leasing is therefore growing very quickly Bringing together the laws affecting both air travel and leasing can however be challenging This book is the first to assume this task in a major focused way thus providing invaluable expert guidance to practitioners handling aircraft lease agreements as well as to legal academics and students In this third edition the author examines the aircraft operating lease from both a legal and practical point of view and contextualizes it in light of the latest public and private international air law agreements case law statutes and regulations from a variety of jurisdictions and current literature in the field the obligations and rights of each party failure to meet delivery conditions before delivery standby letters of credit and guarantees regulatory constraints concerning aircraft registration or foreign remittances manufacturer s warranties possession and replacement of parts and engines sub leasing damage to the aircraft and other loss to lessor liability for damage to third parties safety issues and lessor s liability for acts of the airline the events that will entitle the lessor to terminate the contract and recover its asset issues pertaining to enforcement of remedies and governing law The format broadly follows that of a typical aircraft operating lease The author flags the principal legal issues to be considered in developing a standard form aircraft operating lease and makes recommendations in that regard His approach balances the desired commercial outcome with the legal or more theoretical mandate to apply the law to disputes that may arise An immensely useful supplement sets out a real example of a form of aircraft operating lease for a used aircraft as used by a leading commercial aircraft leasing company As a detailed examination of each part of the lease with particular reference to the impact on each term of relevant case law statutes regulations and international treaties this work greatly enhances understanding of the legal and practical aspects of the aircraft operating lease
