Louis Kahn To Anne Tyng Louis I. Kahn, 1997-03-01 After maintaining a professional and personal relationship with architect Louis Kahn for 7 years Anne Tyng left in 1953 for Rome During her year in Italy where their daughter was born Kahn wrote weekly to Tyng and his correspondence to her is published here The 53 letters document not only their private relationships but also give a vibrant account of the experience of a brilliant young architect on the cusp of achieving international renown Tyng's intro and epilogue frame Kahn's letters within the contexts of both their personal histories Tyng's account of her own life reveals Tyng to be a gifted writer Records the sequence of Kahn's and her work together including their collaboration on such works as the Yale Univ Art Gallery as well as her independent architectural projects III You Say to Brick Wendy Lesser, 2017-03-14 Born in Estonia 1901 and brought to America in 1906 the architect Louis Kahn grew up in poverty in Philadelphia By the time of his mysterious death in 1974 he was widely recognized as one of the greatest architects of his era Yet this enormous reputation was based on only a handful of masterpieces all built during the last fifteen years of his life Wendy Lesser's You Say to Brick The Life of Louis Kahn is a major exploration of the architect's life and work Kahn perhaps more than any other twentieth century American architect was a public architect Rather than focusing on corporate commissions he devoted himself to designing research facilities government centers museums libraries and other structures that would serve the public good But this warm captivating person beloved by students and admired by colleagues was also a secretive man hiding under a series of masks Kahn himself however is not the only complex subject that comes vividly to life in these pages His signature achievements like the Salk Institute in La Jolla the National Assembly Building of Bangladesh and the Indian Institute of Management in Ahmedabad can at first seem as enigmatic and beguiling as the man who designed them In attempts to describe these structures we are often forced to speak in contradictions and paradoxes structures that seem at once unmistakably modern and ancient enormous built spaces that offer a sense of intimate containment designs in which light itself seems tangible a raw material as tactile as travertine or Kahn's beloved concrete This is where Lesser's talents as one of our most original and gifted cultural critics come into play Interspersed throughout her account of Kahn's life and career are exhilarating in situ descriptions of what it feels like to move through his built structures Drawing on extensive original research lengthy interviews with his children his colleagues and his students and travel to the far flung sites of his career defining buildings Lesser has written a landmark biography of this elusive genius revealing the mind behind some of the twentieth century's most celebrated architecture **Louis Kahn** Mateo Kries, Jochen

Eisenbrand, Stanislaus von Moos, 2012 The American architect Louis Kahn 1901-1974 is regarded as one of the great master builders of the twentieth century With complex spatial compositions an elemental formal vocabulary and a choreographic mastery of light Kahn created buildings of archaic beauty As the first comprehensive publication on this architect in 20 years the book *Louis Kahn: The Power of Architecture* presents all of his important projects It includes essays by prominent Kahn experts and an expansive illustrated biography with many new facts and insights about Kahn's life and work In a number of interviews leading architects such as Frank Gehry Renzo Piano Peter Zumthor and Sou Fujimoto underline Kahn's significance in today's architectural discourse An extensive catalogue of works features original drawings and architectural models from the Kahn archive The compendium is further augmented by a portfolio of Kahn's travel drawings as well as photographs by Thomas Florschuetz which offer completely new views of the Salk Institute and the Indian Institute of Management

Louis Kahn's Situated Modernism Sarah Williams Goldhagen, Sarah Goldhagen Williams, Louis I. Kahn at Penn James Williamson, 2015-03-24 Louis I Kahn is widely known as an architect of powerful buildings But although much has been said about his buildings almost nothing has been written about Kahn as an unconventional teacher and philosopher whose influence on his students was far reaching Teaching was vitally important for Kahn and through his Master's Class at the University of Pennsylvania he exerted a significant effect on the future course of architectural practice and education This book is a critical in depth study of Kahn's philosophy of education and his unique pedagogy It is the first extensive and comprehensive investigation of the Kahn Master's Class as seen through the eyes of his graduate students at Penn

been confronting this question both professionally and personally Finally she decided to see for herself whether it was possible to build the home of her own dreams for a reasonable sum The Perfect 100 000 House is the story of that quest a search that takes her from a two week crash course in housebuilding in Vermont to a road trip of some 14 000 miles In the course of her journey Jacobs encounters a group of intrepid and visionary architects and builders working to revolutionize the way Americans think about homes about construction techniques and about the very idea of community By her trip's end Jacobs has not only had a practical and sobering education in the economics aesthetics and politics of homebuilding but has been spurred to challenge her own deeply held beliefs about what constitutes an ideal home The Perfect 100 000 House is a compelling and inspiring demonstration that we can live in homes that are sensible modest and beautiful The Evolution of a Building Complex Jeffry Kieffer,2019 The first book to explore the entire Salk Institute complex which is often considered to be Kahn's most important commission An in depth examination focusing on the design development including the built Laboratory building the unbuilt Meeting House and Visiting Fellows residences and the overall site planning of the complex with emphasis on Salk's role in the decision making process What Will be Has Always Been Louis I. has been the topic of much recent discourse He argues that the emotional impact of great architecture remains vital even as he welcomes the shift in the field to an increased emphasis on social justice and sustainability *Building Up and Tearing Down* Paul Goldberger, 2009-10-13 PAUL GOLDBERGER ON THE AGE OF ARCHITECTURE The Guggenheim Museum Bilbao by Frank Gehry the CCTV Headquarters by Rem Koolhaas the Getty Center by Richard Meier the Times Building by Renzo Piano Pulitzer Prize winning critic Paul Goldberger's tenure at The New Yorker has documented a captivating era in the world of architecture one in which larger than life buildings urban schemes historic preservation battles and personalities have commanded an international stage Goldberger's keen observations and sharp wit make him one of the most insightful and passionate architectural voices of our time In this collection of fifty seven essays the critic Tracy Kidder called America's foremost interpreter of public architecture ranges from Havana to Beijing from Chicago to Las Vegas dissecting everything from skyscrapers by Norman Foster and museums by Tadao Ando to airports monuments suburban shopping malls and white brick apartment houses This is a comprehensive account of the best and the worst of the age of architecture On Norman Foster Norman Foster is the Mozart of modernism He is nimble and prolific and his buildings are marked by lightness and grace He works very hard but his designs don't show the effort He brings an air of unnerving aplomb to everything he creates from skyscrapers to airports research laboratories to art galleries chairs to doorknobs His ability to produce surprising work that doesn't feel labored must drive his competitors crazy On the Westin Hotel The forty five story Westin is the most garish tall building that has gone up in New York in as long as I can remember It is fascinating if only because it makes Times Square vulgar in a whole new way extending up into the sky It is not easy these days to go beyond the bounds of taste If the architects the Miami based firm Arquitectonica had been trying to allude to bad taste one could perhaps respect what they came up with But they simply wanted like most architects today to entertain us On Mies van der Rohe Mies's buildings look like the simplest things you could imagine yet they are among the richest works of architecture ever created Modern architecture was supposed to remake the world and Mies was at the center of the revolution but he was also a counterrevolutionary who designed beautiful things His spare minimalist objects are exquisite He is the only modernist who created a language that ranks with the architectural languages of the past and while this has sometimes been troubling for his reputation his architectural forms become more astonishing as time goes on **Serious Play** Monica Obniski, Darrin Alfred, 2018-01-01 A lively exploration of eclecticism playfulness and whimsy in American postwar design including architecture graphic design and product design This spirited volume shows how postwar designers embraced whimsy and eclecticism in their work exploring playfulness as an essential construct of modernity Following World War II Americans began accumulating more and more goods spurring a transformation in the field of interior decoration Storage walls became ubiquitous often serving as a home's centerpiece Designers such as Alexander Girard encouraged homeowners to populate their new shelving units with folk art as well as unconventional and modern objects to produce innovative and unexpected

juxtapositions within modern architectural settings Playfulness can be seen in the colorful child sized furniture by Charles and Ray Eames who also produced toys And in the postwar corporate world the concept of play is manifested in the influential advertising work of Paul Rand Set against the backdrop of a society that was experiencing rapid change and high anxiety Serious Play takes a revelatory look at how many of the country s leading designers connected with their audience through wit and imagination **The Art Museums of Louis I.
