishment of both great sweep and illuminating detail The Sea and Civilization is a stunning work of history **From the Left Bank to the Mainstream** Patrick McGuire, Donald McQuarie, 1994 Chapter 1 Introduction U S Sociology the American Dream and the Specter of Karl Marx Part 2 Part I Social Structure and Processes Chapter 3 Class Structure Class Not Strata It's Not Just Where You Stand But What You Stand For Chapter 4 Social Movements An Argument for Understanding Social Movements as Class Movements Chapter 5 Gender Marxist Theory and the Oppression of Women Chapter 6 Race Classical and Recent Theoretical Developments in the Marxist Analysis of Race and Ethnicity Chapter 7 Social Change and Development A World After Its Own Image The Marxist Paradigm and Theories of Capitalist Development on a World Scale Chapter 8 Labor Labor's Crisis and the Crisis of Labor Studies Toward a Retheorized Sociology of Labor Chapter 9 State and Politics From the King of Prussia to the New World Order Marxist Theories of State and Power Chapter 10 Corporations and the Economy Marxist Scholarship and the Corporate Economy Chapter 11 Education and Knowledge Reading Class Marxist Theories of Education Chapter 12 Medicine and Public Health The Study of the Health Care System The Marxist Critique of a Dominant Paradigm Chapter 13 Religion Marxist Christian Dialogues The Liberation of Theology Chapter 14 Crime and Law Rediscovering Criminology Lessons from the Marxist Tradition Chapter 15 Urban and Regional Development Views of the City Urban and Regional Sociology The Belt and Road Initiative and Australian Mainstream Media Jon Yuan Jiang, 2024-04-01 This book focuses on Australian mainstream media narratives about the Belt and Road Initiative BRI from 2013 to 2020 Set against the background of Sino Australian relations and taking into account the different media systems of China and Australia this book also critically investigates the Chinese public diplomacy narratives of the BRI Drawing on my analysis and semi structured interviews with prominent experts in this area the book addresses an important but under explored question how have Australian mainstream media narratives portrayed the BRI of the Chinese Government from 2013 to 2020 This book fills a gap regarding the portrayal of the BRI in Australian mainstream media and provides new insights into the reasons for narrative shifts in the coverage of the BRI More concretely the book finds that the public diplomacy narratives of the BRI were not explained well by Chinese officials thus allowing Australian journalists and

commentators to project their own negative fearful narratives of China onto the BRI project particularly from 2017 onwards More importantly this book argues that the Australian Federal Government s policy towards China had a significant impact on the Australian media s coverage of the BRI that the media clearly followed the Australian Federal Government s lead and not vice versa Thus in many ways Australian mainstream media narratives of the BRI have had a similar outcome as China s ostensibly much more restrictive and propagandistic state dominated media system Noticeably this book not only has academic significance in the international research community but also holds practical importance in the real world benefiting Australian business leaders media professionals think tank specialists and policymakers

Beyond Mainstream Explanations of the Financial Crisis Ismael Hossein-zadeh,2014-04-16 This book provides a critique of the neoclassical explanations of the 2008 financial collapse of the ensuing long recession and of the neoliberal austerity responses to it The study argues that while the prevailing views of deregulation and financialization as instrumental culprits in the explosion and implosion of the financial bubble are not false they fail to point out that financialization is essentially an indication of an advanced stage of capitalist development These standard explanations tend to ignore the systemic dynamics of the accumulation of finance capital the inherent limits to that accumulation production and division of economic surplus class relations and the balance of social forces that mold economic policy Instead of simply blaming the irrational behavior of market players as neoliberals do or lax public supervision as Keynesians do this book focuses on the core dynamics of capitalist development that not only created the financial bubble but also fostered the irrational behavior of market players and subverted public policy Due to its interdisciplinary perspective this book will be of interest to students and researchers in economics finance politics and sociology

The Mainstream Companion to

Scottish Literature Trevor Royle, 2012-01-06 The Mainstream Companion to Scottish Literature is the most comprehensive reference guide to Scotland's literature covering a period from the earliest times to the early 1990s. It includes over 600 essays on the lives and works of the principal poets, novelists, dramatists, critics, and men and women of letters who have written in English, Scots, or Gaelic. Thus, as well as such major writers as Robert Henryson, William Dunbar, Gavin Douglas, Allan Ramsay, Robert Ferguson, Robert Burns, Walter Scott, Robert Louis Stevenson, and Hugh MacDiarmid, the Companion also lists many minor writers whose work might otherwise have been overlooked in any survey of Scottish literature. Also included here are entries on the lives of other more peripheral writers such as historians, philosophers, diarists, and divines whose work has made a contribution to Scottish letters. Other essays range over such general subjects as the principal work of major writers, literary movements, historical events, the world of printing and publishing, folklore, journalism, drama, and Gaelic. A feature of the book is the inclusion of the bibliography of each writer and reference to the major critical works. This comprehensive guide is an essential tool for the serious student of Scottish literature as well as being an ideal guide and companion for the general reader.

Franz Brentano and Austrian Philosophy Denis Fisette, Guillaume Fréchette, Friedrich Stadler, 2020-12-05 The book discusses Franz Brentano's impact on Austrian philosophy. It contains both a critical reassessment of Brentano's place in the development of Austrian philosophy at the turn of the 20th century and a reevaluation of the impact and significance of his philosophy of mind or descriptive psychology, which was Brentano's most important contribution to contemporary philosophy and to the philosophy in Vienna. In addition, the relation between Brentano's phenomenology and the Vienna Circle is investigated together with a related documentation of Brentano's disciple Alfred Kastil in German. The general part deals with the ongoing discussion of Carnap's Aufbau, Vienna Circle, Lecture by Alan Chalmers, and the philosophy of mind with a focus on physicalism as discussed by Carnap and Wittgenstein. Gergely Ambrus's usual two reviews of recent publications in the philosophy of mathematics, Paolo Mancosu, and research on Otto Neurath's lifework, Jordi Cat, Adam Tübböck, are included as related research contributions. This book is of interest to students, historians, and philosophers dealing with the history of Austrian and German philosophy in the 19th and 20th century.

Storied Lives Gary Y. Okihiro, 2011-10-01 During World War II, over 5,500 young Japanese Americans left the concentration camps to which they had been confined with their families in order to attend college. Storied Lives describes, often in their own words, how Nisei students found schools to attend outside the West Coast exclusion zone and the efforts of white Americans to help them. The book is concerned with the deeds of white and Japanese Americans in a mutual struggle against racism and argues that Asian American studies, indeed race relations as a whole, will benefit from an understanding not only of racism but also of its opposition, antiracism. To uncover this little-known story, Gary Okihiro surveyed the colleges and universities the Nisei attended, collected oral histories from Nisei students and student relocation staff members, and examined the records of the National Japanese American Student Relocation Council and other materials.

Out of the Mainstream Rutgerd Boelens,David H. Getches,Jorge Armando Guevara Gil,2010 Water is not only a source of life and culture It is also a source of power conflicting interests and identity battles Rights to materially access culturally organize and politically control water resources are poorly understood by mainstream scientific approaches and hardly addressed by current normative frameworks These issues become even more challenging when law and policy makers and dominant power groups try to grasp contain and handle them in multicultural societies The struggles over the uses meanings and appropriation of water are especially well illustrated in Andean communities and local water systems of Peru Chile Ecuador and Bolivia as well as in Native American communities in south western USA The problem is that throughout history these nation states have attempted to civilize and bring into the mainstream the different cultures and peoples within their borders instead of understanding context and harnessing the strengths and potentials of diversity This book examines the multi scale struggles for cultural justice and socio economic redistribution that arise as Latin American communities and user federations seek access to water resources and decision making power regarding their control and management It is set in the dynamic context of unequal globalizing power relations politics of scale and identity environmental encroachment and the increasing presence of extractive industries that are creating additional pressures on local livelihoods While much of the focus of the book is on the Andean Region a number of comparative chapters are also included These address issues such as water rights and defence strategies in neighbouring countries and those of Native American people in the southern USA as well as state reform and multi culturalism across Latin and Native America and the use of international standards in struggles for indigenous water rights This book shows that against all odds people are actively contesting neoliberal globalization and water power plays In doing so they construct new hybrid water rights systems livelihoods cultures and hydro political networks and dynamically challenge the mainstream powers and politics Publisher's description
