Lou Sur La Lune:

Description de la Glyptothèque de Sa Majesté Louis I., Roi de Bavière Leo Ritter von Klenze, Ludwig Schorn, 1835

Nicolas-Louis De La Caille, Astronomer and Geodesist Ian S. Glass, 2013 This is the first comprehensive biography of one of the greatest and most careful observational astronomers of all time He mapped the southern sky and named many of the constellations In addition he contributed to geodesy navigation and celestial mechanics The Sun King at Sea Meredith

Martin, Gillian Weiss, 2022-01-04 This richly illustrated volume the first devoted to maritime art and galley slavery in early modern France shows how royal propagandists used the image and labor of enslaved Muslims to glorify Louis XIV

Mediterranean maritime art and the forced labor on which it depended were fundamental to the politics and propaganda of France s King Louis XIV r 1643 1715 Yet most studies of French art in this period focus on Paris and Versailles overlooking the presence or portrayal of galley slaves on the kingdom s coasts By examining a wide range of artistic productions ship design artillery sculpture medals paintings and prints Meredith Martin and Gillian Weiss uncover a vital aspect of royal representation and unsettle a standard picture of art and power in early modern France With an abundant selection of startling images many never before published The Sun King at Sea emphasizes the role of esclaves turcs enslaved Turks rowers who were captured or purchased from Islamic lands in building and decorating ships and other art objects that circulated on land and by sea to glorify the Crown Challenging the notion that human bondage vanished from continental France this cross disciplinary volume invites a reassessment of servitude as a visible condition mode of representation and symbol of sovereignty during Louis XIV s reign **The French Book Trade in Enlightenment Europe I** Mark

Curran, 2018-08-09 This volume is a ground breaking contribution to enlightenment studies and the international and cross cultural history of print The result of a five year research project the volume traces the output and dissemination of books and how reading tastes changed in the years 1769 1794 Mapping the book trade of the Soci t Typographique de Neuch tel STN a Swiss publisher wholesaler which operated throughout Europe the authors reconstruct the cosmopolitan elite culture of the later enlightenment incorporating many engaging case studies The STN s archives are uniquely rich in both detail and range and while these archives have long attracted book historians notably Robert Darnton a leading scholar of the Enlightenment existing work is fragmentary and limited in scope By means of comparative study the author considers the entire book market across Europe making local regional and chronological nuances based on advanced taxonomies of subject content author information markers of illegality and much more This volume is in short the most diverse and detailed study of the late 18th century book trade yet while offering fresh insights into the enlightenment **Catalogue de la très-belle**
